Passed unanimously.

BOARD OF ADJUSTMENTS

13. CONDUCT A PUBLIC HEARING, discuss and consider action on a request from applicant, Dalia Sanchez, on behalf of property owner Luis Garcia, requesting a variance from the minimum oneacre lot size requirements to allow for two existing tracts of land comprised of 0.194 acres and 0.251 acres, respectively, to be platted into a single tract of land totaling approximately .435 acres for the construction of a single-family home. (2023-0417-02VARIANCE)

Mayor opened public Hearing at 6:32 P.M.

Applicant spoke on behalf of request.

Mayor closed public hearing at 6:39 P.M.

Motion to approve contingent upon meeting Town's construction requirements, including but not limited to the septic system made by Meek; Second by Paus; Passed unanimously.

REGULAR SESSION

14. Presentation and consideration of the Town of Cross Roads Annual Financial Report for the year ended September 30, 2022.

Presentation by MWH Group. Motion to accept the Fiscal Year 2022 Audited Financial Statements made by Paus; Second by Zuczek; Passed unanimously.

Mayor Tompkins moved to Items 17 through 19.

17. Discuss and consider a request for a waiver from Section 3.13.001 of the Town's Code of Ordinances by New Hope Baptist Church to allow for a temporary parking lot to be constructed of material other than concrete or asphalt for property located at 5800 US 377 until May 2024. (2023-0505-01WAIVER)

Motion to approve a temporary parking lot until May 31, 2024 contingent on the applicant submitting an acceptable final design to be reviewed and approved by the Town Engineer made by Zuczek; Second by Housewright;

Passed unanimously.

18. Discuss and consider approval of a replat application for the Cross Roads Retail Addition, Block A, Lot 7R6 generally described as property located north of US Hwy 380 and east of Walmart Dr. in the Villages of Cross Roads Commercial development within the Town of Cross Roads for Caliber Carwash. (2023-0508-02FPLAT) Motion to approve made by Housewright; Second by Meek;

Passed unanimously.

EXECUTIVE SESSION

- **19.** The Town Council may convene into Executive Session pursuant to Texas Government Code, annotated, Chapter 551, Subchapter D for the following:
 - a. Section 551.071 Consultation with Attorney Council Members Roles, Responsibilities and Duties; and, Nonconforming Uses
 - b. Section 551.072 Deliberation Regarding Real Property Project Alpha
 - c. Section 551.087 Deliberation Regarding Economic Development Negotiations Project Bravo
 - d. Section 551.074 Personnel Town Administratoru Renformance Evaluation Palanting23

and Zoning Commissioners and Municipal Development District Members.

Town Council convened into Executive Session at 7:02 P.M. Town Council reconvened into Regular Session at 9:16 P.M.

Mayor opened Public Hearing for both Items 15 and 16 at 9:18 P.M. Sam Burke spoke on behalf of the applicant's request. Mayor closed Public Hearing at 9:27 P.M.

- 15. 8000 US 380:
 - a. CONDUCT A PUBLIC HEARING, discuss and consider an application by William Snyder for a <u>change in Future Land Use Map per the submitted application from C2-Commercial</u> <u>2 to C1-Commercial 1</u> for Tract 39 of the R.J. Moseley Abstract No. 803A, generally located at 8000 US 380, Cross Roads, Denton County, Texas. Per the Town's Comprehensive Land Use Plan adopted on March 20, 2023, the C2-Commercial 2 to C1-Commercial 1 categories no longer exist. The applicant will need to modify the request to change the future land use to Business Services or Commerce. (2023-0508-07FLUP)
 - b. CONDUCT A PUBLIC HEARING, discuss and consider an application by William Snyder for a <u>change in zoning from C2-Commercial 2 to C1-Commercial and C2-Commercial</u> for Tract 39 of the R.J. Moseley Abstract No. 803A, generally located at 8000 US 380, Cross Roads, Denton County, Texas. (2023-0508-08ZC)
- 16. 8300 US 380:
 - a. CONDUCT A PUBLIC HEARING, discuss and consider an application by William Snyder for a <u>change in Future Land Use Map per the submitted application from C2-Commercial</u> <u>2 to C1-Commercial 1</u> for Tract 38 of the R.J. Moseley Abstract No. 803A, generally located at 8300 US 380, Cross Roads, Denton County, Texas. Per the Town's Comprehensive Land Use Plan adopted on March 20, 2023, the C2-Commercial 2 to C1-Commercial 1 categories no longer exist. The applicant will need to modify the request to change the future land use to Business Services or Commerce. (2023-0508-05FLUP)
 - b. CONDUCT A PUBLIC HEARING, discuss and consider an application by William Snyder for a <u>change in zoning from C2-Commercial 2 to C1-Commercial and C2-Commercial</u> for Tract 38 of the R.J. Moseley Abstract No. 803A, generally located at 8300 US 380, Cross Roads, Denton County, Texas. (2023-0508-06ZC)

Motion to deny Items 15 and 16 as written made by Meek; Second by Zuczek; Denial passed unanimously.

- 20. Take action as may be necessary or appropriate on matters discussed in Executive Session. Motion to approve the compensation adjustments for the Town Administrator consistent with our discussion in Executive Session made by Paus; Second by Meek; Passed unanimously.
- 17. Discuss and consider a request for a waiver from Section 3.13.001 of the Town's Code of Ordinances by New Hope Baptist Church to allow for a temporary parking lot to be constructed of material other than concrete or asphalt for property located at 5800 US 377 until May 2024. (2023-0505-01WAIVER) Items 17 through 20 followed Item 14.

18. Discuss and consider approval of a replat application for the Cross Roads Retail Addition, Block A, Lot 7R6 generally described as property located north of US Hwy 380 and east of Walmart Dr. in the Villages of Cross Roads Commercial development within the Town of Cross Roads for Caliber Carwash. (2023-0508-02FPLAT)

Items 17 through 20 followed Item 14.

EXECUTIVE SESSION

- 19. The Town Council may convene into Executive Session pursuant to Texas Government Code, annotated, Chapter 551, Subchapter D for the following:
 - a. Section 551.071 Consultation with Attorney Council Members Roles, Responsibilities and Duties; and, Nonconforming Uses
 - b. Section 551.072 Deliberation Regarding Real Property Project Alpha
 - c. Section 551.087 Deliberation Regarding Economic Development Negotiations Project Bravo
 - d. Section 551.074 Personnel Town Administrator Performance Evaluation, Planning and Zoning Commissioners and Municipal Development District Members.

Items 17 through 20 followed Item 14.

20. Take action as may be necessary or appropriate on matters discussed in Executive Session. Items 17 through 20 followed Item 14.

<u>ADJOURN</u> – 9:29 P.M.

T. Lynn Tompkins, Jr., Mayor

Donna Butler, Town Secretary

Meeting Date: July 10, 2023

Agenda Item:

Consider a resolution declaring two (2) 2016 Chevrolet Tahoe's as surplus property and authorizing the disposal through an auction.

<u>Prepared by:</u> Shaun Short, Police Chief

Description:

The department has two vehicles and associated emergency equipment ready to be auctioned. The vehicles were received as part of the dissolution of the NEPD and have been in service as front-line units. Both vehicles can no longer be used as front-line units and would be expected to have significant maintenance costs if they were retained.

The vehicles are being replaced by two 2022 models. The radios, radar and mobile video systems will be repurposed in these new vehicles.

VIN #	Description
1GNLCDEC3GR294702	2016 Marked Tahoe #8116
1GNSK2E03ER295125	2016 Marked Tahoe #8216

Recommended Action:

Staff recommends approval of a resolution authorizing the sale of surplus property.

<u>Attachments:</u> Resolution

TOWN OF CROSS ROADS RESOLUTION NO. <u>2023-</u>

A RESOLUTION OF THE TOWN OF CROSS ROADS, TEXAS, DECLARING CERTAIN PROPERTY AS SURPLUS AND AUTHORIZING THE MAYOR, OR DESIGNEE TO EXECUTE SALE OR DISPOSAL OF SAID PROPERTY.

WHEREAS, the Town of Cross Roads, Texas ("Town") is the owner of certain items of personal property more particularly described herein; and,

WHEREAS, it has been determined that the aforesaid personal property is not needed or required for the Town's foreseeable needs, but still has some usefulness for the purpose it was originally intended and may or may not have valued and therefore is determined to be surplus property; and,

WHEREAS, the Town of Cross Roads desires to dispose of the surplus property identified herein and authorize the mayor or designee to sell or dispose of said property.

NOW, THEREFORE, BE IT RESOLVED BY THE TOWN COUNCIL OF THE TOWN OF CROSS ROADS, TEXAS:

Section 1. The above and foregoing premises are true and correct legislative findings, and they are incorporated herein and made a part hereof for all purposes.

Section 2. The Town declares the personal property described in Exhibit A is not needed or required for the Town's foreseeable future but finds still has some usefulness for the purpose it was originally intended and may or may not have value and therefore declared as surplus property of the Town.

Section 3. The mayor, or designee, is hereby authorized to auction said personal property described in Section 2.

Section 4. If any section, paragraph, sentence, clause, phrase or word of this Resolution or the application thereof to any person or circumstance is held invalid or unconstitutional, such holding shall not affect the validity of the remaining portions of this Resolution, and the Town Council hereby declares that it would have passed such portions remaining despite invalidity or unconstitutionality.

Section 5. That this resolution, and the removal and appointment herein, shall take effective immediately from and after the date of its passage.

DULY PASSED by the Town Council of the Town of Cross Roads, Texas, on the 10th day of July 2023.

TOWN OF CROSS ROADS, TEXAS

T. Lynn Tompkins, Jr., Mayor

1GNSK2E03ER295125	2016 Marked Tahoe #8216

Meeting Date: July 10, 2023

Agenda Item:

Discuss and consider an application for a technical site plan for the Caliber Carwash Addition, Block A, Lot 1 generally described as property located north of US Hwy 380 and east of Walmart Dr. in the Villages of Cross Roads Commercial development within the Town of Cross Roads. *(2023-0508-03TSP)*

<u>Prepared by:</u> Rodney Patterson, Building Official

Description:

Applicant Dan Brown submitted a Technical Site Plan application on behalf of property owner Sage Cross Roads LLC. for the Caliber Carwash Addition on May 8, 2023. The purpose of the submittal is to construct site improvements and infrastructure for a carwash on Lot 1 Block 1 of the Caliber Car Wash Addition (previously Lot 7R6 of the Cross Roads Retail Addition). The application has gone through several comments and resubmittals. One June 27, the Town Engineer indicated the applicant had addressed all outstanding comments.

Recommended Action:

Staff is recommending approval of the Technical Site Plan.

<u>Attachments:</u> Engineering Review – June 27, 2023 & June 23, 2023 Application and supporting documents

ADDITIONAL INFORMATION

Town of Cross Roads 3201 US 380, STE 105 • Cross Roads, Texas 76227 • 940.365.9693

PROFESSIONAL SERVICES DEPOSIT INFORMATION

All submissions requiring the services of the Town Civil Engineer and/or the Town Attorney, including, but not limited to platting, construction plans and planned development applications, will be required to place a Professional Services Deposit at the time of project submission per Town of Cross Roads Code of Ordinances, Chapter 10, Article 9 FILING FEES AND CHARGES:

Sec. 10.09.001 Fee structure

(a) The town shall determine the base fees and charges for plat review. The town council shall adopt a fee schedule.

(b) Fees shall be charged on all plats, regardless of action taken by the planning and zoning commission and whether the plat is approved or denied by the town council.

(c) If the amount deposited is less than the actual cost of reviewing and processing the plat, the balance shall be collected before final consideration of the plat. An administrative fee equal to fifteen percent (15%) of the total of the application fee and processing costs in excess of the original fee will be charged.

(d) The town may also assess against the applicant, developer or subdivider additional costs incurred by the town for engineering fees and legal fees associated with the review and consideration of a plat in the amount incurred by the town. The payment of these additional fees shall be a condition of plat approval or a prerequisite to the acceptance of any improvements or the issuance of any building permits.

Sec. 10.09.002 Procedure

All fees or charges shall be paid in advance and no action of the planning and zoning commission or any other board or agency shall be valid until the fee or charge has been paid to the town.

Applicants will be billed monthly for any professional services incurred in the previous month. The professional services deposit made at time of submission will be in an amount as indicated on the Town's fee schedule and will be used towards the last invoice incurred for the project. Applicant will be billed if last invoice exceeds the Professional Services Deposit. Any remaining balance upon project and invoice completion will be refunded to the applicant.

Dan and Pranavi,

Here is the link to a couple of comments on Caliber Car Wash: <u>https://files.halff.com/wl/?</u> id=iUqm2WNX5di4pTXyXBHwoDEua3dXOLHJ

While close to being completed, the main issue right now is illustrating no increase in runoff to the property to the east. Our engineers have state it's not a lot of water either way, but we want to make sure the plans address it.

THE LOCATION OF EXIST IN AN APPROXIMATE WA DETERMINE THE EXACT U BEFORE COMMENCING W RESPONSIBLE FOR ANY

IERGROUND UTILITIES ARE SHOWN THE CONTRACTOR SHALL IN OF ALL EXISTING UTILITIES INTRACTOR AGREES TO BE FULLY LOWAGES WHICH MIGHT BE ORS FALLIRE TO EXACTLY

UTILITIES.

BOWMAN GENERAL NOTES

- 1. ALL ELEVATIONS SHOWN ARE BASED ON A TOPOGRAPHIC SURVEY PERFORMED BY BOWMAN CONSULTING GROUP, LTD.
- 2. CONTRACTOR SHALL VERIFY ACCURACY OF ANY TEMPORARY BENCHMARKS SHOWN PRIOR TO UTILIZING THEM FOR CONSTRUCTION.
- 3. THE EXISTING INDERGROUND UTILITIES SHOWN HEREON ARE BASED UPON AVAILABLE INFORMATION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR DETERMINION THE EXACT LOCATION OF ALL UTILITIES PRIOR TO BEGINNING DIGGING OPERATIONS. IF UTILITIES OTHER THAN THOSE SHOWN ARE ENCOUNTERED DURING CONSTRUCTION THE CONTRACTOR SHALL NOTFY THE ENGINEER INMEDIATELY AND TAKE STEPS TO PROTECT THE LINE(S) AND ENSURE CONTINUED SERVICE DAMAGE CAUSED TO EXISTING UTILITIES BY THE CONTRACTOR SHALL BE REPRATED BY THE CONTRACTOR ADDITIONALLY, THE CONTRACTOR SHALL CONFIRM THE CONNECTION POINTS OF NEW UTILITIES TO EXISTING UTILITIES PRIOR TO BEGINNING DREC CONSTRUCTION.
- 4. THE CONTRACTOR SHALL INSTALL ALL EROSION CONTROL AND PREVENTION STRUCTURES SHOWN ON THE PLANS ALL EROSION AND SEMIENT CONTROL DEVICES SHALL BE CONSTRUCTED SIMULTANEOUSLY WITH THE DISTURBANCE OF THE LAND AND SHALL REMAIN FUNCTIONAL UNTIL THE CONTRIBUTING DISTURBED AREAS ARE STABILIZED. SIL TBARIERS WILL BE INSTALLED AS IN STABLED SHOWN ON TO PREVENT EXCESSIVE SEDIMENTATION OF DOWNSTREAM AREAS. DEVICES SHALL BE IN ACCORDANCE WITH DENTING COUNTY FOR CONSTRUCTION ACTIVITIES.
- IF WORK IS SUSPENDED OR DELAYED FOR FOURTEEN (14) DAYS, THE CONTRACTOR SHALL TEMPORARILY STABILIZE THE DISTURBED AREA AT CONTRACTORS EXPENSE.
- 6. THE TREE PROTECTION IN THE AREAS OF WORK SHALL BE INSTALLED BY THE CONTRACTOR PRIOR TO THE START OF LAND DISTURBANCE ACTIVITIES. UNLESS SPECIFICALLY SHOWN ON THESE PLANS, THE DESTRUCTION OF ANY REGULATED TREES IS PROHIBITED. PROTECTIVE BARRICADES SHALL BE PLACED ARQUIND ALL TREES DURING ALL PHASES OF CONSTRUCTION.
- 7. THE CONTRACTOR SHALL NOTIFY THE ENGINEER IF UNSUITABLE MATERIAL IS DISCOVERED PRIOR TO BEGINNING ANY REMOVAL OPERATION.
- 8. CONTRACTOR WILL BE REQUIRED TO ADJUST MANHOLE FRAMES TO MATCH FINAL GRADE AT NO ADDITIONAL COST.
- 9. ANY DAMAGE TO EXISTING PAVEMENT MUST BE REPAIRED AT CONTRACTOR'S EXPENSE.
- ALL RIGHT-OF-WAY AND DRAINAGE EASEMENT CONSTRUCTION SHALL MEET APPLICABLE TOWN OF CROSS ROADS STANDARD SPECIFICATIONS UNLESS SPECIFIED ELSEWHERE AND APPROVED IN WRITING BY THE ENGINEER.
- 11. WHERE FIELD INSPECTIONS ARE REQUIRED BY THE COUNTY, THE CONTRACTOR SHALL NOTIFY THE ENGINEERING DIVISION A MINIMUM OF 48 HOURS IN ADVANCE TO SCHEDULE SUCH INSPECTIONS.
- A COMPLETE SET OF APPROVED DRAWINGS AND SPECIFICATIONS MUST BE MAINTAINED ON SITE AT ALL TIMES THAT THE CONTRACTOR IS PERFORMING WORK. THESE DRAWINGS SHALL BE MADE AVAILABLE TO THE COUNTY PERSONNEL AT THEIR REQUEST.
- ANY REVISIONS DURING CONSTRUCTION WHICH ALTER THE ROAD LAYOUT, CONSTRUCTION METHODS, RIGHT-OF-WAY LOCATIONS OR STORM DRAINAGE AS INDICATED AND APPROVED BY THE TOWN MUST BE SUBMITTED AND APPROVED IN WRITING BY THE TOWN REGISTER.
- 14. THE CONTRACTOR AND ALL SUB-CONTRACTORS HIRED BY THE CONTRACTOR SHALL BE LICENSED TO WORK IN THE STATE OF TEXAS.
- THE CONTRACTOR IS RESPONSIBLE FOR OBTAINING ALL CONSTRUCTION PERMITS NECESSARY FROM OTHER RESPONSIBLE AGENCIES.
- ALL TRAFFIC CONTROL SIGNS AND PAVEMENT MARKINGS SHALL BE IN ACCORDANCE WITH THE "MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES FOR STREETS AND HIGHWAYS" CURRENT EDITION. ALL DRAINAGE WILL BE MADE FUNCTIONAL DAILY AS WORK PROGRESSES.
- 17. EACH EXISTING ROAD WILL BE CLEANED OF DEBRIS AND RESTORED DAILY, OR MORE OFTEN IF NECESSARY.
- 18. NEW PAVEMENT TO BE FLUSH WITH EDGE OF EXISTING PAVEMENT.
- 19. ALL SANITARY SEWER SHALL BE IN ACCORDANCE WITH MUSTANG UTILITY DISTRICT STANDARDS AT THE TIME OF CONSTRUCTION.
- 20. ALL WATER INFRASTRUCTURE SHALL BE IN ACCORDANCE WITH MUSTANG UTILITY DISTRICT STANDARDS AT THE TIME OF CONSTRUCTION.
- 21. THE SEDIMENT AND EROSION CONTROL PLAN MUST BE KEPT ON SITE AT ALL TIMES, AND IN A DESIGNATED AREA THAT IS ACCESSIBLE TO THE INSPECTORS.
- 22. SEDIMENT AND EROSION CONTROL INSPECTIONS MUST BE COMPLETED BY A CERTIFIED INSPECTOR.
- 23. SEDIMENT AND EROSION CONTROL SHOULD INCLUDE A CONCRETE WASHOUT/STAGING AREA FOR SITE AND BUILDING CONSTRUCTION AND ALL OTHER PURPOSES OF THE DEVELOPMENT.
- 24. CONSTRUCTION DEBRIS MUST BE PLACED INSIDE CONTAINERS AND NOT LEFT EXPOSED TO THE ELEMENTS.
- SITE MUST BE BUILT ACCORDING TO APPROVED TOWN PLANS UNLESS SEDIMENT AND EROSION CONTROL PLAN DOCUMENTS ARE UPDATED BY THE ORIGINAL PREPARER, REVIEWED AND APPROVED. OTHERWISE PERMITS WILL BE INVALIDATED.
- 26. NO OBSTRUCTIONS, TO INCLUDE BUT NOT LIMITED TO FENCES, STRUCTURES, OR LANDSCAPING MAY BE PERMITTED OR BUILT WITHIN ANY SWALES OR DRAINAGE EASEMENT.
- 27. CONTRACTOR IS RESPONSIBLE FOR COORDINATING INSTALLATION OF UNDERGROUND UTILITIES WITH THE APPROPRIATE UTILITY COMPANY.
- 28. PIPE LENGTHS THAT ARE SHOWN ON THE PLANS ARE 2D LENGTH FROM CENTER TO CENTER. FIELD ADJUSTMENT OF THE ACTUAL PIPE LENGTHS MAY BE NECESSARY.
- 29. THE CONTRACTOR SHALL STAGE CLEARING AND GRUBBING WORK TO MINIMIZE THE AMOUNT OF EROSION AND SEDIMENTATION.
- 30. THE CONTRACTOR SHALL PROVIDE APPROPRIATE BARRICADES, WARNING LIGHTS, AND WARNING SIGNS TO ENSURE THE SAFETY OF THE PUBLIC AT ALL TIMES.
- THE CONTRACTOR IS RESPONSIBLE FOR ALL CONSTRUCTION SIGNAGE AND MAINTENANCE OF EXISTING PERMANENT SIGNS DURING CONSTRUCTION.
- THE CONTRACTOR SHALL VERIFY PROPERTY LINES, BUILDING DIMENSIONS, AND ALL OTHER SITE CONDITIONS PRIOR TO CONSTRUCTION. ANY SIGNIFICANT VARIATIONS SHALL BE REPORTED TO THE ENGINEER IMMEDIATELY.
- 33. WRITTEN DIMENSIONS ON THESE DRAWINGS SHALL HAVE PRECEDENCE OVER SCALED DIMENSIONS ON THE JOB. BOWMAN CONSULTING GROUP SHALL BE NOTIFIED IN WRITING OF ANY VARIATION FROM THE DIMENSIONS, CONDITIONS, AND SPECIFICATIONS SHOWN BY THESE DRAWINGS.

- 34. ALL CURVE RADII ARE SHOWN TO THE FACE OF CURB UNLESS NOTED OTHERWISE
- 35. ALL DRAINAGE WILL BE MADE FUNCTIONAL DAILY AS WORK PROGRESSES.
- AT THE CONCLUSION OF THE CONSTRUCTION PROJECT, ALL COMPONENTS OF THIS DESIGN PACKAGE SHALL BE IN OPERABLE CONDITION, MEETING ITS REQUIREMENTS.
- 37. THE CONTRACTOR SHALL CONTACT TEXAS 811, UTLITY COMPANY BERRESENTATIVES, PERFORM TEST PTS, REVIEW CURRENT TEST PIT DATA, AND WHATEVER ON THER OPERATIONS AVAILABLE TO ENSIVE THE EXACT HORIZONTAL AND VERTICAL LOCATION OF ALL UTLITES IN THE AREA OF CONSTRUCT TO INSURE THE EXACT HORIZONTAL AND VERTICAL LOCATION OF ALL UTLITES IN THE AREA OF CONSTRUCTION. THE CONTRACTOR SHALL NOTIFY BOWMAN CONSULTING GROUP, LTD. OF ANY POTENTIAL CONFLICTS PICTOR COMMENCIONS CONSTRUCTION.
- 38. THE CONTRACTOR SHALL CAREFULLY EXAMINE THE SITE AND MAKE ALL INSPECTIONS NECESSARY IN ORDER TO DETERMINE THE FULL EXTENT OF THE WORK REQUIRED TO MAKE THE PROPOSED WORK CONFORM TO THE DRAWINGS AND SPECIFICATIONS.
- 39. UTILITY COMPANIES SHALL BE NOTIFIED 72 HOURS IN ADVANCE OF ANY EXCAVATION.
- 40. ALL UNDERGROUND UTILITIES WITHIN THE STREET RIGHT-OF-WAY SHALL BE INSTALLED TO THE REQUIRED DISTANCE BEYOND THE RIGHT-OF-WAY LINE PRIOR TO THE INSTALLATION OF ANY SUBBASE MATERIAL, CURB AND GUTTER OR SIDEWALK.
- ADDITIONAL SILTATION AND EROSION CONTROL MEASURES SHALL BE INSTALLED AS DIRECTED BY THE INSPECTOR DURING FIELD REVIEW.
- 42. ALL SURFACED STREETS SHALL BE MAINTAINED IN A CLEAR CONDITION; FREE OF DUST, MUD OR SNOW AT ALL TIMES. THE DEVELOPER SHALL PROVIDE ADEQUATE MEANS TO CLEAN TRUCKS AND OTHER EQUIPMENT USING SURFACED STREETS.
- 43. CONTRACTOR SHALL BE RESPONSIBLE FOR ADJUSTMENTS AND/OR RECONSTRUCTIONS OF ALL UTILITY COVER (MANHOLE FRAMES AND COVERS, VALVE BOX COVERS, ETC.) TO MATCH THE FINISHED GRADES OF THE AREAS EFFECTED BY THE CONSTRUCTION.
- 44. THE CONTRACTOR MUST HAVE THE APPROVED SET OF CONSTRUCTION PLANS AND ALL APPLICABLE PERMITS IN POSSESSION PRIOR TO THE START OF CONSTRUCTION AT LEAST ONE (1) COPY OF THE APPROVED PLANS, WITH REVISIONS, MUST BE KEPT ON-SITE AT ALL TIMES.
- 45. THESE PLANS MAKE NO REPRESENTATION AS TO THE SUBSURFACE CONDITIONS AND THE PRESENCE OF SUBSURFACE WATER OR THE NEED FOR SUBSURFACE DRAINAGE FACILITIES.
- 46. STORM SEWER AND CULVERT PIPE SHALL BE REINFORCED CONCRETE PIPE TO CONFORM TO THE CURRENT A.S.H.T.O. DESIGNATION M170, UNLESS OTHERWISE DESIGNATED ON THESE PLANS. CLASS III PIPE AS A MINIMUM, MULL BE REQUIRED WITHIN THE LIMITS OF RIGHT-OF-WAY.
- 47. THE CONTRACTOR IS RESPONSIBLE FOR MAINTAINING A SAFE CONSTRUCTION SITE AND COMPLYING WITH ALL OSHA REGULATIONS.
- 48. EMERGENCY VEHICLE ACCESS SHALL BE PROVIDED DURING ALL PHASES OF CONSTRUCTION.
- 49. WHERE IMPROVEMENTS ARE PROPOSED WITHIN EXISTING EASEMENTS OF RECORD, THE DEVELOPER SHALL ORIAN WRITER DERMISSION FROM THE AUTHORITIES THAT ARE DOMINANT TENEMEMTIS OF THESE EASEMENTS FOR PERMIT FOR ANY DISTURBANCES WITHIN THESE AREAS PRIOR TO CONSTRUCTIONS.
- ALL FINISHED GRADING, SEEDING, SODDING OR PAVING SHALL BE DONE IN SUCH MANNER TO PRECLUDE THE PONDING OF WATER.
- 51. TYPICAL SECTIONS ARE INTENDED TO SHOW GENERAL FEATURES OF THE PROPOSED CONSTRUCTION. FOR EXACT DETAILS AT ANY GIVEN LOCATION, SEE THE SITE PLAN SHEETS.
- 52. ALL SIDEWALKS TO BE 4" THICK CONCRETE UNLESS OTHERWISE SHOWN ON THE PLAN.
- 53. THE ENGINEER SHALL NOT HAVE CONTROL OVER OR CHARGE OF AND SHALL NOT BE RESPONSIBLE FOR CONSTRUCTION MEANS, METHODS, TECHNOLES, SEQUENCES OR FROCEDURES OR FOR SAFETY PRECAUTIONS AND PROGRAMS IN CONNECTION WITH HE WORK SHOWN ON THESE PLANS. THE ENGINEER SHALL NOT BE RESPONSIBLE FOR THE CONTRACTOR'S SCHEDULES OF FAILURE TO CARRY UR THE WORK THE ENGINEER IS NOT RESPONSIBLE FOR ACTS OR OMISSIONS OF THE CONTRACTOR, SUBCONTRACTORS, OR THEIR AGENTS OR EMPLOYEES, OR OF ANY OTHER PERSONS PERFORMING PORTIONS OF THE WORK.
- 54. ALL GAS LINES REQUIRE A MINIMUM OF 1 FOOT VERTICAL AND 5 FEET HORZONTAL SEPARATION. CONSTRUCTION WITHIN 10 FEET OF THE GAS LINE REQUIRES A GAS LINE REPRESENTATIVE TO BE PRESENT DURING CONSTRUCTION. THE CONTRACTOR IS RESPONSIBLE TO COORDINATE WITH THE GAS COMPANY PRIOR TO CONSTRUCTION.
- 55. NO TREES SHALL BE PLANTED IN THE WATER AND SEWER EASEMENTS.
- 56. UNLESS OTHERWISE NOTED HEREIN, CONSTRUCTION OF PAVEMENT AND DRAINAGE STRUCTURES SHALL BE IN ACCORDANCE WITH THE TOWN OF CROSS ROADS STANDARDS.
- 57. UPON AWARD OF CONTRACT, THE CONTRACTOR SHALL OBTAIN THE NECESSARY LOCAL TRADE PERMITS (INCLUDING APPLICATIONS AND FEES) ASSOCIATED WITH THE WORK INDICATED ON THE DRAWINGS, IN THE SPECIFICATIONS AND IN THE CONTRACT DOCUMENTS.
- 58. ALL ROAD IMPROVEMENTS AT THE DRIVE CONNECTIONS ARE TO BE COORDINATED WITH THE TOWN OF CROSS ROADS ENGINEERING DEPARTMENT PRIOR TO CONSTRUCTION.
- IN ROLLING AND HILLY TERRAINS, SWEEPING OF THE STONE BASE AND/OR APPLICATION OF A TACK COAT MAY BE REQUIRED NEAR INTERSECTIONS. THESE REQUIREMENTS WILL BE ESTABLISHED BY THE INSPECTOR AND BASED ON FIELD CONDITIONS.
- APPROVAL OF THIS PLAN IS NOT AN AUTHORIZATION TO GRADE ADJACENT PROPERTIES. WHEN FIELD CONDITIONS WARRANT OF-SITE GRADING, PERMISSION MUST BE OBTAINED FROM THE AFFECTED PROPERTY OWNERS.
- 61. IN ORDER TO ENSURE PROPER DRAINAGE, KEEP A MINIMUM OF 0.5% SLOPE ON THE CURB.
- 62. CURB AND GUTTER SHOWN ON PLANS MAY REQUIRE ADJUSTMENT BASED UPON FIELD CONDITIONS. ASSOCIATED STORM DRAINAGE MAY ALSO REQUIRE MODIFICATION BASED UPON FIELD CONDITIONS.
- 63. THE PURPOSE OF THE STORM DRAINAGE EASEMENT (SDE) IS 10 PROVIDE STORM WATER CONVEYANCE. BUILDINGS ARE NOT PERMITTED IN THE EASEMENT AREA. ANY OTHER OBJECTS WHICH IMPEDE STORM WATER FLOW OR SYSTEM MAINTENANCE ARE ALSO PROHIBITED.
- 64. BACKFILL BEING PLACED. BACKFILL MATERIAL MUST BE APPROVED BY THE CITY INSPECTOR PRIOR TO PLACEMENT OF THE MATERIAL WITHIN THE PUBLIC STREET RIGHT-OF-WAY.
- 65. TOWN OF CROSS ROADS GENERAL NOTES SHALL TAKE PRECEDENCE

Meeting Date: July 10, 2023

Agenda Item:

CONDUCT A PUBLIC HEARING, discuss and consider a proposed amendment to the Town of Cross Roads Comprehensive Zoning Regulations to provide for a definition of "Restaurant, with drive-through" and allow said use by special use permit in the C-2 Commercial zoning district.

<u>Prepared by:</u> Kristi Gilbert, Town Administrator

Description:

The referenced change is a Town initiated change to the Comprehensive Zoning Regulations to provide for regulations for drive through restaurants. The Town's ordinances currently do not regulate drive-through restaurants. The proposed ordinance would provide for a definition of drive-through restaurants as indicated below, and allow them through a special use permit (SUP) in the C-2 Commercial 2 zoning district only.

The proposed definition is:

"Restaurant, with drive-through. An establishment designed and constructed to serve food for consumption on the premises, in a motor vehicle or for carry-out for off-premises consumption and which establishment may or may not have on-premises dining room or counter."

Drive-through restaurants provide unique challenges related to traffic concerns and necessary space for the stacking of vehicles. This would make it a perfect use to regulate through an SUP which would allow the Planning and Zoning Commission and the Town Council to review the application based on site specifics and establish appropriate regulations on an individualized basis.

In accordance with Section 14.03.042 of the Town's Code of Ordinances, notice has been published in the Town's newspaper.

Recommended Action:

Staff recommends approval of an amendment to the zoning regulations to provide for a definition of Restaurant, with drive-through and allow said use by a Special Use Permit in the C-2 Commercial zoning district.

Planning and Zoning

The Planning and Zoning Commission will consider the item at their July 5, 2023 meeting. Staff will report on their recommendations at the Council meeting.

<u>Attachments:</u> Draft Ordinance

TOWN OF CROSS ROADS ORDINANCE NO. 2023-___

AN ORDINANCE OF THE TOWN OF CROSS ROADS, TEXAS, AMENDING DIVISION 1 ("IN GENERAL") OF ARTICLE 14.03 ("COMPREHENSIVE ZONING ORDINANCE") OF CHAPTER 14 ("ZONING") OF THE CODE OF ORDINANCES OF THE TOWN OF CROSS ROADS, TEXAS, AS HERETOFORE AMENDED, TO AMEND SECTION 14.03.003 (DEFINITIONS) TO ADD A DEFINITION FOR RESTAURANT, WITH DRIVE-THROUGH AND BY AMENDING SECTION 14.03.116 (USES PERMITTED BY SPECIAL USE PERMIT) TO ADD RESTAURANT, WITH DRIVE-THROUGH AS A USE PERMITTED BY SPECIAL USE PERMIT; PROVIDING A REPEALING CLAUSE; PROVIDING A SAVINGS CLAUSE; PROVIDING A SEVERABILITY CLAUSE; PROVIDING A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND (\$2,000.00) DOLLARS FOR EACH OFFENSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Town Council has appointed a Planning and Zoning Commission to consider and recommend modifications to the text and boundaries of the various zoning districts and appropriate use regulations being enforced therein; and

WHEREAS, the Planning and Zoning Commission has given reasonable consideration to, among other things, the character of the districts and their suitability for particular uses and standards, with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout the Town; and

WHEREAS, the Town Council of the Town of Cross Roads deems it necessary, for the purpose of promoting the health, safety, morals, or general welfare of the Town, to enact said zoning regulations; and

WHEREAS, the Cross Roads Town Council, in compliance with State Law with reference to changes to zoning regulations under the Town's Comprehensive Zoning Regulations, having given the requisite notices by publication and otherwise, and after holding due hearings and affording a full and fair hearing to all the property owners generally, and to the persons interested and situated in the affected area and in the vicinity thereof; the governing body of the Town of Cross Roads deems it to be in the best interest and welfare of the Town said zoning regulations should be amended as provided herein

NOW, THEREFORE, BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF CROSS ROADS, TEXAS:

SECTION 1: That all matters stated hereinabove are found to be true and correct and are incorporated herein by reference as if copied in their entirety.

SECTION 2. That Section 14.03.003 ("Definitions") of Division 1 ("In General") of Article 14.03 ("Comprehensive Zoning Ordinance") of Chapter 14 ("Zoning") of the Code of Ordinances of the Town of Cross Roads, Texas, as heretofore amended, be and is hereby amended to add a definition for *Restaurant, with drive-through*, without amendment, repeal or change to any other subpart, section or provision of Section 14.03.003, to read as follows:

"CHAPTER 14 ZONING

ARTICLE 14.03 COMPREHENSIVE ZONING ORDINANCE

Division 1. Generally

• • •

. . .

Sec. 14.03.003 Definitions

. . .

Restaurant, with drive-through. An establishment designed and constructed to serve food for consumption on the premises, in a motor vehicle or for carry-out for off-premises consumption and which establishment may or may not have on-premises dining room or counter.

. . . "

. . .

. . .

SECTION 3. That Section 14.03.116 ("Uses Permitted by Special Use Permit") of Division 4 ("Supplementary Regulations") of Article 14.03 ("Comprehensive Zoning Ordinance") of Chapter 14 ("Zoning") of the Code of Ordinances of the Town of Cross Roads, Texas, as heretofore amended, be and is hereby amended to add subsection 14.03116(26)Restaurant, with drive-through in the C-2 Commercial district only, without amendment, repeal or change to any other subpart, section or provision of Section 14.03.116, to read as follows:

"CHAPTER 14 ZONING

ARTICLE 14.03 COMPREHENSIVE ZONING ORDINANCE

Division 4. Supplementary Regulations

Sec. 14.03.116 Uses permitted by special use permit

(25) Restaurant with drive-through in the C-2 Commercial district only."

SECTION 4. That any person, firm, or corporation violating any of the provisions or terms of this Ordinance shall be subject to the same penalty as provided for in the Town of Cross Roads Comprehensive Zoning Regulations, and upon conviction shall be punished by a fine not to exceed the sum of Two Thousand Dollars (\$2,000.00) for each offense.

SECTION 5. If any section, paragraph, subdivision, clause, phrase or provision of this ordinance shall be judged invalid or unconstitutional, the same shall not affect the validity of this ordinance as a whole or any part or portion thereof, other than that portion so decided to be invalid or unconstitutional.

SECTION 6. Injunctive Relief. In addition to and accumulative of all other penalties, the Town of Cross Roads shall have the right to seek injunctive relief for any and all violations of this ordinance.

SECTION 7. Whereas, it has been found that there has been a change in conditions in the above described property, it is now necessary that it be given the above zoning classification in order to permit its proper development, and in order to protect the public interest, comfort and general welfare, this ordinance shall take effect immediately from and after its passage and publication of the caption of said ordinance, as the law in such case provides.

DULY PASSED by the Town Council of the Town of Cross Roads, Texas, on the ______ day of ______ 2023.

T. Lynn Tompkins, Jr., Mayor

ATTEST:

Donna Butler, Town Secretary

APPROVED AS TO FORM:

. . .

Matthew C. G. Boyle, Town Attorney

Meeting Date: July 10, 2023

Agenda Item:

Discuss and consider approval of a final plat application for property located just east of 10 Mesquite Ridge, within the Town of Cross Roads. *(2023-0410-03FPLAT)*

<u>Prepared by:</u> Kristi Gilbert, Town Administrator

Description:

Applicants Edi and Manuela Bran submitted a final plat application for the Bran Subdivision, Lots 1 and 2, Block A on April 10, 2023, to plat an un-platted tract of land totaling 2.997 acres generally located east of 10 Mesquite Ridge to create two residential lots. The Town Engineer performed a technical review of the final plat application and construction drawings on April 25, 2023. The applicant has been through several resubmissions related to drainage requirements. The most recent plans were resubmitted on June 16, 2023 and the Town Engineer has reported that they have met all the outstanding requirements of the ordinance.

Recommended Action:

Staff is recommending approval.

Planning and Zoning

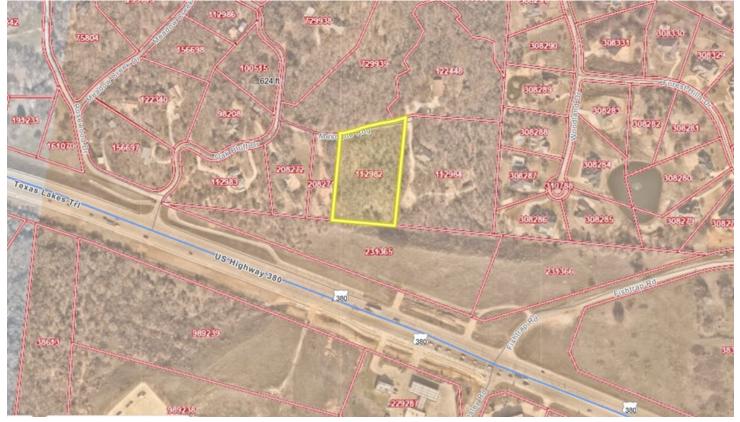

The Planning and Zoning Commission will consider the item at their July 5, 2023 meeting. Staff will report on their recommendations at the Council meeting.

"Engineering design excellence laser focused on sustainability."

June 16, 2023

Town of Cross Roads Drainage Review Consultant Halff Associates, Inc Attn: Emilia Yanagi, P.E, CFM 4000 Fossil Creek Blvd Fort Worth TX 76137

Dear Emilia

BRAN SUBDIVISION (10 MESQUITE RIDGE)- RESPONSE TO 2nd REVIEW DRAINAGE COMMENTS.

We refer to your letter to Ms. Kristi Gilbert of the Town of Cross Roads dated April 25, 2023 (Ref AVO 43608.001) in which you detailed the comments you made on the drainage study/design we completed in support of the final plat for the Bran Subdivision (10 Mesquite Ridge).

C&M Engineering (C&M) greatly appreciates the time and effort you took to provide these comments. We have reprinted your comments and have provided our response to each comment in blue color.

General

- 1. Please address comments for preliminary plat and plans provided separately. Please note, an accepted drainage study is required prior to plat acceptance 1st Review Response: Noted. 4th Review comment: The submittal is acceptable for preliminary platting. Address remaining comments with drainage study in support of the final plat. C&M 3rd Response: Noted
- 2. Please provide a drainage easement through the property to convey the offsite flow. Show the easement in the Plat. 1st Review Response: Drainage easement provided as requested and is now shown on revised Preliminary Plat Drawing C-02. 2nd Review Comment: Addressed. 2nd Review Response: Easement width revised to 50 foot in order to satisfy the requirement to have a 10 foot buffer either side of the 100-year flood inundation boundary per Town comments. Please

note that the area just upstream of the culvert entrance is inside an access and utility

(469) 481-6139

Цþ

"Engineering design excellence laser focused on sustainability."

easement which covers drainage and in addition, it is inside the 50foot building setback so no further increase of the easement near the culvert entrance was deemed necessary. 2nd Review Comment: Noted C&M 3rd Response: Noted

3. 1st-4th Review Comment: Please address comments on attached markups and provide annotated responses. C&M 4th Response: Annotated responses provided against each comment on the attached annotated drawing markups.

Hydrology and Hydraulics:

4. For all drainage area maps, please show onsite and offsite directional flow arrows and show and label existing infrastructure (ie. existing culverts, inlet, ditches etc). Show both existing and proposed contours on proposed drainage area map. 1st Review Response: Offsite directional flow arrows now included on the drainage maps and existing storm water infrastructure now labelled with their sizes. Existing and proposed contours now shown on the proposed drainage map C-04. Please note that the existing contours on the pre-development drainage map C-03 were obtained from the USGS GIS Data obtained from Lidar Surveys. These were used to outline the drainage catchment and are not as accurate as the detailed topographical survey contours which are shown on the post-development drainage map C-04. All proposed changes on the subject property were based on the more accurate detailed topographical survey data 2nd Review Comment:

a. Please make existing topography consistent between existing and proposed drainage area maps. Use the topographic survey data in the existing drainage area map.

b. Provide offsite contours in the proposed drainage area map. If needed, you may splice contours if different sources.

c. Since additional flow is diverted toward the Mesquite Ridge ditch due to culvert 1, please delineate the existing drainage area for the Mesquite Ridge ditch per topographic data in the existing drainage area map. Please provide a RAS model for the ditch and compare pre and post WSEL and velocity in the ditch or size roadside ditch to convey the post development flow.

d. Account for additional offsite area at the south. See existing DA map markup.

e. Update existing drainage area EX-2. Refer to DA map markup.

2nd Review Response:

We obtained more detailed topographical data which covers the entire area under analysis and this is now the data we have used for the drainage analysis for the pre-

(469) 481-6139 Цþ

PO Box 757, McKinney TX 75070

Texas Registered Engineering Firm F-23204 July 10, 2023 Town Council Agenda Packet 54 of 223

www.cmengineering-us.com

"Engineering design excellence laser focused on sustainability."

developed and developed conditions. We have created a sub-catchment for the Mesquite Ridge roadside ditch and created a RAS model for the existing roadside ditch. The existing conditions RAS model shows that the existing Mesquite Ridge Roadside ditch is undersized with the 100-year storm flows currently overtop ping the road. We have therefore proposed regrading the roadside ditch to increase its capacity to handle the 100-year storm. The proposed conditions RAS model now shows the regraded Mesquite Ridge roadside ditch to have capacity to convey the 100-year storm flows. Additional flows from the southern boundary of the project area have been accounted for in OSF-4 and OSF-E in the pre and post developed condition respectively. All drainage area delineations have been updated based on new contour data. 3rd Review Comment: Addressed. C&M 4th Response: Noted

- 5. Please provide hydrologic calculations for the 2-yr, 5-yr, 10-yr 25-yr 50-yr and 100-yr flood events. Refer to Denton Co Criteria Manual Section IV.1.2. C&M Response: Hydrologic calculations for the 2-yr, 5-yr, 10-yr 25-yr 50-yr and 100-yr flood events are now included on the tables on drawings C-03 and C-04. 2nd /3rd Review Comment: Addressed. Update calculations after addressing comments. C&M 3rd Response: Calculations updated as shown on revised drawings. 4th Review comment: Addressed. C&M 4th Response: Noted
- 6. Please verify time of concentration calculations and update as needed. When calculating time of concentration, show calculations for overland (sheet), shallow concentrated, pipe and channel flow. Reference Section IV.1.3 Travel Time Estimation from the Denton Co Criteria Manual, page 54 thru 57. For proposed conditions residential, you may use 15 min time of concentration. Show flow paths for each drainage area and corresponding time of concentration calculations. Account for channel flow. Please use n=0.15 for grass cover when calculating the sheet flow component of time of concentration for developed areas. A higher roughness coefficient may be used in areas that are heavily wooded in existing and proposed conditions.

C&M Response: Time of concentration calculations now updated per Section IV.1.3 Travel Time Estimation from the Denton County Criteria Manual. Flow paths now shown on drawings C-03 and C-04. The site is heavily wooded and has no defined channels, artificial or otherwise. The time of concentration calculations therefore did not include channel flow. Additional overland flow for EX-1 and PR-1 where a 'channel' can be inferred just upstream of the existing 24" CMP culvert under Mesquite Ridge. This is a natural flow path which has not been identified as a channel on the current FEMA

Floodplain Maps. There is no such channel, natural or otherwise, defined within the outlined drainage catchment.

2nd Review Comment: Channels defined in the HEC-RAS model should also be defined as channels in the time of concentration calculations. Please adjust time of concentration calculations to include channel flow as appropriate.

C&M 2nd Response: Time of concentration calculations revised as shown on the attached revised drawings. Channels are now included in the time of concentration calculations. Flow velocity in the channels were averaged from the RAS model and back checked with the Tc calculations.

3rd Review Comment: Addressed. C&M 3rd Response: Noted

7. Verify C values used for existing site. They appear over-estimated. Show all impervious surfaces and calculate weighted runoff coefficients Use C=0.30 for pervious surfaces and 0.95 for impervious surfaces. Please provide existing and proposed land use information to support C values.

C&M Response: C values revised to align with the Denton County Criteria Manual. Weighted C values together with their calculation now shown on drawings C-03 and C-04. The project site is undeveloped and heavily wooded as can be seen on the aerial image below. The surrounding properties are single family homes built on large lots, each with a minimum 1-acre in size. The governing document for the gated community

R

subdivision sets the minimum lot size for the subdivision as 1-acre

2nd Review Comment: Please use C=0.15 for forested areas-as defined in the manual. Please provide separate landuse exhibits that display all categories of landuse in existing and proposed conditions.

C&M 2nd Response: C=0.15 now used in all forested areas as shown on the composite C-Factor calculations on the attached revised drawings.

We have included an exhibit which shows the Google Satellite imagery that was used for existing land use/land cover information which went into the composite C-Factor calculation. Please note that the current Town of Cross Roads land use maps show the entire project area as single family residential. This is why we used the latest Google satellite imagery since the catchment does not include areas with vastly different land uses.

3rd Review Comment: Please address comments on Drainage Area and Landuse Maps C&M 3rd Response: Calculations updated as shown on revised drawings. Land use map not revised, nothing changed in the development proposal.

4th /1st Final Review Comment: Please label all drainage areas and show landuse categories on sheet C-04D. Address with the drainage study in support of the final plat. C&M 4th Response: We have incorporated the Town's Future Land Use Map as a background on revised Drawing C-04D and all drainage areas are now labeled as requested.

R

C&M Engineering

8. Identify all site outfalls in the existing and proposed drainage area maps and provide a pre-development and post-development flow comparison table. If increasing flow at a site outfall in proposed conditions, provide a downstream assessment from the site outfall through the zone of influence according to the 10 percent rule. For example, an outfall draining 3-acres will translate to a location where the watershed area is at least 30 acres. If an increase in peak discharge occurs at an outfall, demonstrate no adverse impacts downstream. Use HEC-RAS to evaluate water surface elevations and velocities. Increases in water surface elevation may be no greater than 0.1ft. at existing creeks and velocities no greater than 5%. If insurable structures, the increase may be no greater than 0.00'.

C&M Response: Site outfalls IDs in the existing and proposed drainage area maps now included. We have provided a pre-development and post-development flow comparison table on drawing C-04 as requested. As the comparison table shows, there is a 2.16 cfs increase in flow at outflow point 3 with point 2 being the same and point 1 having a reduced flow. We note the Development code under 7.5.3 H 2(b) states that 'Alteration to the flood plain that would increase velocities of flood waters to the extent that the significant erosion of flood plain soils will occur either on the subject property or on other properties up or downstream is prohibited'. We submit that a 2.16 cfs increase on outfall 3 is partially countered by the 1.49cfs flow reduction on outfall 1. Both outfall 1 and outfall 3 ultimately drain into Lake Lewisville following drainage paths which ultimately combine prior to discharging into the lake. We submit that a 2.16cfs increase in flow within this catchment will not give rise to significant erosion of floodplain soils in this heavily wooded and grassed catchment. We therefore request that the Town accept the design as presented.

2nd Review Comment:

a. It appears the drainage area summary does not reflect the flows in the Outfall Comparison Table. For example, the runoff for PR-3 is 1.13 cfs while the discharge at design point 2 is 0.41 cfs. Please adjust drainage areas and design point summaries so that the sum of the runoff from the drainage area/s matches the discharge at the design point (see markups on proposed drainage area map).

b. It appears that swales running north to south on the east boundary of drainage area PR-3 will convey flow from PR-3 to design point 3 instead of design point 2. Please subdivide drainage area PR-3 to represent any area discharging to design point 2 and another area discharging to design point 3.

c. It appears flow to outfall 3 is increased. If flow is conveyed via an existing creek, please extend the analysis to the zone of influence based on the 10% rule (if site's contributing DA to this point is about 1 acre provide offsite DA's to a point where the total acres is about 10 acres). Provide a pre- and post- development RAS analysis and verify no

Ø

C&M Engineering

significant increases in water surface elevation. Please note, no increase is allowed if it affects insurable structures (Refer to existing DA Map, it appears this creek passes near a building).

C&M 2nd Response: Drainage area summaries now corrected as depicted on revised drawings.

Please note that the introduction of the swales that run north-south is to stop lot-to-lot drainage. Design point 2 in the developed condition is therefore eliminated as a result. Please also note that flow from design point 2 in the predeveloped condition will join flow from design point 3 less than 150 ft downstream. Combining these two flows in the developed condition does not give rise to significant changes in the flow regime for the drainage catchment.

The structure identified downstream of design point 3 is not a habitable structure but a storage shed built by the adjacent property owner. This structure is outside of the inundation boundaries of both the pre-developed and the post developed 100-year flows. The proposed development therefore does not adversely impact the flood risk of insurable structures downstream of the development.

We have extended the RAS beyond the 10% point and the analysis results show that water surface elevations at both design points 1 and 3 do not rise by more than the 0.1 ft threshold. The velocities downstream of design point 1 also remain within the 5% threshold. Velocities just downstream of design point 3 increase marginally (average 27% increase). Even though this increase is higher than the 5% threshold, they remain within the non-erosive category (<2.5 fps). It is also worth noting that the magnitude of the flow increase giving rise to these flow velocity changes is small (1.55 cfs increase from a 1.089 acre sub-catchment)

The tailwater elevation is below the crown of the existing culvert and even though there is a slight backwater effect, the existing culvert is not undersized for the design flow. We have included an exhibit which shows the hydraulic workmap which shows the extent of the RAS analysis carried out and included with this response.

We have also included updated RAS models for both the pre and post developed conditions as requested.

3rd Review Comment: Please address comments on RAS workmap

C&M 3rd Response: Calculations updated as shown on revised drawings. RAS Models and Hydraulic Workmaps not revised at this stage since downstream assessment in no longer required as we are providing detention. If downstream assessment is deemed necessary at Final Plat, these will be updated accordingly.

3rd / 1st Final Review Comment: Please address comments on RAS workmap. This comment can be addressed with the drainage study in support of the Final plat

C&M 4th Response: We have addressed all the comments made on the RAS workmap and provided annotated responses to all comments. We have revised the RAS models as

C&M Engineering

requested and updated the summary tables and with results from the updated RAS models

9. It appears the flow patterns are altered at proposed building within drainage area PR-2. Verify drainage area delineation and verify flow is contained within site. Provide hydraulic calculations to demonstrate no overflow to adjacent property. C&M Response: Attached HECRAS model shows no overflow to adjacent property. Proposed swale to the south of the proposed building now clearly defined on the clarify draft grading plan drawing C-05. Adjacent property is higher that the subject property and is sending water to subject property and not the other way round. 2nd Review Comment: a. HEC-RAS cross sections for this reach are trapezoidal. The contours are showing mostly triangular cross sections. Please verify all channel cross sections in the RAS model. b. Please include proposed culverts in the RAS model. c. Include existing downstream culvert in the RAS model to determine backwater. d. Please use normal depth for the boundary condition rather than critical depth. e. Please provide a hydraulic workmap showing cross sections overlayed with contours. f. Show extent of floodplain on hydraulic maps and propose DE. Verify size of DE. C&M 2nd Response: The cross sections in the RAS model have now been cut from the Terrain and are now accurately depicted in the RAS model. Proposed culverts now included in the Post-Developed RAS model. Downstream culvert now included in the existing conditions RAS model Boundary conditions changed to normal depth from critical depth as requested. We have included with this response, an exhibit which shows the hydraulic workmap which shows the extent of the RAS analysis carried out. 3rd Review Comment: Please address comments on RAS workmap C&M 3rd Response: Calculations updated as shown on revised drawings. RAS Models and Hydraulic Workmaps not revised at this stage since downstream assessment in no longer required as we are providing detention. If downstream assessment is deemed necessary at Final Plat, these will be updated accordingly.

3rd/1st Final Review Comment: This comment refers to on site hydraulic analysis. Please address comments on RAS workmap and demonstrate for this swale along the south property line contains the flow within the site; use n=.04 per Criteria for all proposed channels and swales. This comment can be addressed with the drainage study in support of the Final plat C&M 4th Response: We have addressed all the comments made on the RAS workmap and provided annotated responses to all comments. We have regraded the swale along the south property line to ensure all the flow is contained within the site. We have used n=0.04 in the model per Criteria for all proposed swales and channels.

(469) 481-6139

Ľ

C&M Engineering

We have added drawing C-04E with some river cross sections from the RAS model superimposing the property line to demonstrate that all the flow in this swale is contained within the subject property boundary. There is no lot-to-lot drainage.

10. Please determine and provide the 100-year fully developed water surface elevation for the streams running through the site and upstream and downstream of the proposed and existing culverts and provide an easement extending to the 100-yr floodplain plus 10' buffer each side. A RAS model will be required.

C&M Response: Attached HECRAS model shows the requested data which has been summarized on the drawings. All flow is contained in the proposed swales and proposed culverts. Proposed and existing culverts have more than enough capacity to handle the 100-year design flows as the calculations show.

The existing 24" CMP culvert has capacity to carry the design flow without overtopping the road as shown on the calculation below. The road level is at 584ft, confirming that there is no overtopping of the road in the 100-year storm.

2nd Review Comment: Provide a RAS workmaps and show ultimate conditions 100-yr floodplain and verify it's contained within the easement with 10' buffer from both sides of floodplain. Please note, calculate ultimate 100-yr flows (use a C=0.45 for residential 1 ac or more) to be used with this RAS model.

C&M 2nd Response: We have included an exhibit which shows the hydraulic workmap which shows the extent of the RAS analysis carried out. We have used the composite C-Factors calculated for each sub-catchment to accurately estimate the hydrologic impact of the proposed development. We have used C=0.45 to calculate the storm flows for delineating the 100-year floodplain as requested. The calculations for the ultimate floodplain are shown on revised drawing C-04B.

3rd Review Comment: Please address comments on RAS workmap

C&M 3rd Response: Calculations updated as shown on revised drawings. RAS Models and Hydraulic Workmaps not revised at this stage since downstream assessment in no longer required as we are providing detention. If downstream assessment is deemed necessary at Final Plat, these will be updated accordingly.

 $4_{th}/1_{st}$ Final Review Comment: This comment refers to on site hydraulic analysis. Please address comments on RAS workmap and update floodplain easement as needed for the final plat. This comment can be addressed with the drainage study in support of the Final plat C&M 4th Response: We have addressed all the comments made on the RAS workmap and provided annotated responses to all comments. We have updated the floodplain and private drainage easement as requested.

C&M Engineering

11. Is a channel proposed at the 20' drainage easements? Please provide typical cross section with hydraulic parameters and verify size is appropriate.

C&M Response: No channel is proposed in this area. This is an existing drainage flow path which will not be altered in any way.

2nd Review Comment: (a) Provide typical cross sections showing proposed geometry with dimension and elevations; include hydraulic parameters and DE lines. Verify channel contains fully developed flow and DE is sized appropriately.

(b) The channel geometry in HEC-RAS does not seem to match the contours. Please provide a hydraulic workmap showing all RAS cross sections overlayed with contours C&M 2nd Response: Typical cross sections taken from the RAS model and include hydraulic parameters, now show that each of the proposed drains on site has all flow contained within the proposed drains.

We have included an exhibit which shows the hydraulic workmap which shows the extent of the RAS analysis carried out. Channel geometry has now been corrected with all cross sections being cut from the terrain or the design grading as appropriate. 3rd/4th / 1st Final Review Comment: Noted. Verify size of DE after addressing RAS comments.

C&M 4th Response: checked the size of the DE, the 50-ft is still adequate.

12. Show and label proposed driveway culvert on drainage area map. Please use a min of 15" and provide calculations. Design driveway culvert to pass the 100-yr flood event. Use RAS to evaluate backwater and tailwater at proposed culvert. Demonstrate driveway culvert does not cause increase water surface elevations or velocities to adjacent property or existing roadside ditch.

C&M Response: Proposed driveway culverts now shown on drainage map C-04. As the attached RAS model shows, all water surface elevations upstream of each culvert are below the top of culvert, hence all proposed culverts do not have backwater effect and are all freely discharging on the tail end. All proposed culverts are under inlet control. 2nd Review Comment:

a. Please provide a RAS model for the Mesquite Ridge ditch.

b. Please apply the tailwater to the culvert calculation that was determined in the RAS model.

c. How are the flows calculated in the culvert calculations? Please delineate the drainage

area for each culvert and use the calculated runoff.

C&M 2nd Response: RAS model for the Mesquite Ridge now included as requested.

(469) 481-6139

Ц'n PO Box 757, McKinney TX 75070

Texas Registered Engineering Firm F-23204 July 10, 2023 Town Council Agenda Packet 62 of 223

www.cmengineering-us.com

Culvert hydraulic design parameters on revised drawings now read from the RAS model, the RAS model is the source of all the culvert data.

C&M Engineering

"Engineering design excellence laser focused on sustainability."

Flow to culverts is summed from the catchments already delineated in the design. 3rd /4th Review Comment: Please address comments on attached markups. C&M 4th Response: Calculations updated as shown on revised drawings. RAS Models and Hydraulic Workmaps have been updated and annotated responses have been provided to the markups.

Address the following comments with future drainage study to support final *plat/construction plans:*

13. 1st/ 2nd /3rd Review Comment: For proposed culverts (a) Provide a contributing drainage area for each culvert and quantify the flow. (b) Provide HGL through culverts. The HGL should account backwater effects in the profile. (c) Provide hydraulic parameters (velocity, free-board, flow line in, flow line out). See markup. Include tailwater and headwater elevations. (d) Provide profile of driveway culverts with dimensions and hydraulic information.

C&M Response: Final Plat submission will include the requested calculations. C&M 2nd Response: Noted

C&M 3rd Response: Final Plat will include requested calculations as agreed. RAS models developed to date have already shown that there is no overtopping of the roadway at existing and proposed culvert and that there is no backwater effect causing flooding on neighboring properties.

C&M 4th Response: As I communicated during our zoom call, this information had already been provided and is shown on drawings C-05 and C-06. Please refer to drawings C-05 and C-06 for culvert hydraulic summaries. The summaries provided are based on data derived from the RAS Models.

14. 1st/ 2nd /3rd Review Comment: The modeled proposed swales, driveway culverts, etc. included in the drainage study to support the preliminary plat will be reviewed again once the construction plans are available. Update calculations as necessary to correspond to plans.

C&M Response: Noted. C&M 2nd Response: Noted C&M 3rd Response: Noted

Ľ

"Engineering design excellence laser focused on sustainability."

Outlet Point 3 (aka DP-S2) has a 2.03 cfs increase in flow between the pre-developed and post developed scenarios for the 100-yr flow as shown in the calculations and as modeled on the RAS models. This flow increase will increase water surface elevations beyond the 0.04ft threshold up to River Cross Section 1459. The biggest rise is only 2.28 inches (0.19ft) which is fully contained within the existing drainage channels. The water surface elevation difference at the zone of influence for Outlet Point 3 (at or near River Cross Section 1338) is below the 0.04ft threshold. We therefore conclude that this development, as proposed, will not have a detrimental effect on downstream properties.

Lastly, I would like to point out that I have gone through an extensive and careful exercise to provide you with all the information you require to verify my design. I believe that I have exercised good engineering judgement in this process. I, however, am very much aware of the fact that I am fallible, so having said that, I humbly request that should you notice an error in the data I have provided, please give me a call so we can hash it out offline. My client and I no longer have any appetite for any more back-and-forth comments which have dragged on for months.

Yours Truly

anga

Ticha Mhlanga **Director of Engineering**

Ms. Kristi Gilbert Town Administrator Town of CrossRoads

Re: Bran Subdivision (10 Mesquite Ridge) – Drainage Study/downstream assessment 1st Final Review

Dear Ms. Gilbert,

Halff Associates, Inc. was requested by the Town of Cross Roads to provide a review of the drainage study and downstream assessment in support of the final plat for the Bran Subdivision (10 Mesquite Ridge) development. The drainage study prepared by C&M Engineering was submitted on April 11, 2023. The drainage study in support of the preliminary plat was accepted on March 1, 2023.

We have completed our review an offer the following comments. Please refer to the Denton County Subdivision Rules and Regulations dated July 2009 for drainage criteria; hereafter referred to as Criteria Manual.

- 1. Please address comments for final plat and plans provided separately. Please note, an accepted drainage study is required prior to plat acceptance
- 2. Address outstanding comments from the drainage study in support of the preliminary plat. See below. Please provide annotated responses; it appears most comments from the markup were not addressed.
- 3. Please address comments on attached markups and provide annotated responses.

Address comments below transferred from Preliminary Drainage Study:

<u>General</u>

1. Please address comments for preliminary plat and plans provided separately. Please note, an accepted drainage study is required prior to plat acceptance

1st Review Response: Noted.

 4^{th} Review comment: The submittal is acceptable for preliminary platting. Address remaining comments with drainage study in support of the final plat.

2. Please provide a drainage easement through the property to convey the offsite flow. Show the easement in the Plat.

 1^{st} Review Response: Drainage easement provided as requested and is now shown on revised Preliminary Plat Drawing C-02.

2nd Review Comment: Addressed.

2nd Review Response:

Easement width revised to 50 foot in order to satisfy the requirement to have a 10 foot buffer either side of the 100-year flood inundation boundary per Town comments. Please note that the area just upstream of the culvert entrance is inside an access and utility easement which covers drainage and in addition, it is inside the 50foot building setback so no further increase of the easement near the

culvert entrance was deemed necessary.

HALFF ASSOCIATES, INC.

Ms. Kristi Gilbert February 8, 2023 Page 2 of 8

2nd Review Comment: Noted

3. <u>1st-4th Review Comment:</u> Please address comments on attached markups and <u>provide annotated</u> <u>responses</u>.

 $1^{st}/2^{nd}/3^{rd}$ Review Response: Annotated responses provided against each comment on the attached annotated drawing markups.

Hydrology and Hydraulics:

4. For all drainage area maps, please show onsite and offsite directional flow arrows and show and label existing infrastructure (ie. existing culverts, inlet, ditches etc). Show both existing and proposed contours on proposed drainage area map.

<u>1st Review Response:</u> Offsite directional flow arrows now included on the drainage maps and existing storm water infrastructure now labelled with their sizes. Existing and proposed contours now shown on the proposed drainage map C-04. Please note that the existing contours on the pre-development drainage map C-03 were obtained from the USGS GIS Data obtained from Lidar Surveys. These were used to outline the drainage catchment and are not as accurate as the detailed topographical survey contours which are shown on the post-development drainage map C-04. All proposed changes on the subject property were based on the more accurate detailed topographical survey data

2nd Review Comment:

- **a.** Please make existing topography consistent between existing and proposed drainage area maps. Use the topographic survey data in the existing drainage area map.
- **b.** Provide offsite contours in the proposed drainage area map. If needed, you may splice contours if different sources.
- c. Since additional flow is diverted toward the Mesquite Ridge ditch due to culvert 1, please delineate the existing drainage area for the Mesquite Ridge ditch per topographic data in the existing drainage area map. Please provide a RAS model for the ditch and compare pre and post WSEL and velocity in the ditch or size roadside ditch to convey the post-development flow.
- **d.** Account for additional offsite area at the south. See existing DA map markup.
- e. Update existing drainage area EX-2. Refer to DA map markup.

2nd Review Response:

We obtained more detailed topographical data which covers the entire area under analysis and this is now the data we have used for the drainage analysis for the pre-developed and developed conditi ons. We have created a sub-catchment for the Mesquite Ridge roadside ditch and created a

RAS model for the existing roadside ditch. The existing conditions RAS model shows that the existing Mesquite Ridge Roadside ditch is undersized with the 100-year storm flows currently overtop ping the road. We have therefore proposed regrading the roadside ditch to increase its capacity to h andle the 100-year storm. The proposed conditions RAS model now shows the regraded Mesquite Ridge roadside ditch to have capacity to convey the 100-year storm flows.

Additional flows from the southern boundary of the project area have been accounted for in OSF-4 and OSF-E in the pre and post developed condition respectively. All drainage area delineations hav e been updated based on new contour data.

<u>3rd Review Comment</u>: Addressed.

Ms. Kristi Gilbert February 8, 2023 Page 3 of 8

- 5. Please provide hydrologic calculations for the 2-yr, 5-yr, 10-yr 25-yr 50-yr and 100-yr flood events. Refer to Denton Co Criteria Manual Section IV.1.2.
 1st Review Response: Hydrologic calculations for the 2-yr, 5-yr, 10-yr 25-yr 50-yr and 100-yr flood events are now included on the tables on drawings C-03 and C-04.
 2nd /3rd Review Comment: Addressed. Update calculations after addressing comments.
 2nd /3rd Review Response: Calculations updated as shown on the revised drawings.
 4th Review comment: Addressed.
- 6. Please verify time of concentration calculations and update as needed. When calculating time of concentration, show calculations for overland (sheet), shallow concentrated, pipe and channel flow. Reference Section IV.1.3 Travel Time Estimation from the Denton Co Criteria Manual, page 54 thru 57. For proposed conditions residential, you may use 15 min time of concentration. Show flow paths for each drainage area and corresponding time of concentration calculations. Account for channel flow. Please use n=0.15 for grass cover when calculating the sheet flow component of time of concentration for developed areas. A higher roughness coefficient may be used in areas that are heavily wooded in existing and proposed conditions.

1st Review Response: Time of concentration calculations now updated per Section IV.1.3 Travel Time Estimation from the Denton County Criteria Manual. Flow paths now shown on drawings C-03 and C-04. The site is heavily wooded and has no defined channels, artificial or otherwise. The time of concentration calculations therefore did not include channel flow. Additional overland flow for EX-1 and PR-1 where a 'channel' can be inferred just upstream of the existing 24" CMP culvert under Mesquite Ridge. This is a natural flow path which has not been identified as a channel on the current FEMA Floodplain Maps. There is no such channel, natural or otherwise, defined within the outlined drainage catchment.

 2^{nd} Review Comment: Channels defined in the HEC-RAS model should also be defined as channels in the time of concentration calculations. Please adjust time of concentration calculations to include channel flow as appropriate.

 2^{nd} Review Response: Time of concentration calculations revised as shown on the

attached revised drawings. Channels are now included in the time of concentration

calculations. Flow velocity in the channels were averaged from the RAS model and back checked with the Tc calculations.

3rd Review Comment: Addressed.

7. Verify C values used for existing site. They appear overestimated. Show all impervious surfaces and calculate weighted runoff coefficients Use C=0.30 for pervious surfaces and 0.95 for impervious surfaces. Please provide existing and proposed landuse information to support C values.

1st Review Response: C values revised to align with the Denton County Criteria Manual. Weighted C values together with their calculation now shown on drawings C-03 and C-04. The project site is undeveloped and heavily wooded as can be seen on the aerial image below. The surrounding properties are single family homes built on large lots, each with a minimum 1-acre in size. The governing document for the gated community subdivision sets the minimum lot size for the subdivision as 1-acre.

Ms. Kristi Gilbert February 8, 2023 Page 4 of 8

 2^{nd} Review Comment: Please use C=0.15 for forested areas-as defined in the manual. Please provide separate landuse exhibits that display all categories of landuse in existing and proposed conditions.

2nd Review Response:

C=0.15 now used in all forested areas as shown on the composite C-Factor calculations on the attached revised drawings. We have included an exhibit which shows the Google Satellite imagery that was used for existing land use/land cover information which went into the composite C-Factor calculation. Please note that the current Town of Cross Roads land use maps show the entire project area as single family residential. This is why we used the latest Google satellite imagery since the catchment does not include areas with vastly different land uses.

 3^{rd} Review Comment: Please address comments on Drainage Area and Landuse Maps 3^{rd} Review Response: Calculations updated as shown on revised drawings. Land use map not revised, nothing changed in the development proposal.

4th /1st Final Review Comment: Please label all drainage areas and show landuse categories on sheet C-04D. Address with the drainage study in support of the final plat.

8. Identify all site outfalls in the existing and proposed drainage area maps and provide a predevelopment and post-development flow comparison table. If increasing flow at a site outfall in proposed conditions, provide a downstream assessment from the site outfall through the zone of influence according to the 10 percent rule. For example, an outfall draining 3-acres will translate to a location where the watershed area is at least 30 acres. If an increase in peak discharge occurs at an outfall, demonstrate no adverse impacts downstream. Use HEC-RAS to evaluate water surface elevations and velocities.

<u>1st Review Response:</u> Site outfalls IDs in the existing and proposed drainage area maps now included. We have provided a pre-development and post-development flow comparison table on drawing C-04 as requested. As the comparison table shows, there is a 2.16 cfs increase in flow at outflow point 3 with point 2 being the same and point 1 having a reduced flow. We note the Development code under 7.5.3 H 2(b) states that 'Alteration to the flood plain that would increase velocities of flood waters to the extent that the significant erosion of flood plain soils will occur either on the subject property or on other properties up or downstream is prohibited'. We submit that a 2.16 cfs increase on outfall 3 is partially countered by the 1.49cfs flow reduction on outfall 1. Both outfall 1 and outfall 3 ultimately drain into Lake Lewisville following drainage paths which ultimately combine prior to discharging into the lake. We submit that a 2.16cfs increase in flow at a flow within this catchment will not give rise to significant erosion of floodplain soils in this

Ms. Kristi Gilbert February 8, 2023 Page 5 of 8

heavily wooded and grassed catchment. We therefore request that the Town accept the design as presented.

2nd Review Comment:

- **a.** It appears the drainage area summary does not reflect the flows in the Outfall Comparison Table. For example, the runoff for PR-3 is 1.13 cfs while the discharge at design point 2 is 0.41 cfs. Please adjust drainage areas and design point summaries so that the sum of the runoff from the drainage area/s matches the discharge at the design point (see markups on proposed drainage area map).
- **b.** It appears that swales running north to south on the east boundary of drainage area PR-3 will convey flow from PR-3 to design point 3 instead of design point 2. Please subdivide drainage area PR-3 to represent any area discharging to design point 2 and another area discharging to design point 3.
- c. It appears flow to outfall 3 is increased. If flow is conveyed via an existing creek, please extend the analysis to the zone of influence based on the 10% rule (if site's contributing DA to this point is about 1 acre provide offsite DA's to a point where the total acres is about 10 acres). Provide a pre- and post- development RAS analysis and verify no significant increases in water surface elevation. Please note, no increase is allowed if it affects insurable structures (Refer to existing DA Map, it appears this creek passes near a building).

2nd Review Response:

Drainage area summaries now corrected as depicted on revised drawings.

Please note that the introduction of the swales that run north-south is to stop lot-to-lot drainage. Design point 2 in the developed condition is therefore eliminated as a result. Please also note that flow from design point 2 in the predeveloped condition will join flow from design point 3 less than 150 ft downstream. Combining these two flows in the developed condition does not give rise to significant changes in the flow regime for the drainage catchment.

The structure identified downstream of design point 3 is not a habitable structure but a storage shed built by the adjacent property owner. This structure is outside of the inundation boundaries of both the pre-developed and the post developed 100-year flows. The proposed development therefore does not adversely impact the flood risk of insurable structures downstream of the development.

We have extended the RAS beyond the 10% point and the analysis results show that water surface elevations at both design points 1 and 3 do not rise by more than the 0.1 ft threshold. The velocities downstream of design point 1 also remain within the 5% threshold. Velocities just downstream of design point 3 increase marginally (average 27% increase). Even though this increase is higher than the 5% threshold, they remain within the non-erosive category (<2.5 fps). It is also worth noting that the magnitude of the flow increase giving rise to these flow velocity changes is small (1.55 cfs increase from a 1.089 acre sub-catchment)

The tailwater elevation is below the crown of the existing culvert and even though there is a slight bac kwater effect, the existing culvert is not undersized for the design flow.

We have included an exhibit which shows the hydraulic workmap which shows the extent of the RAS analysis carried out and included with this response.

We have also included updated RAS models for both the pre and post developed conditions as requested.

<u>3rd Review Comment</u>: Please address comments on RAS workmap

<u>3rd Review Response</u>: Calculations updated as shown on revised drawings. RAS Models and Hydraulic Workmaps not revised at this stage since downstream assessment in no longer required as we are providing detention. If downstream assessment is deemed necessary at Final Plat, these will be updated accordingly.

Ms. Kristi Gilbert February 8, 2023 Page 6 of 8

 $3^{rd} / 1^{st}$ Final Review Comment: Please address comments on RAS workmap. This comment can be addressed with the drainage study in support of the Final plat

Comment#9 It appears the flow patterns are altered at proposed building within drainage area PR Verify drainage area delineation and verify flow is contained within site. Provide hydraulic calculations to demonstrate no overflow to adjacent property.

<u> 1^{st} Review Response</u>: Attached HECRAS model shows no overflow to adjacent property. Proposed swale to the south of the proposed building now clearly defined on the clarify draft grading plan drawing C-05. Adjacent property is higher that the subject property and is sending water to subject property and not the other way round.

2nd Review Comment:

- **a.** HEC-RAS cross sections for this reach are trapezoidal. The contours are showing mostly triangular cross sections. Please verify all channel cross sections in the RAS model.
- **b.** Please include proposed culverts in the RAS model.
- c. Include existing downstream culvert in the RAS model to determine backwater.
- d. Please use normal depth for the boundary condition rather than critical depth.
- e. Please provide a hydraulic workmap showing cross sections overlayed with contours.
- f. Show extent of floodplain on hydraulic maps and propose DE. Verify size of DE.

 2^{nd} Review Response: The cross sections in the RAS model have now been cut from the Terrain and are now accurately depicted in the RAS model.

Proposed culverts now included in the Post-Developed RAS model.

Downstream culvert now included in the existing conditions RAS model

Boundary conditions changed to normal depth from critical depth as requested.

We have included with this response, an exhibit which shows the hydraulic workmap which shows the extent of the RAS analysis carried out.

3rd Review Comment: Please address comments on RAS workmap

<u>3rd Review Response</u>: Calculations updated as shown on revised drawings. RAS Models and Hydraulic Workmaps not revised at this stage since downstream assessment in no longer required as we are providing detention. If downstream assessment is deemed necessary at Final Plat, these will be updated accordingly.

 $3^{rd}/1^{st}$ Final Review Comment: This comment refers to on site hydraulic analysis. Please address comments on RAS workmap and demonstrate for this swale along the south property line contains the flow within the site; use n=.04 per Criteria for all proposed channels and swales. This comment can be addressed with the drainage study in support of the Final plat

10. Comment#10 Please determine and provide the 100-year fully developed water surface elevation for the streams running through the site and upstream and downstream of the proposed and existing culverts and provide an easement extending to the 100-yr floodplain plus 10' buffer each side. A RAS model will be required.

 1^{st} Review Response: Attached HECRAS model shows the requested data which has been summarized on the drawings. All flow is contained in the proposed swales and proposed culverts. Proposed and existing culverts have more than enough capacity to handle the 100-year design flows as the calculations show. The existing 24" CMP culvert has capacity to carry the design flow without overtopping the road as shown on the calculation below. The road level is at 584ft, confirming that there is no overtopping of the road in the 100-year storm.

 2^{nd} Review Comment: Provide a RAS workmaps and show ultimate conditions 100-yr floodplain and verify it's contained within the easement with 10' buffer from both sides of floodplain. Please

Ms. Kristi Gilbert February 8, 2023 Page 7 of 8

note, calculate ultimate 100-yr flows (use a C=0.45 for residential 1 ac or more) to be used with this RAS model.

 2^{nd} Review Response: We have included an exhibit which shows the hydraulic workmap which shows the extent of the RAS analysis carried out. We have used the composite C-Factors calculated for each sub-catchment to accurately estimate the hydrologic impact of the proposed development. We have used C=0.45 to calculate the storm flows for delineating the 100-year floodplain as requested. The calculations for the ultimate floodplain are shown on revised drawing C-04B.

3rd Review Comment: Please address comments on RAS workmap

<u> 3^{rd} Review Response</u>: Calculations updated as shown on revised drawings. RAS Models and Hydraulic Workmaps not revised at this stage since downstream assessment in no longer required as we are providing detention. If downstream assessment is deemed necessary at Final Plat, these will be updated accordingly.

 $4^{\text{th}}/1^{\text{st}}$ Final Review Comment: This comment refers to on site hydraulic analysis. Please address comments on RAS workmap and update floodplain easement as needed for the final plat. This comment can be addressed with the drainage study in support of the Final plat

11. Comment#11 Is a channel proposed at the 20' drainage easements? Please provide typical cross section with hydraulic parameters and verify size is appropriate.

 1^{st} Review Response: No channel is proposed in this area. This is an existing drainage flow path which will not be altered in any way.

 2^{nd} Review Comment: (a) Provide typical cross sections showing proposed geometry with dimension and elevations; include hydraulic parameters and DE lines. Verify channel contains fully developed flow and DE is sized approprietly.

(b) The channel geometry in HEC-RAS does not seem to match the contours. Please provide a hydraulic workmap showing all RAS cross sections overlayed with contours

 2^{nd} Review Response: Typical cross sections taken from the RAS model and include hydraulic parameters, now show that each of the proposed drains on site has all flow contained within the proposed drains.

We have included an exhibit which shows the hydraulic workmap which shows the extent of the RAS analysis carried out. Channel geometry has now been corrected with all cross sections being cut from the terrain or the design grading as appropriate. $3^{rd} / 4^{th} / 1^{st}$ Final Review Comment: Noted. Verify size of DE after addressing RAS comments.

12. Show and label proposed driveway culvert on drainage area map. Please use a min of 15" and provide calculations. Design driveway culvert to pass the 100-yr flood event. Use RAS to evaluate backwater and tailwater at proposed culvert. Demonstrate driveway culvert does not cause increase water surface elevations or velocities to adjacent property or existing roadside ditch.

<u> 1^{st} Review Response</u>: Proposed driveway culverts now shown on drainage map C-04. As the attached RAS model shows, all water surface elevations upstream of each culvert are below the top of culvert, hence all proposed culverts do not have backwater effect and are all freely discharging on the tail end. All proposed culverts are under inlet control.

2nd Review Comment:

- a. Please provide a RAS model for the Mesquite Ridge ditch.
- **b.** Please apply the tailwater to the culvert calculation that was determined in the RAS model.

Ms. Kristi Gilbert February 8, 2023 Page 8 of 8

c. How are the flows calculated in the culvert calculations? Please delineate the drainage area for each culvert and use the calculated runoff.

 2^{nd} Review Response: RAS model for the Mesquite Ridge now included as requested. Culvert hydraulic design parameters on revised drawings now read from the RAS model, the RAS model is the source of all the culvert data.

Flow to culverts is summed from the catchments already delineated in the design. $3^{rd}/4^{th}$ Review Comment: Please address comments on attached markups.

- 13. <u>1st thru 4th Review Comment:</u> For proposed culverts (a) Provide a contributing drainage area for each culvert and quantify the flow. (b) Provide HGL through culverts. The HGL should account backwater effects in the profile. (c) Provide hydraulic parameters (velocity, free-board, flow line in, flow line out). See markup. Include tailwater and headwater elevations. (d) Provide profile of driveway culverts with dimensions and hydraulic information.
 <u>1st Review Response:</u> Final Plat submission will include the requested calculations.
 <u>1st Final Review Comment: Please provide culvert hydraulic calculations and profiles.</u>
- 14. <u>1st thru 4th / 1st Final Review Comment:</u> The modeled proposed swales, driveway culverts, etc. included in the drainage study to support the preliminary plat will be reviewed again once the construction plans are available. Update calculations as necessary to correspond to plans. <u>1st /2nd Review Response:</u> Noted.
- 15. If providing detention ponds please include pond sheets with dimensions, cross sections, rating curves and results. Provide the following information on all pond cross sections: Label side slopes, longitudinal slope, 100-yr water surface elevation, freeboard, right of way, DE and property lines, top of pond elevations, etc. Include an elevation vs flow rating curve and mark all required events (2yr, 5yr, 10yr, 25yr and 100yr).
- 16. For ponds, (a) provide and label an emergency spillway with 6" of freeboard to top of pond under clogged conditions. Label all dimensions and provide calculations. (b) Provide details and profile of pond outflow pipe and account for tailwater. Provide cross section(s) with hydraulic parameters downstream of pond to calculate backwater at proposed pond outfall.

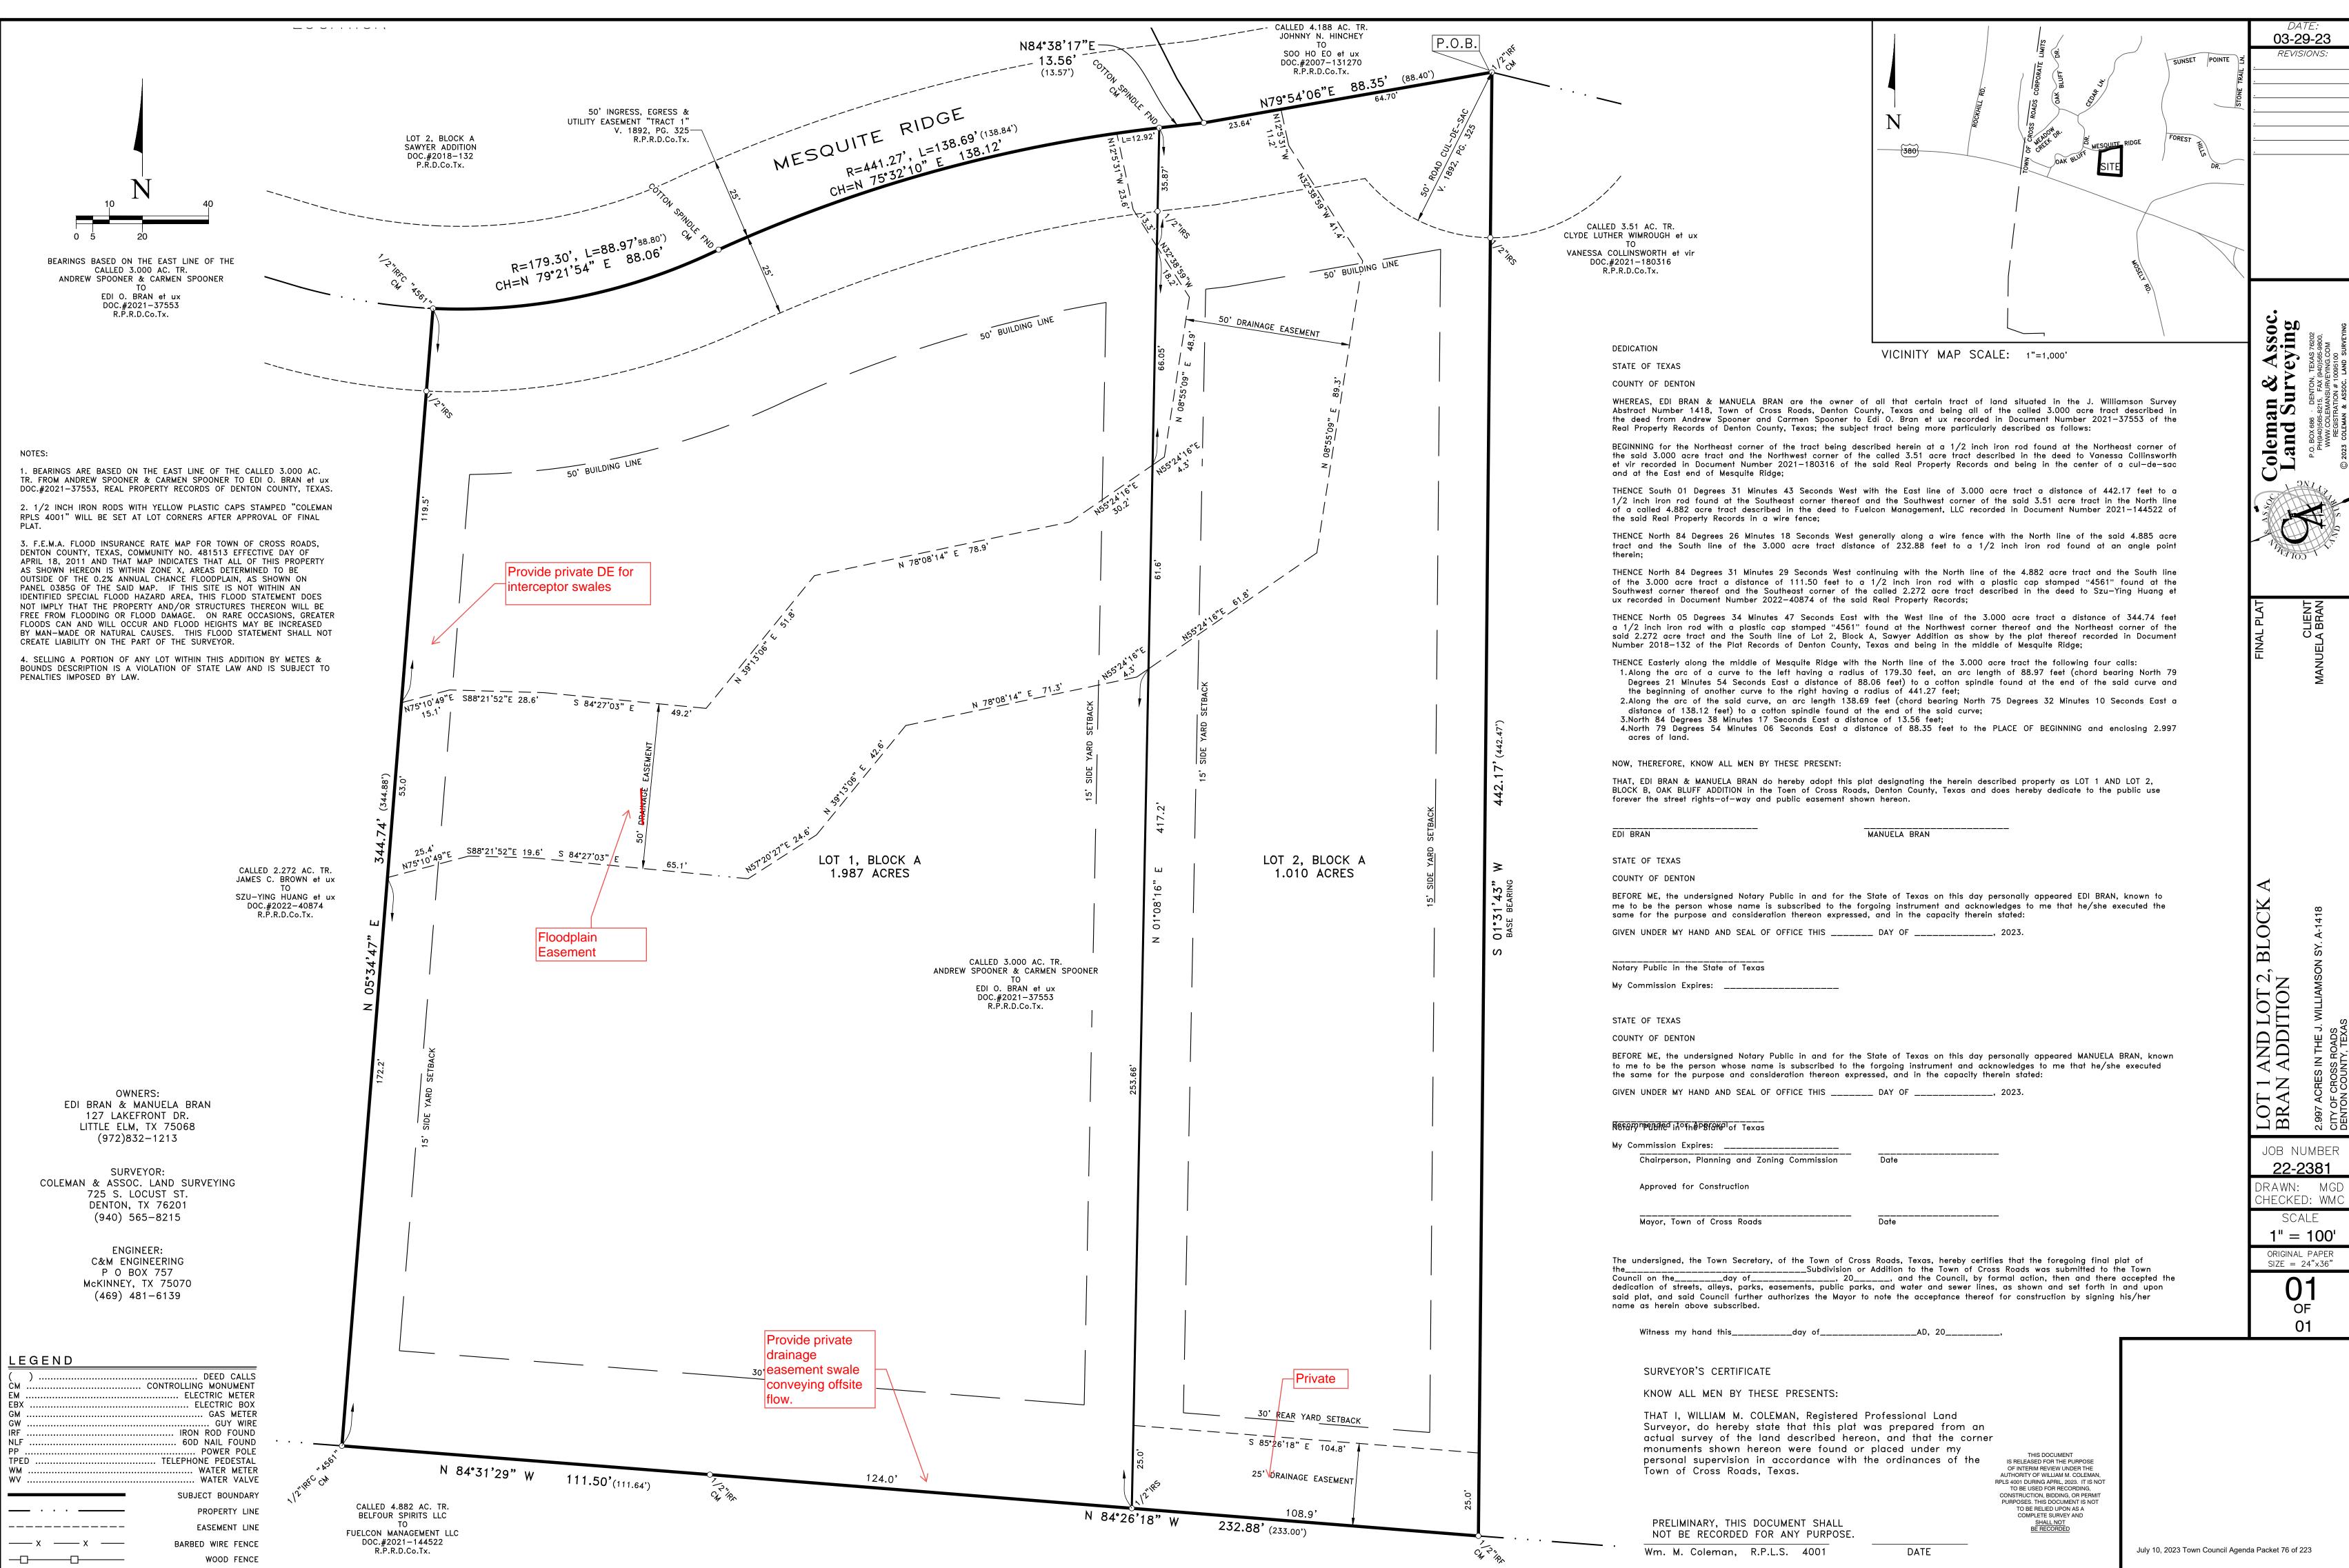

The Engineer shall revise the hydrologic study and/or plans in accordance with the above comments and/or provide a written response that addresses each comment. If you have any questions or need additional information, please do not hesitate to call me at (817) 764-7466.

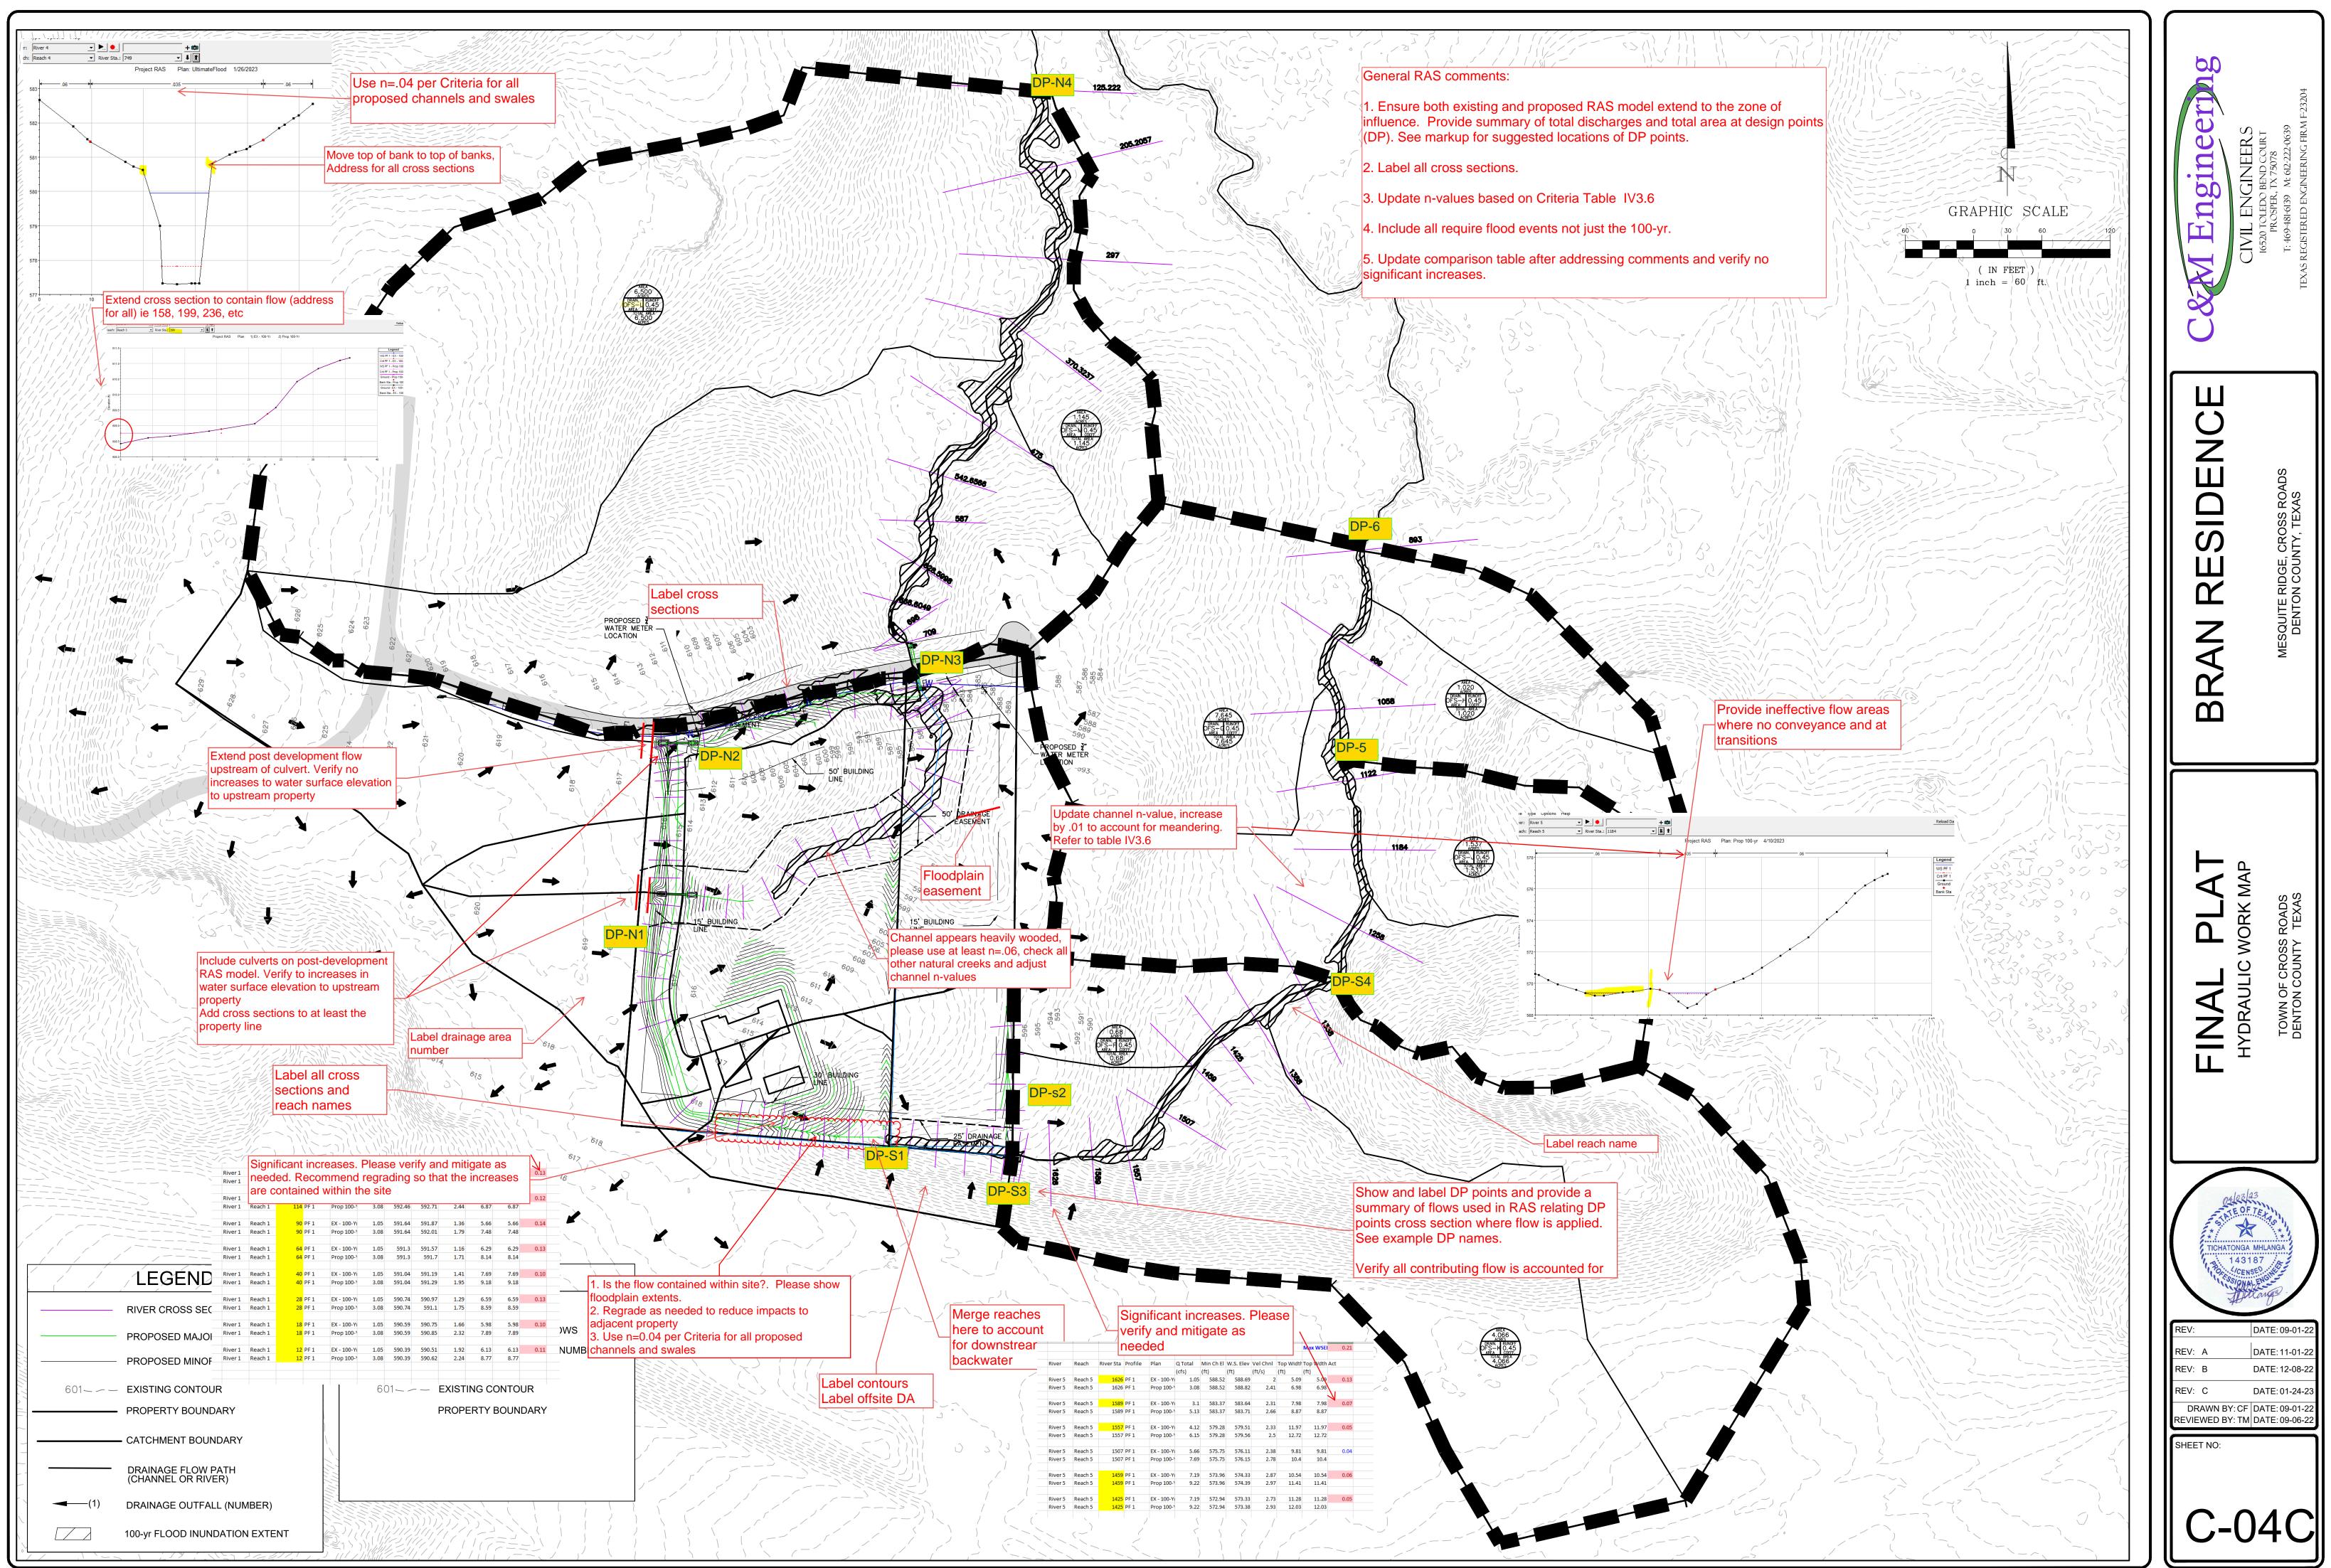

Sincerely,

HALFF ASSOCIATES, INC. Firm No. 0312

TOWN OF CROSS ROADS

PLATTING APPLICATION

Electronic copy of application Electronic copy of drawings _____ OTHER (Specify)

APPLICATION EXPLANATION

Explanation and Description of Request or Project Final Plat to create 2 Lots from existing 1 lot.

Before submitting an application, the applicant should consult with the Town Administrator to discuss the feasibility of the request and any additional requirements.

Town of Cross Roads

3201 US 380, STE 105 • Cross Roads, Texas 76227 • 940.365.9693

PROFESSIONAL SERVICES DEPOSIT INFORMATION

All submissions requiring the services of the Town Civil Engineer and/or the Town Attorney, including, but not limited to platting, construction plans and planned development applications, will be required to place a Professional Services Deposit at the time of project submission per Town of Cross Roads Code of Ordinances, Chapter 10, Article 9 FILING FEES AND CHARGES:

Sec. 10.09.001 Fee structure

(a) The town shall determine the base fees and charges for plat review. The town council shall adopt a fee schedule.

(b) Fees shall be charged on all plats, regardless of action taken by the planning and zoning commission and whether the plat is approved or denied by the town council.

(c) If the amount deposited is less than the actual cost of reviewing and processing the plat, the balance shall be collected before final consideration of the plat. An administrative fee equal to fifteen percent (15%) of the total of the application fee and processing costs in excess of the original fee will be charged.

(d) The town may also assess against the applicant, developer or subdivider additional costs incurred by the town for engineering fees and legal fees associated with the review and consideration of a plat in the amount incurred by the town. The payment of these additional fees shall be a condition of plat approval or a prerequisite to the acceptance of any improvements or the issuance of any building permits.

Sec. 10.09.002 Procedure

All fees or charges shall be paid in advance and no action of the planning and zoning commission or any other board or agency shall be valid until the fee or charge has been paid to the town.

Applicants will be billed monthly for any professional services incurred in the previous month. The professional services deposit made at time of submission will be in an amount as indicated on the Town's fee schedule and will be used towards the last invoice incurred for the project. Applicant will be billed if last invoice exceeds the Professional Services Deposit. Any remaining balance upon project and invoice completion will be refunded to the applicant.

Meeting Date: July 10, 2023

Agenda Item:

Discuss and consider approval of an ordinance amending the Fiscal Year 2022-2023 adopted budget.

<u>Prepared by:</u> Kristi Gilbert, Town Administrator

Description:

At the June Council Retreat, Staff presented information related to a high-level review of the Fiscal Year 2023 Budget versus Actuals to date. With the US 380 construction project, there has been a decline in sales tax revenue. Additionally, the FY 23 budget and the five-year forecasts included residential permit revenue associated with Oak Hill Ranch, Phase 2 and Phase 3. With Denton ISD's purchase of the Oak Hill Ranch property there will be no residential permit revenue that will come in over a period of time, rather, there will be payment only for permits associated with the high school that will not be received until the Fall of 2024. In anticipation of the revenue shortfall for FY 23, Staff has identified areas where savings can occur. The proposed FY 23 budget amendment is reflective of those items including:

Revenue Adjustments in General Fund due to YTD Activity and Other:

- Decrease in sales tax revenue based on YTD collections
- Increase in franchise fees for electric, gas and water/wastewater based on YTD collections
- Decrease in Development/Platting Fees based on YTD activity
- Increase in Infrastructure Inspections
- Decrease in Residential, Commercial and Septic Permit Fees
- Increase in Health Inspections, Alcohol Permits and Sign Fees
- Decrease in Municipal Court Fines
- Increase in Administrative Fees, MDD Contributions, Interest Revenue, Donations and Insurance Proceeds

Expense Adjustments in General Fund due to YTD Activity and Other:

- Slight decrease in Administrative Personnel and Benefit items
- Increase in Administrative Supplies
- Decrease in Administrative Contractual Services, primarily related to a refund of Engineering Services fees from FY 2022
- Increase in Administrative Maintenance due to repairs needed due to damage in the Council Chambers. An insurance claim was filed for the increased expenditures and reimbursed to the Town.
- Increase in Municipal Court expenses primarily due to increased Judge and Prosecutor expenses associated with code enforcement and the need to transfer

the cost of the court software to the General Fund due to limited funds in the Court Technology Fund.

- Decrease in Police Personnel and Benefits due to vacancies early in FY 2023
- Decrease in Police Supplies and Contractual Services as a result of cutting expenditures.
- Increase in Police Maintenance due both an aging building and vehicle repairs associated with an older fleet.
- Increase in Inspections due to adding new line items for Engineering Inspection Services and Fire Inspection Services to insure appropriate revenue is being receipted in to cover the associated costs. Residential and Commercial Inspections increased to cover third-party inspection costs.
- Increase in Public Works Contractual Services to cover increased contracted expenses for mowing of right-of-way, installation of street signs, minor pothole repair and general maintenance.
- Decrease in Transfers Out for Vehicle and Equipment Replacement Fund and Road Improvement Fund

Municipal Development District Fund – Fund 210:

- Decrease in sales tax revenue based on YTD collections
- Increase in Interest Revenue based on YTD data
- Increase in Contractual Services to reflect an increase in Software, Administrative Expenses (reimbursement to General Fund of certain Staff costs) and adding \$20,000 for MDD Business Grant Expenditures

Court Technology Fund – Fund 240:

- Decrease in Court Technology Revenue based on YTD collections
- Increase in Court Technology Expense due to increase software costs

Capital Improvement Fund – Fund 310

• Remove Interest Revenue as the interest for this fund is allocated to the General Fund.

Park Improvement Fund - Fund 320

• Allocation of funds to Capital Improvement to complete work budgeted for in FY 2022, but unable to complete until FY 2023.

Vehicle Replacement Fund – Fund 330

- Increase transfer in from COVID Fund to cover Vehicle and Equipment Replacement expenses
- Reduce transfer from General Fund
- Increase expenses related to Capital Equipment for items approved by the Council in FY 2022 that were carried over into FY 2023 due to timing in delivery.

Road Improvement Fund – Fund 370

• Increase in Interest Revenue

- Decrease in Transfers In from COVID and Sales Tax Revenue
- Decrease in Capital Improvements due to change in scope of road project

COVID Fund – Fund 510

- Decrease in Grant Revenue received due to receipt of final funds at the end of FY 22 after the FY 23 budget was approved.
- Increase in Transfer Out of funds to the Vehicle and Equipment Replacement Fund and a decrease in Transfer Out of funds to the Road Improvement Fund.

The following funds have no changes proposed:

- Legal Contingency Fund Fund 150
- Court Security Fund Fund 241
- Truancy Fund Fund 242
- Jury Fund Fund 243
- Police Donations Fund 265
- PID #1 Villages Fund 400

<u>Recommended Action:</u> Staff recommends approval.

<u>Attachments:</u> Ordinance Proposed Amendments

TOWN OF CROSS ROADS

ORDINANCE NO. 2023-

AN ORDINANCE OF THE TOWN COUNCIL OF THE TOWN OF CROSS ROADS, TEXAS, AMENDING THE BUDGET FOR THE TOWN OF CROSS ROADS, TEXAS FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2022 AND ENDING SEPTEMBER 30, 2023; PROVIDING THAT THE BUDGET TO BE KEPT IN TOWN SECRETARY'S OFFICE; PROVIDING FOR A SEVERABILITY CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Town Council approved the Fiscal Year 2022-2023 budget at a meeting conducted on September 18, 2022 where all interested persons were given an opportunity to be heard for or against any item therein; and,

WHEREAS, as required by Texas Local Government Code 102.002, the budget officer has prepared a municipal budget to cover the proposed expenditures of the municipal government for the succeeding year; and,

WHEREAS, the Town Council finds that the passage of this Ordinance is in the best interest of the citizens of Cross Roads.

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE TOWN OF CROSS ROADS, TEXAS:

<u>SECTION 1</u>: That, all matters stated in the Recitals hereinabove are found to be true and correct and are incorporated herein by reference as if copied in their entirety.

SECTION 2: That the Council hereby adopts the amended budget for the fiscal year beginning October 1, 2022, and ending September 30, 2023 as shown in *Exhibit "A."*

SECTION 4. That a copy of the official adopted 2022-2023 budget documents shall be kept on file in the office of the Town Secretary

<u>SECTION 5</u>: If any portion of this Ordinance shall, for any reason, be declared invalid by any court of competent jurisdiction, such invalidity shall not affect the remaining provisions hereof and the Council hereby determines that it would have adopted this Ordinance without the invalid provision.

<u>SECTION 6</u>: That this Ordinance shall become effective from and after its date of passage.

PASSED AND APPROVED ON THIS 10TH DAY OF JULY 2023.

ATTEST:

Mayor

Town Secretary

APPROVED AS TO FORM:

Town Attorney

EXHIBIT A AMENDED FY 2022-2023 BUDGET

100 - GENERAL FUND SUMMARY

				FY 23 Proposed	diff from adopt
Category		FY 23 Approved		Amend 1	vs amend
REVENUES - GENERAL FUND - 100					
Sales Tax	\$	3,419,000.00	\$	3,073,000.00	-10.1%
Franchise Taxes	\$	166,750.00	\$	227,500.00	36.4%

Meeting Date: July 10, 2023

<u>Agenda Item:</u> Discuss the proposed Fiscal Year 2023-2024 budget.

<u>Prepared by:</u> Kristi Gilbert, Town Administrator

Description:

At the June Council retreat, Council Members provided direction on key items of the Fiscal Year 2024 Proposed Budget. Staff expects overall revenues to be fairly flat from current revenue receipts. A slight decrease in sales tax revenue is anticipated due to the US 380 construction, however, we do anticipate an increase in franchise fees, court revenue and contributions from the Municipal Development District. The primary increase in expenditures is related to an increase in Personnel and Benefits as directed by Council related to cost of living and merit increases. Generally, contractual services are up in the areas of Municipal Court, Community Development and Public Works primarily tied to the Council's direction to focus on code enforcement activities and maintenance of streets and rights-of-way.

While the proposed budget indicates a negative net income of approximately \$24,000, the General Fund reserves remains strong at 54.6% (199 days) which is over the goal of 180 days during the US 380 construction project and 150 days during non-construction times.

Meeting Date: July 10, 2023

Agenda Item:

Discuss and consider approval of an ordinance amending Chapter 10 of the Town of Cross Roads Code of Ordinances related to Subdivision Regulations for the Town of Cross Roads.

Prepared by:

Kristi Gilbert, Town Administrator

Description:

Staff began working on amendments to the Town's Subdivision Regulations in January of this year. An update was provided to the Council at both the January and June Council retreats. Additionally, the Town Engineer provided a presentation to Council at the April 17, 2023 meeting to explain what the Town requires from applicants when a development application is submitted. The Town's drainage requirements are the same as Denton County's.

The amendments include clarification of procedures, processes and requirements for platting. Additionally, the amendment addresses provisions of HB 3699 which takes effect September 1, 2023, that require the adoption of a written list of all documentation required to be submitted with a plat application.

Recommended Action:

Staff recommends approval of an ordinance amending the Subdivision Regulations in their entirety and adopting the checklist for application submissions.

ORDINANCE NO. 2023-____

AN ORDINANCE OF THE TOWN OF CROSS ROADS, TEXAS, AMENDING CHAPTER 10, "SUBDIVISION REGULATIONS," OF THE TOWN OF CROSS ROADS CODE OF ORDINANCES, AS AMENDED, IN ITS ENTIRETY, BY PROVIDING FOR UPDATED REGULATIONS FOR THE SUBDIVISION OF LAND; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR INJUNCTIVE RELIEF; PROVIDING A SEVERABILITY CLAUSE; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED TWO THOUSAND DOLLARS (\$2,000.00); AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Town of Cross Roads deems it necessary, for the purpose of promoting the health, safety, morals, or general welfare of the Town to enact new subdivision regulations; and

WHEREAS, all prerequisites for the adoption of this Ordinance have been met, including but not limited to the Open Meetings Act and Chapter 211 of the Local Government Code.

NOW, THEREFORE, BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF CROSS ROADS, TEXAS:

SECTION 1. That all the foregoing premises and findings are found to be true and correct and are incorporated into the body of this ordinance as if copied in their entirety.

SECTION 2. That Chapter 10, "Subdivision Regulations," of the Town of Cross Roads Code of Ordinances be amended by replacing it in its entirety with updated regulations attached hereto as "Exhibit A."

SECTION 3. That any person, firm or corporation violating any of the provisions or terms of this ordinance shall be subject to the same penalty as provided for in the Comprehensive Zoning Ordinance of the Town of Cross Roads, and upon conviction shall be punishable by a fine not to exceed the sum of Two Thousand Dollars (\$2,000.00) for each offense.

SECTION 4. If any section, paragraph, subdivision, clause, phrase or provision of this ordinance shall be judged invalid or unconstitutional, the same shall not affect the validity of this ordinance as a whole or any portion thereof other than that portion so decided to be invalid or unconstitutional.

SECTION 5. In addition to and accumulative of all other penalties, the Town shall have the right to seek injunctive relief for any and all violations of this ordinance.

SECTION 6. This Ordinance shall take effect September 1, 2023 and after its passage and the publication of the caption as required by law.

DULY PASSED BY THE Town COUNCIL OF THE TOWN OF CROSS ROADS, TEXAS, on this the _____ of _____, 2023.

APPROVED:

Mayor T. Lynn Tompkins

APPROVED AS TO FORM:

ATTEST:

Town Attorney

Donna Butler, Town Secretary

EXHIBIT "A"

Chapter 10 Subdivision Regulations ARTICLE 10.01 GENERAL PROVISIONS

Sec. 10.01.001 Purpose

The purposes of this Chapter are:

- (a) To protect and provide for the public health, safety and general welfare of the Town.
- (b) To promote and provide for the safe, orderly and healthy development of the Town.
- (c) To guide the future growth and development of the Town in accordance with the Comprehensive Plan and Thoroughfare Plan.
- (d) To ensure safety from fire, flood, and other danger, and to prevent overcrowding of the land and undue congestion of population.
- (e) To guide public and private development in order to provide adequate and efficient transportation, water, wastewater, drainage and other public requirements and facilities.
- (f) To provide for the circulation of traffic and pedestrians required for the beneficial use of land and buildings and to avoid congestion throughout the Town.
- (g) To establish reasonable standards of design and procedures for platting to further the orderly layout and use of land to ensure proper legal descriptions and monumenting of platted land.
- (h) To prevent the pollution of streams, ponds and lakes; to ensure the adequacy of drainage facilities; to safeguard the water table, and to encourage the wise use and management of natural resources and enhance the stability and beauty of the community and the value of the land.
- (i) To provide for open spaces through the most effective design and layout of the land.
- (j) To remedy the problems associated with inappropriately platted lands, include premature subdivision, incomplete subdivision and scattered subdivision.

Sec. 10.01.002 Jurisdiction

- (a) Except as provided in Article 10.03 of this Chapter, any owner of land inside the corporate limits or the extraterritorial jurisdiction ("E.T.J.") of the Town wishing to subdivide such land shall submit to the Planning and Zoning Commission a plan of subdivision which conforms to the minimum requirements set forth in these regulations.
- (b) No subdivision plat shall be filed or recorded and no lot in a subdivision inside corporate limits or the E.T.J. of the Town shall be improved or sold until a final plat has been considered by the Planning and Zoning Commission and approved by the Town Council.
- (c) No building permit shall be issued for the erection of any building in the Town or within the Town's E.T.J. on any piece of property other than the original building site or resubdivided lot in a duly approved and recorded subdivision or on an approved building site in accordance with the zoning regulations, without the written approval of a plat by the Town Council in compliance with the provisions of this ordinance.

Sec. 10.01.003 Violations

(a) It shall be unlawful for any owner, or agent of any owner, to lay out, subdivide, or plat

any land into lots and blocks with or without any easement or rights-of-way within the Town or its E.T.J., or to sell or improve such property, which has not been first platted according to these regulations and rules of the Planning and Zoning Commission.

- (b) Any violation of any provision of this Chapter outside the corporate limits of the Town shall not constitute a misdemeanor under this Chapter nor shall any fine provided for in this Chapter be applicable to a violation within such extraterritorial jurisdiction, however, the Town may petition any court of competent jurisdiction for injunctive relief and damages as allowed by law.
- (c) No officer or employee of the Town shall perform, or cause to be performed, any work upon any streets of any addition or subdivision within the Town unless all requirements of these regulations have been complied with by the owner of the addition or subdivision.
- (d) The Town declares its policy to be that it will withhold improvements of any nature whatsoever, including issuance of building permits, until a final plat of the subdivision has been approved by the Town Council and filed with the County Clerk. No improvements shall be initiated nor any contracts executed until written approval has been obtained by the subdivider.

ARTICLE 10.02 DEFINITIONS

Sec. 10.02.001 Definitions generally

<u>Administrative officers</u>. Every officer referred to by title, i.e., Town Attorney, Town Secretary, Town Engineer, building official, etc., and shall be the person so retained in this position by the Town's duly authorized representative.

<u>Alley</u>. A minor right-of-way used primarily for vehicular service to the rear or side of properties otherwise abutting on a street.

Building line. A line beyond which buildings must be set back from the street or road right-ofway line or property line.

<u>Checklist.</u> A written list of all documentation and other information required to be submitted with a plat application and related to requirements in this Chapter in accordance with Section 212.0081 of the Texas Local Government Code.

<u>Commission or Planning and Zoning Commission</u>. The official Planning and Zoning Commission of the Town as appointed by the Town Council. The Commission is charged with the responsibility of reviewing for approval all subdivisions, preliminary plats, and final plats in the Town. The Commission shall also perform such other duties or functions as the Town Council may delegate to it from time to time.

<u>Collector street</u>. A street which is continuous through several residential or other districts and is intended as a connecting street between such districts and thoroughfares, highways, or business districts.

<u>Commercial street</u>. Denote any street situated so that fifty (50) percent or more of the property abutting it is zoned for other than low-density residential development.

<u>Commercial tract</u>. Any tract containing any type of land use except for single family detached residential. (Requirements and standards for religious and educational land uses shall be the same as the character of the predominant surrounding land uses.) Nothing contained in the definitions set forth shall be considered as limitations to or repeal of the definitions set forth in the building and fire codes adopted by the Town.

<u>Comprehensive plan</u>. The general plan for the growth and development of the Town and its environs; and including any elements of such plan, such as a land use plan, thoroughfare plan, utilities plan, schools and parks plan, and others.

<u>Construction drawings</u>. Those drawings, schematics, plans and other documents that graphically illustrate or depict a proposed building or structure that includes a graphic depiction to scale of the elevation, exterior features, interior lay-out, and other architectural elements.

<u>*Cul-de-sac*</u>. A short residential street having but one vehicular access to another street, and terminated by a vehicular turn around.

Dead end street. A street, other than a cul-de-sac with only one outlet.

Easement. An area for restricted use on private property upon which any public utility or public entity shall have the right of access and use, as determined by the nature of the easement and the documents which create the easement and shall include the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other improvements or growth which in any way endanger or interfere with the construction, maintenance, or efficiency of its respective systems within said area or its proper use of the easement. Any public utility shall at all times have the right of ingress and egress to and from and upon the said easements for the purpose of constructing, reconstructing, inspecting, patrolling, maintaining, and adding to or removing all or part of its respective systems without the necessity, at any time, of procuring the permission of anyone. All utilities must notify the Town and the property owners one-week prior to the initiation of any construction or reconstruction project which will exceed \$5,000.00 in projected cost.

Emergency access easement. A private street, alley or paved place dedicated to the public for the purpose of providing access to adjacent structures by emergency vehicles such as fire equipment, police or ambulances, the boundaries of which are continuously and permanently marked.

Engineer. Whenever used with a prefix, shall refer to a registered professional engineer licensed to practice in the state of Texas and retained by a subdivider.

Final plat. A map or drawing prepared according to the provisions of this Chapter and

containing all surveying and legal data, dedications and certificates necessary to the recording of same in the plat records of the county.

Fully developed conditions- For watershed hydrology, fully developed conditions include all existing developed areas which shall reflect current land use or current zoning, whichever yields the greatest runoff, and all existing undeveloped areas which shall reflect anticipated future land use designated by zoning classification, by a Comprehensive Plan, or by an accepted concept plan, or in the ETJ, NCTCOG future land use maps.

Lot. Land occupied or to be occupied by a building and/or accessory building and including such open spaces as are required by ordinances of the Town and having its principal frontage on a public street or officially approved place.

Lot of record. A lot which is part of a subdivision, the plat of which has been recorded with the County Clerk; or a parcel of land, the deed for which was recorded with the County Clerk.

Mayor. The duly elected presiding officer of the Town Council.

Minor plat. A plat or replat involving four or fewer lots fronting on an existing street and not requiring the creation of any new street or the extension of municipal facilities in accordance with prerequisites defined in this document.

<u>Natural Creek.</u> Those drainageways that are generally unimproved, that often exhibit a meandering course, and which are not proposed to be improved to Town standards for earthen channels. Natural creeks are generally not dredged, mowed or otherwise maintained by the Town and should be contained within floodplain easements rather than drainage easements. Floodplain easements must encompass the fully developed 100-yr floodplain plus ten (10) foot buffer on both sides. Floodplain easements are not routinely maintained by the Town or County.

<u>Open space</u>. That part of any lot or tract that is used for recreational purposes, both passive and active, but not including areas used for parking or maneuvering of vehicles, or drives or approaches to and from parking areas.

<u>Owner</u>. One holding fee simple title to real property or one who, by virtue of a power of attorney or other recordable instrument has the authority to sell, convey or encumber the real estate on behalf of those who hold fee simple title.

<u>Preliminary plat</u>. A map or drawing on which is shown the subdivider's proposed arrangement of streets, lots, easements, and other public spaces and facilities in the subdivision, and which is intended for review and study by the Town and not for recording.

<u>Private driveway</u>. Any area, parcel or strip of land which provides vehicular access to adjacent property or land whether designated as a street, highway, freeway, thoroughfare, avenue, lane,

boulevard, road, place, drive or however otherwise designated, which is not designated as a public right-of-way, is not maintained by the Town and is used by and serves not more than three residences. Property owners of private driveways are responsible for ensuring the driveway is maintained in a manner that insures emergency vehicle access.

<u>Replatting</u>. The re-subdivision or re-designing of any part or all of any lot(s) or block(s) of a previously platted subdivision, addition, or tract of land.

<u>Residential street</u>. A street which is intended primarily to serve a neighborhood or limited residential district and which is geometrically designed to discourage high speed and through traffic.

<u>Residential tract</u>. Any tract of land developed for the primary use by single-family detached residential structures.

<u>*Re-subdivision*</u>. Shall mean the division of any existing subdivision or lot or tract within an existing subdivision, whether platted or unplatted, or any change in lot size therein, or the relocating of any easements or rights-of-way.

<u>Sanitary sewer</u>. A pipe or conduit for water carried wastes from residences, business building, institutions and industrial establishments, and to which storm, surface and ground water are not normally admitted, and which is a part of the public sewage collection system.

<u>Service line</u>. A water or sewer pipe running from the water or sewer main to the property to which water or sewer service is provided.

Sewer or sewer main. A sanitary sewer (excluding service lines).

<u>Site plan</u>. A scale drawing of any site for which a building permit is sought. The plan shall include but is not limited to the following locations of all existing and proposed structures, utilities, parking area, fences, barriers, roads, driveways, and landscaping. The site plan also includes data to demonstrate compliance with all setback requirements, area coverage ratios, and site development regulations.

<u>Storm sewer or storm drain</u>. A pipe, conduit, or channel which carries storm and surface water and drainage, but excludes domestic sewage and industrial wastes.

Street. An area for vehicular traffic whether designated as a street, highway, thoroughfare, parkway, throughway, road, avenue, boulevard, lane, place, or otherwise.

<u>Street right-of-way width</u>. The shortest distance between the lines which delineate the right-of-way of a street.

<u>Subdivider or developer</u>. An individual, firm, corporation, or other legal entity that owns any interest in land and that directly or indirectly subdivides land into lots as part of a common

promotional plan in the course of business or who divides or proposes to divide land or makes improvements to land so as to affect a subdivision of land hereunder for itself or for another.

<u>Subdivision</u>. The division or alteration of any tract of land situated within the corporate limits in two (2) or more parts for the purpose of laying out any subdivision of any tract of land or any addition to the Town of Cross Roads, or for laying out or altering an existing building site or any building sites, streets, alleys or part or other portions intended for public use or for the use of purchasers or owners of lots fronting thereon or adjacent thereto for the purpose, whether immediate or future, of creating building sites. Subdivision includes resubdivision or the alteration of established building sites composed of all or portions of previously established lots or tracts.

Surveyor. A licensed land surveyor or a registered public surveyor, as authorized by the state to practice the profession of surveying.

Thoroughfare. A principal traffic thoroughfare more or less continuous across the Town which is intended to connect remote parts of the Town, or areas adjacent thereto, and act as a principal connecting street with state and interstate highways.

<u>Utility easement</u>. An interest in land granted to the public generally, in order that the Town or private utility corporation, may install or maintain utilities across, over, or under such easement together with the right to enter thereon the easement with machinery, vehicles and personnel necessary for the maintenance of said utilities.

ARTICLE 10.03 <u>PLATTING</u>

Sec. 10.03.001 Procedure

Any owner or developer of any lot, tract, or parcel of land located within the corporate limits of the Town or within its extraterritorial jurisdiction that desires to subdivide or develop any such land shall comply with and conform to the procedures set forth hereinafter.

Sec. 10.03.002 Subdivisions excluded from platting

- (a) Owners of a tract of land who subdivide the tract under the following circumstances and are not required to lay out any part of the tract for streets, alleys, squares, parks, or other parts of the tract to be dedicated to public use or for the use of purchasers or owners of lots fronting on or adjacent to the streets, alleys, squares, parks, or other parts of the tract are excluded from the platting requirements of this Chapter.
 - <u>Agriculture exclusion</u>. The land is to be used primarily for agriculture use, as defined by Article VIII, Section 1-d, State Constitution, or for farm, ranch, wildlife management, or timber production use within the meaning of Article VIII, Section 1d-1, State Constitution;
 - (2) <u>Family exclusion</u>. The land is to be divided into four or fewer lots or tracts, each with dedicated access easement to a public street described on the survey and deed, and each of the lots or tracts are sold, conveyed, gifted or otherwise transferred to a person who is related to the owner within the third degree of

consanguinity or affinity.

- (3) <u>Retained ownership exclusion</u>. The owner retains title to a lot or portion of the land; the other lot or portion is transferred to another person who will further subdivide the tract subject to the plat approval requirements of this Chapter.
- (b) Any person claiming any exclusion to platting set forth above must provide the following prior to the issuance of any building or development permits by the Town:
 - (1) <u>Agriculture exclusion</u>. The owner shall submit an affidavit, in a form provided or approved by the Commission, in which the owner and any person to whom the owner is to transfer an ownership interest, affirms the use of the tract of land as described by Section 1-d or Section 1-d-1 of Article VIII of the State Constitution. The affidavit shall state that that the property is being subdivided under the agriculture exclusion of the Subdivision Regulations of the Town and that the person or persons acquiring the property are aware that the property is subsequently developed or subdivided, the requirements of the ordinances in effect at the time of development will apply.
 - (2) <u>Family exclusion</u>. The owner shall submit an affidavit, in a form provided or approved by the Commission, in which the owner and any person to whom the owner is to transfer an ownership interest, affirms the conditions under which the property was subdivided. In addition to the affidavit, the Commission may also require certified copies of birth certificates, marriage licenses or other governmental or family records which establish the relationship between the owner and the person or persons to whom an ownership interest has transferred.
 - (3) <u>Retained ownership exclusion</u>. The owner shall furnish the Commission copies of the deeds and an affidavit from the person to whom the other lot or tract was transferred which affirms the intent to further subdivide the tract subject to the plat approval requirements of this Chapter.

Sec. 10.03.003 Preapplication conference required

Prior to the filing of a preliminary plat, the subdivider shall meet with the Town Engineer or his designated agent to acquaint himself with the requirements of the Town and the relationship of the proposed subdivision to the zoning ordinance. At such meeting, the density standards, building site requirements and any street, drainage or utility service requirements may be discussed, along with the general character of the building or development in order to identify development requirements. At this meeting, the Town Engineer or his designated representative shall classify the subdivision application as either major or minor and direct the applicant to the appropriate procedures.

Sec. 10.03.004 Preliminary plat filing and time for action

(a) Any and all subdivisions of property in the Town and within the extraterritorial jurisdiction of the Town shall be reviewed by the Commission and approved by the Town Council with the exception of a Minor Plat, which may be administratively approved by the Mayor or designated agent. Minor Plats may be forwarded to the Planning and Zoning Commission and Town Council at the Mayor's discretion. The subdivider shall first prepare and submit to the Commission a preliminary plat in accordance with the regulations set forth in this Chapter, together with the information and items required by this Chapter, for the Commission's review and recommendations. After the Planning and Zoning Commission has reviewed the preliminary plat, the Commission shall, within 30 days from the submission date, recommend to Town Council either the:

- (1) Approval of the plat as presented;
- (2) Approval of the plat with conditions that reference the specific ordinance provisions not met; or
- (3) Disapproval of the plat with reasons for denial that reference the specific ordinance provisions not met.

If no action is taken on the plat within 30 days from the submission date, the plat will be considered approved.

- (b) Prior to filing a preliminary plat and application for approval, the subdivider shall submit the preliminary plat to all relevant utility providers for review. Proof of submission to the utility providers, as well as a will serve letter shall be included with the application and preliminary plat. When a preliminary plat is filed with the Town for review and approval, if deemed necessary, it shall be forwarded to the Town's consulting engineer, who will make a preliminary review of the plat.
- (c) Prior to filing a preliminary plat and application to the Town, the developer must schedule and attend a predevelopment meeting with Town officials in accordance with Section 10.03.003. At such time, developer and/or developer's engineer shall provide a basic description and sketch of proposed subdivision and improvements. The Town will not accept a preliminary plat application prior to the predevelopment meeting.
- (d) Upon receipt of a preliminary plat, all required documents, and payment of all required fees, the Town Secretary, or designated agent, shall check the preliminary plat for completeness in accordance with Article 10.04. No preliminary plat shall be processed for review that is determined to be incomplete. The Town Secretary shall coordinate the review of the preliminary plat with applicable municipal departments and the Town Engineer as required. Upon determination that the preliminary plat does not meet the minimum requirements of these Subdivision Regulations, the Town Secretary shall give the developer written notice of the revisions required to complete the plat application.
- (e) Preliminary plat submissions which include drainage studies, downstream assessments, or detention pond construction shall require a minimum ten (10) business days for each review. All necessary subsequent reviews regardless of the number of comments shall require ten (10) business days for review. Drainage studies and downstream assessments may be submitted for review prior to official Preliminary plat submission to avoid denial of Preliminary plat application by the Planning and Zoning Commission.
- (f) Upon completion of staff review and the receipt of necessary revisions from the developer, and determination that the preliminary plat has officially been submitted in accordance with the requirements of Article 10.04, the preliminary plat shall be placed on the next available meeting agenda for consideration by the Planning and Zoning Commission.
- (g) Following Commission review, the preliminary plat shall then be submitted to the Town

Council for final action, together with the Commission's recommendations. The Town Council shall act on the preliminary plat within thirty (30) days after the plat is approved by the Commission or is considered approved by the inaction of the Commission. The Town Council shall act on the preliminary plat within thirty (30) days of submission to the Town Council.

(h) The preliminary plat shall be filed with an application on a form provided by the Town for that purpose. The application and preliminary plat shall be filed with the Town Secretary in accordance with the Town's submissions schedule which may be amended from time to time, but will be not more than thirty (30) consecutive calendar days before the meeting of the Commission at which such preliminary plat is to be considered. No preliminary plat application will be accepted on a day outside of the submission schedule.

Sec. 10.03.004 Final plat filing and time for action

- (a) Upon approval of the preliminary plat and the application for such approval, the owner, developer or sub-divider may then proceed with the filing and submission of a final plat and application for approval thereof for all or a portion of the land or area included in the preliminary plat. No final plat application will be accepted for filing, and no final plat may be approved by the Town Council, unless a preliminary plat has first been approved. The application and plat shall be filed with the Town Secretary in accordance with the submission schedule, which may be amended from time to time, but will be not more than thirty (30) consecutive calendar days before the meeting of the Commission at which such plat is to be considered. After the Planning and Zoning Commission has reviewed the final plat, the Commission shall within 30 days from the submission date recommend to Town Council either the:
 - (1) Approval of the plat as presented;
 - (2) Approval of the plat with conditions that reference the specific ordinance provisions not met; or
 - (3) Disapproval of the plat with reasons for denial that reference the specific ordinance provisions not met.

If no action is taken on the plat within 30 days from the submission date, the plat will be considered approved.

- (b) The Town Council shall act on the final plat within thirty (30) days after the plat is approved by the Commission or is considered approved by the inaction of the Commission. The Town Council shall, within thirty (30) days following submission by the Commission, consider the final plat for acceptance of the dedications to the public therein set forth, provided the plat shall in all things fully comply with the terms and provisions of this Chapter and the ordinances of the Town.
- (c) Final plat submissions which include drainage studies, downstream assessments, or detention pond construction shall require ten (10) business days for each review, including all necessary subsequent reviews.

Sec. 10.03.005 Construction after final plat is approved

(a) The subdivider or applicant after approval of the final plat shall:

- (1) Direct it's engineer to design, stake, and supervise the construction of the facilities in accordance with approved plans and specifications and these regulations;
- (2) Direct its contractors to construct all improvements as identified in the approved engineering plans;
- (3) Provide to the Town, prior to final acceptance of the improvements, a two-year maintenance bond in the amount of ten percent (10%) of the contract price or \$50,000, whichever is greater, not to exceed 100% of the total contract for any public improvement, if applicable; and,
- (4) Provide to the Town, prior to final acceptance of the improvements, one (1) 22" x 34" black line set, one (1) 11"x17" black line set, and one (1) electronic set of "as-built" plans, checked and corrected by the subdivider's engineer.
- (b) After completion of all improvements, franchise utilities, grading, and erosion control measures, the Town or its designated representatives will perform a final inspection before causing the project to be considered for acceptance by the Town. After the Town accepts the improvements, the Town will issue a "letter of final acceptance". The subdivider shall submit this letter to the building official prior to the issuance of a certificate of occupancy for non-residential subdivisions or release of building permits for residential subdivisions. The Town will then file the final plat with the County. Final plats may be filed prior to the completion of construction at the discretion of the Town. If final plat is approved to be filed prior to final acceptance of constructed improvements, a Performance Bond in the amount of 100% of the contract amount shall be provided to the Town prior to filing.
- (c) All improvements within a subdivision shall be installed or constructed at the subdivider's cost and expense.

Sec. 10.03.006 Minor residential plats with four or less lots

All applicants seeking approval of a Minor Plat shall comply with the requirements of this section. Every Minor Plat shall require approval of the Mayor or the Mayor's designated agent. The Mayor, in his discretion, may forward any Minor Plat to the Planning and Zoning Commission and Town Council for review and approval in lieu of granting approval.

- (a) Minor Plat Prerequisites:
 - (1) The proposed division results in four (4) or fewer lots;
 - (2) All lots in the proposed subdivision front onto an existing public street and construction of extension of a street or alley is not required to meet requirements of this Ordinance, or any other ordinance; and,
 - (3) The plat does not require the extension of any municipal facilities to serve any lot within the subdivision, however, right-of-way widening, and easements shall be permitted as part of a Minor Plat.
 - (4) The replatting of existing platted lots much comply with all requirements for a Final plat as outlined in these documents.
- (b) Minor Plat Documents Required:
 - (1) Minor Plat Application
 - (2) Minor Plat Drawings

- (3) Preliminary Drainage Analysis
- (4) Tax and Liens Paid Certificates
- (c) Minor Plat Application: The applicant shall submit a written Minor Plat Application to the Town Secretary in accordance with requirements for Preliminary plat submissions.
- (d) Minor Plat Drawings shall include all information required for a Final plat.
- (e) Preliminary Drainage Analysis The Town Engineer will review each request for a Minor Plat and determine whether the applicant shall be required to submit a Drainage Study or Downstream Assessment. When required, the drainage study or downstream assessment shall conform to the requirements of the Checklist and specifications contained in this document. The applicant may be exempt from this requirement when the Town Engineer is satisfied that no drainage facilities are necessary.
- (f) A pre-development meeting is required prior to the submission of any Minor Plat.
- (g) Every Minor Plat shall be reviewed for conformity with the Comprehensive Plan, these regulations, and any other applicable ordinance according to the procedures established for Final plats. The Mayor or designee is authorized to approve or approve with conditions a Minor Plat provided such Plat meets all requirements of these regulations. If the Mayor declines to approve the proposed plat, the Minor Plat shall be placed on the agenda for the next regular meeting of the Planning and Zoning Commission for their consideration and forwarding to Town Council.

ARTICLE 10.04 PRELIMINARY PLAT

Sec. 10.04.001 General requirements

- (a) A written application for the approval of the preliminary plat, together with not less than two (2) prints and a digital copy of the complete submittal package shall be filed with the Town Secretary in accordance with the submission schedule, which may be amended from time to time, but will be not more than thirty (30) consecutive calendar days before the meeting of the Commission at which such plat is to be considered. For the purposes of this section, a preliminary plat will be deemed to be filed when all administrative procedures have been completed and notice is posted of the date when the Planning and Zoning Commission will consider the preliminary plat. A plat application which is not accompanied by the prescribed filing fees will not be considered as having been filed.
- (b) All information contained in the Checklist for Preliminary Plats shall be provided, including but not limited to the items identified in Sections 10.04.002, 10.04.003 and 10.04.004.

Sec. 10.04.002 Existing features

The preliminary plat shall be drawn to scale of one hundred feet to the inch (1"-100'). The information to be included and the procedures for submittals are as follows:

(a) Subdivision boundary lines indicated by heavy lines, and the computed acreage of the subdivision shall be noted. (The subdivision boundary shall be construed to include the part of adjacent boundary streets, which were previously established by dedication or purchase from the tract being subdivided).

- (b) The widths and names of all existing or platted streets or other public rights-of-way or easements within or adjacent to the tract, shall be located together with any existing permanent buildings, railroads, and other important features, such as abstract lines, political subdivision or corporate lines, and school district boundaries.
- (c) Existing sewer mains, water mains, drainage culverts, channels, ponds, inlets, storm drains, or other underground structures within the tract and within two hundred feet (200') with pipe sizes and grades.
- (d) Contours at intervals of two feet (2') or less with reference to mean sea level datum.
- (e) The names of adjacent subdivisions and/or the names of record owners of adjoining parcels of unsubdivided land. (If there is no adjacent subdivision, a map on a small scale shall be included with the preliminary plat, and oriented to show the nearest subdivision in each direction, together with a plan of how the streets, alleys, or highways in the subdivision submitted may connect with those in any subdivision within 2,000 feet of the proposed subdivision).
- (f) Permanent structures and uses within the subdivision including location of any houses, barns, wells, tanks, and other significant features.
- (g) The exact location, dimension, description, and flow line of existing drainage structures and the location flow line and floodplain of existing watercourses within the subdivision. The 100-year flood line source information will be referenced.
- (h) Utilities on the tract with notations of line sizes, including the identification of transmission lines.
- (i) Any other conditions adjacent to the tract affecting the design of the subdivision including such information as may be available from field observation, aerial photographs and available maps.

Sec. 10.04.003 New features

The preliminary plat shall, in addition to the requirements set forth in Section 10.04.002, shall include the following information and shall be subject to the following procedures:

- (a) The proposed name of the subdivision.
- (b) North point, scale, dates, and approximate acreage of the proposed subdivision.
- (c) The names and addresses of the subdivider and of the engineer, surveyor, or planner.
- (d) The tract designation and other description according to the real estate records of the Town, County, or central appraisal district as well as the designation of the proposed uses of land within the subdivision.
- (e) All parcels of land and areas intended to be dedicated for public use or reserved in the deeds for the use of all property owners in the proposed subdivision, together with the purpose of conditions or limitations of such reservations.
- (f) Right-of-way dedications in accordance with the Town's Comprehensive Plan for future roadway widenings, including streets adjacent to the subject tract.
- (g) The layout, names, and width of proposed streets, alleys, and easements.
- (h) The layout, numbers, setback lines, and dimensions of proposed lots, blocks, parks, etc.
- (i) A legal description of the property to be subdivided, and metes and bounds description of the subdivision's perimeter.
- (j) The primary control points of description and ties to such control points to which all

dimensions, angles, bearings, block numbers and similar data shall be referred.

- (k) The locations of Town limit lines, and the extraterritorial jurisdiction and zoning district boundaries if they traverse the subdivision, form part of the boundary of the subdivision, or are contiguous to such boundary.
- Any proposed changes in topography shown by contour lines on a basis of two feet (2') vertical in terrain with a slope of two (2) percent or more, and on a basis of two (2') feet vertical interval in terrain with a slope of less than five percent (5%) (public agency source of datum shall be specific on the plan).
- (m)A number or letter to identify each lot or site and each block.
- (n) Data specifying the gross area of the subdivision, the proposed number of lots and area thereof, and the approximate area in any nonresidential use.
- (o) Proposed zoning and boundaries of new zoning districts.
- (p) Front building setback lines on all lots and tracts together with side yard building setback lines at street intersections and crosswalks.
- (q) A copy of all existing protective covenants regulating the use of the land or the construction of improvements.
- (r) A layout and plan indicating compliance with and understanding of the Town's tree preservation ordinance, codified in Chapter 3, Article 3.08 of this code.
- (s) A preliminary drainage study and/or downstream assessment shall be required to be submitted when required by the Town Engineer. Requirements for the study shall be per this document and the Checklist. The preliminary drainage study and/or downstream assessment must be approved by the Town Engineer prior to approval of the Preliminary plat.

Sec. 10.04.004 Additional Items Required

- (a) Road and drainage maintenance plan. A plan for the perpetual maintenance of roads and all drainage facilities, including but not limited to conduit, culverts, headwalls, rip rap, detention ponds, outlet structures, swales, earthen channels, and any and all other drainage facilities necessary to maintain proper drainage for the improvements associated with the proposed subdivision shall be included on the preliminary plat.
- (b) Utilities. A plan of the proposed water and sanitary sewer mains and proposed drainage facilities, including drainage areas, location of lines, inlets, culverts, bridges, and calculated run-off and points of concentration shall be submitted with the preliminary plat.
- (c) Location map. A location map of the proposed subdivision drawn on a scale of one inch to one thousand feet (1"=1000') showing existing and proposed streets and thoroughfares covering an area at least one (1) mile outside the proposed location shall be submitted with the preliminary plat.
- (d) Cross sections. Typical cross-sections of proposed streets showing the width of pavement, type of pavement, and location and width of sidewalks shall be submitted with the preliminary plat.

(e) Approval block. The following notice shall be placed on the face of each preliminary plat by the subdivider:
"Preliminary Plat for Review Purposes Only"
The following certificates shall be placed on the preliminary plat by the subdivider:
Recommended for Approval

Chairperson, Planning and Zoning Commission Town of Cross Roads, Texas

Approved For Preparation of Final Plat

Mayor, Town of Cross Roads

Date

Date

Sec. 10.04.005 Approval

- (a) The approval of the preliminary plat by the Town Council shall be effective for a period of one hundred eighty (180) days after the approval date, unless reviewed by the Town Council in light of new information which would necessitate the revision of the preliminary plat, such revision being subject to the same procedures as the original preliminary plat. If a final plat for the subdivision, or portion thereof, has not been submitted prior to the expiration of one hundred eighty (180) days after approval, then the preliminary plat is null and void unless the subdivider has, in writing, requested and received an extension of time to prepare and file a final plat. Any extensions of approval granted to a preliminary plat shall be in increments of one hundred eighty (180) days.
- (b) If the final plat is to be submitted or completed in phases, a schedule of submissions may be filed for acceptance by the Town Council with the preliminary plat. If the Town Council accepts the schedule, then the preliminary plat will remain in effect as long as each phase of final plat submission is filed by the scheduled date. In the event any phase is not submitted by the scheduled date, then the preliminary plat shall be null and void in its entirety unless the subdivider has, in writing, requested and received an extension of time to prepare and submit a final plat. An extension of one phase of submissions shall not automatically extend the schedule for the remaining phases. The Town Council is not obligated to accept the phased submission of final plats or grant extensions and the extension of one phase shall not obligate the Town Council to grant an extension for any other phase. Any extension granted will extend the scheduled submission date of that phase by an increment of one hundred eighty (180) days.

Sec. 10.04.06 Disapproval

If the proposed plan of subdivision as shown by said preliminary plat is disapproved by the Commission, the application shall be returned to the owner within fifteen (15) days after disapproval. Such disapproval shall be final. The owner or developer may appeal directly to the Town Council within thirty (30) days from the date of the disapproval and the Town

Council shall then consider the preliminary plat and the Commission's reasons for disapproval. However, in no event shall the failure of the Council to consider and act on the preliminary plat within thirty (30) days of the Commission's disapproval be construed to constitute an approval of the preliminary plat. If the Council determines that the preliminary plat should be approved, then it shall approve same in accordance with the provisions of this Chapter.

ARTICLE 10.05 FINAL PLAT

Sec. 10.05.001 General requirements

- (a) After approval of the preliminary plat by the Commission and Town Council, a final plat prepared by a registered public surveyor bearing his seal shall be submitted to the Commission.
- (b) The Final plat and accompanying data shall substantially conform to the Preliminary plat as approved by the Planning and Zoning Commission and Town Council, incorporating any and all conditions, changes, modifications, alterations, corrections and stipulations imposed by the Planning and Zoning Commission and Town Council. Any submittals of a Final plat which contains only part or portions of the area as shown on the Preliminary plat are considered phases and must be consistent with the Preliminary plat , as approved, in design and layout. Additional review time may be required where a Final plat does not constitute a full phase as shown on the Preliminary plat.
- (c) A written application for the approval of the final plat, together with not less than two (2) prints and a digital copy of the complete submittal package with all accompanying documents, including the drainage models, if required, shall be filed with the Town Secretary in accordance with the submission schedule, which may be amended from time to time, but will be not more than thirty (30) consecutive calendar days before the meeting of the Commission at which such plat is to be considered. A plat application which is not accompanied by the prescribed filing fees will not be considered as having been filed, The final plat may constitute all or only a portion of the approved preliminary plat, but any portion thereof shall conform to all of the requirements of this Chapter. If final plats are submitted for approval for a portion or section of the proposed subdivision, each portion or section shall carry the name of the entire subdivision but shall bear a distinguishing letter, number, or subtitle. Block letters shall run consecutively throughout the entire subdivision, even though such subdivision might be finally approved in sections.
- (d) For the purposes of this section, a final plat will be deemed to be filed when all administrative procedures have been completed and notice is posted of the date when the Planning and Zoning Commission will consider the final plat.
- (e) The final plat shall be drawn on sheets measuring twenty-four inches (24") by thirtysix inches (36") and shall be drawn to a scale of one hundred feet to the inch (1"-100'). A summary sheet/key is required when the project exceeds the required sheet size.
- (f) Two (2) direct prints, and one (1) set of plans and specifications for water, sanitary sewer, paving, and drainage improvements, for use by the building official, prepared

by a registered professional civil engineer, shall be approved and retained by the Town prior to any construction in the subdivision.

(g) All information contained in the Checklist for Final plats shall be provided, including but not limited to the following:

Sec. 10.05.002 Final plat contents

The final plat shall contain or have attached the following information and exact layout:

- (a) The boundary lines with accurate distances and bearings, a metes and bounds description of the boundary (error of closure shall not exceed one (1) in ten (10) thousand for adjusted boundary and one (1) in fifty (50) thousand for the plat boundary), exact acreage to hundredths, and exact location and width of all existing or recorded streets intersecting the boundary of the tract. One (1) copy of the traverse closure shall be enclosed;
- (b) True bearings and distance to the nearest established street lines, official monuments, or subdivision corner, which shall be accurately described on the plat. Municipal, town, county, or abstract lines shall be accurately tied to the lines of the subdivision by distance and bearings;
- (c) An accurate location of the subdivision in reference to the deed records of the County which shall include the volume and page of the deed of the property to be subdivided.
- (d) Street and/or alley names;
- (e) Access points for each lot to a dedicated street or public right-of-way. Where lots abut a state highway or roadway, prior to final plat approval, the plat shall be submitted for review to the Texas Department of Transportation for conformance with its Access Management Plan;
- (f) The length of all arcs, radii, internal angles, and points of curvature, length and bearings of the tangents. All horizontal alignments shall be in accordance with the Checklist and AASHTO guidelines whichever is more stringent shall apply;
- (g) All easements for public services and utilities and any limitation of the easements;
- (h) All lot and block numbers and lines, with accurate dimensions in feet and hundredths and with bearing and angles to street and alley lines to the nearest second;
- (i) The accurate location, material and approximate size of all monuments and the accurate location, material and size of all sight barrier fences where required to separate commercial and industrial from residential areas;
- (j) The accurate outline description of all property which is offered for dedication for public use such as parks, etc., with the purpose indicated thereon, and all property that may be reserved by deed covenant for the common use of the property owners in the subdivision;
- (k) Building setback lines;
- (l) Private restrictions;
- (m) The name of the proposed subdivision;
- (n) The name and address of the subdivider;
- (o) North point, scales, and dates;

- (p) A location map of the proposed subdivision on a scale of one inch to one thousand feet (1"-1000') showing existing and proposed streets and thoroughfares covering an area at least one (1) mile outside the proposed subdivision;
- (q) Construction plans and profiles shall be drawn on sheets measuring twenty-two inches (22") by thirty-four inches (34") for full-size prints, shall be the same size as the final plat, and shall include all applicable information provided on the Checklist, including but not limited to, the following information:
 - (1) A plan and profile of each street with top of curb grades shown. Each sheet shall include north point, scale, date, and benchmark description to sea level datum. Unless otherwise approved by the Town, scales shall be one-inch equals forty feet (1"= 40) horizontally and one inch equals four feet (1"=4') vertically when printed at half-size (11"x17"). Each plan shall show the seal and signature of the registered professional civil engineer that prepared the plans.
 - (2) The cross section of proposed streets showing the width of roadways, location of the proposed grade line, utility typical locations, type of pavement and location and width of sidewalks.
 - (3) A plan and profile of proposed sanitary sewers, if required, with grades and pipe sizes indicated and showing locations of manholes, clean out, etc., and plan of the proposed water distribution system showing pipe sizes and location of valves, fire hydrants, fittings, etc., in conformance with the applicable criteria presented in "improvements." Unless otherwise approved by the Town, scales shall be one-inch equals forty feet (1"= 40) horizontally and one inch equals four feet (1"=4') vertically when printed at half-size (11"x17"). Each plan shall show the seal and signature of the registered professional civil engineer that prepared the plans. Each sheet shall include north point, scale, date, and benchmark description on the mean sea level datum.
 - (4) A plan and profile of proposed storm sewers, if required, showing hydraulic data and gradients, pipe grades and sizes, manholes, inlets, pipe connections, outlet structures, etc., in conformance with the applicable criteria as shown in "improvements."
 - (5) Unless otherwise approved by the Town, scales shall be one-inch equals forty feet (1"=40') horizontally and one inch equals four feet (1"=4') vertically when printed at half-size (11"x17"). Each shall show the seal and signature of the registered professional civil engineer that prepared the plans. Each street shall include north point, scale, date, and benchmark description on the mean sea level datum;
- (r) Identification of each lot or site and block by number and letter;
- (s) Exact acreage of each lot or site;
- (t) Exact location of each fire hydrant, showing the required distance, for that zone, between the hydrants;
- (u) All final plat applications shall include an approved final drainage plan and study in accordance to Section 10.07.006;
- (v) FEMA floodplain and floodway with panel number, zone and effective date;
- (w) Fully developed 100-yr floodplain delineated and floodplain easement provided;

- Minimum finished floor elevations 2' above fully developed 100-yr water surface elevation for lots affected by or adjacent to floodplain, open channels, ponds or overflow structures or flumes;
- (y) Reference to recorded subdivision plats of adjoining platted land by record name, county recorder's book and page numbers, and the names of owners of adjoining unsubdivided land together with deed references;
- (z) <u>Restriction to occupancy</u>.
 - (1) If the subdivision is not to be immediately served by a sewage collection system and a treatment plant installed by the developer (where required by zone) or an approved septic system, then a restriction prohibiting occupancy of any lot until such systems have been installed, inspected and approved by the health officer having jurisdiction shall be required.
 - (2) Unless and until a final plat is approved in accordance herewith, it shall be unlawful for any official of the Town to serve or connect the owners with any public utilities.
 - (3) Any special restrictions required by the Commission for the protection of public health or safety or to insure substantial enjoyment of property rights of present and prospective owners of property within or adjoining the subdivision;
- (aa) The final plat shall be accompanied by one set of surveyor's closure notes for the boundary of the subdivision and each block thereof. The notes shall be referenced in the same manner as the plat. They shall be submitted in the form prescribed by and for the approval of the Commission and when approved, the notes shall be recorded as public documents in the records of the Town and the County;
- (bb) Certification of title and certificate of dedication or, in lieu thereof, a dedication deed, signed and acknowledged in the same manner prescribed by law for conveyances of real property by the owner and all others having an interest in the property being subdivided and platted, certifying the identity of all owners and persons having any interest in the property, including lienholders, and dedicating the streets, alleys, easements, parks and other spaces to public use, or when the subdivider has made provision acceptable to the Town Council for perpetual maintenance thereof, to the inhabitants of the subdivision;
- (cc) Certification by a licensed land surveyor, registered in the State of Texas, to the effect that the plan represents a survey made by him or under his direct supervision and that all monuments shown thereon actually exist, and that their location, size, and materials are correctly shown;
- (dd) The following certificate on the plat, in a manner that will allow the filling in of the certificate by the proper parties.

Recommended for Approval

Chairperson, Planning and Zoning Commission Da

Date

Approved for Construction

Mayor, Town of Cross Roads

Date

The undersigned, Town Secretary, of the Town of Cross Roads, Texas, hereby certifies that the foregoing final plat of the Subdivision or Addition to the Town of Cross Roads was submitted to the Town Council on the day , 20 , and the Council, by formal action, then and of there accepted the dedication of streets, alleys, parks, easements, public parks, and water and sewer lines, as shown and set forth in and upon said plat, and said Council further authorizes the Mayor to note the acceptance thereof for construction by signing his/her name as herein above subscribed.

Witness my hand this _____ day of _____ AD, 20_____,

Town Secretary

Sec. 10.05.003 Approval

The approval of construction drawings and the final plat by the Town Council shall expire after a period of one (1) year from the approval date, unless substantial construction has been completed, or the subdivider has requested in writing and received an extension of time. Any extensions of approval granted to a final plat shall be in increments of one hundred eighty (180) days. Construction drawings which have expired shall be resubmitted to the Town for approval before any construction is begun. The design of the proposed improvements shall be based on the construction requirements, which are in effect at the time of re-submittal.

Sec. 10.05.004 Filing of Final Plat

Once the final plat has been approved by the Town in accordance with the requirements of this Chapter, the sub-divider shall provide the Town with a sufficient number and size of documents as required by the County Clerk, along with certified tax statements and the Town shall file the final plat with the County Clerk. If the plat is filed prior to the acceptance of the constructed improvements by the Town, the developer shall provide to the Town a Performance Bond in the amount of 100% of the construction costs until such time that construction is complete and accepted. One (1) copy of the recorded final plat shall be retained by the Town Secretary for the Town's records.

ARTICLE 10.06 ADDITIONAL REQUIREMENTS FOR CERTAIN REPLATSSec. 10.06.001Replats without vacating previous plats

- (a) In addition to compliance with the provisions of this Chapter, a replat without vacating the previous plat shall comply with the provisions of this article if.
 - (1) During the preceding five (5) years, any of the area to be replatted was limited by an interim or permanent zoning classification to residential use for not more than two (2) residential units per lot, or
 - (2) Any lot in the preceding plat was limited by deed restrictions to residential use

for not more than two (2) residential units per lot.

- (b) Notice of a public hearing shall be given before the fifteenth (15th) day before the date of the hearing by:
 - (1) Publication in an official newspaper or a newspaper of general circulation in the county;
 - (2) By written notice, with a copy of this article attached, forwarded by the Town to the owners of property in the original subdivision as indicated on the most recently approved county or municipal tax roll or in the case of a subdivision within the extraterritorial jurisdiction, the most recently approved county tax roll, within two hundred feet (200') of the property upon which the replat is requested. The written notice may be delivered by depositing the notice, properly addressed with postage prepaid, in a post office or postal depository within the Town.
- (c) If the proposed replat is protested in accordance with this subsection, the proposed replat must receive, in order to be approved, the affirmative vote of at least three-fourths of all members of the Town Council. For a legal protest, written instruments signed by the owners of at least twenty percent (20%) of the area of the lots or land immediately adjoining the area covered by the proposed replat and extending two hundred feet (200') from that area, but within the original subdivision, must be filed with the Town Council prior to the close of the public hearing.
- (d) In computing the percentage of land area under subsection (c), the area of streets and alleys shall be included.
- (e) Compliance with this article is not required for approval of a replat of part of a preceding plat if the area to be replated was designated or reserved for other than single or duplex family residential use by notation on the last legally recorded plat or in the legally recorded restrictions applicable to the plat.

ARTICLE 10.07 DEVELOPMENTAL REQUIREMENTS

Sec. 10.07.001 Streets to conform to thoroughfare plan

The arrangement, character, extent, width, grade, and location of all proposed streets shall conform to the comprehensive plan and thoroughfare plan of the Town, to the relationship of the existing and planned streets to the topographical conditions, to the public convenience and safety, and to the appropriate relation to the proposed uses of the land to be served by such streets. Right-of-way for adjacent streets shall be dedicated to account for future widening in accordance with the comprehensive plan and thoroughfare plan of the Town except as otherwise provided for in State law.

Sec. 10.07.002 Abutting streets and drainage

When a proposed subdivision of land abuts both sides of an existing road, street, or highway, or drainage easement that is substandard according to the current specifications of this Chapter, the developer shall be required to improve the existing road and drainage to current standards or to replace it with a standard road at the developer's expense. The developer shall also be required to dedicate the necessary rights-of-way for the particular roadway, which shall be not

less than sixty (60) feet.

Sec. 10.07.003 Adjacent streets

- (a) When the proposed subdivision is located adjacent to a substandard road or street, the developer shall:
 - (1) Be required to construct the developer's one half (1/2) share of said improvements as a condition for the approval of the final plat; and,
 - (2) Be required to dedicate the necessary right-of-way for one half of that particular roadway, but not less than thirty (30) feet.
- (b) The developer may submit a request to the Town Council to pay the Town the developer's portion of said improvements in lieu of construction of said improvements and submit a full set of engineering plans and specifications for the improvement to the rights-of-way, and shall dedicate the appropriate rights-of-way. When considering this request, the Council may take into consideration timing of construction, constructions costs, and timing of surrounding developments in making their determination.

Sec. 10.07.004 Street requirements

Where it is not shown in the comprehensive plan or thoroughfare plan of the Town, the arrangements of streets in a subdivision shall:

- (a) Provide for the continuation or appropriate projection of existing streets in surrounding areas;
- (b) Conform to a plan for the neighborhood approved or adopted by the Town to meet a particular situation where topographical or other conditions make continuation of or conformance to an existing street impracticable;
- (c) Be aligned so that they will intersect, as nearly as possible, at right angles.
- (d) Residential streets shall be laid out so that their use by through traffic is discouraged.
- (e) Street jogs with centerline offsets of less than one hundred twenty-five feet (125) shall be avoided.
- (f) Street right-of-way widths shall conform to the following:

TYPE OF STREET	MINIMUM RIGHT- OF- WAY WIDTHS
Major Thoroughfare	125'
Collector	90'
Residential	60'

- (g) Utility easements shall be at least ten (10) feet wide on each side of the road, shall not lie within the street right-of-way, and no primary utilities will be located within the street right-of-way.
- (h) Half streets shall be prohibited.
- (i) Cul-de-sacs shall not exceed eight hundred feet (800') from the nearest intersecting street, and there shall be provided at the closed end a turnaround having an outside

roadway diameter of at least eighty feet (80') and a street right of way diameter of at least one hundred feet (100').

- (j) All streets shall be paved, and the paving shall conform to "improvements" of these regulations.
- (k) Street grades shall be established regarding topography, proposed land-use and the facilities in the area surrounding the land to be subdivided. An absolute minimum grade of five tenths (0.50%) will be allowed on concrete streets; however, where it is possible, a grade of eight-tenths percent (0.80%) shall be used.
- (1) Pavement markings shall be installed in accordance with TxDOT specifications, TxDOT standard details, and manufacturer's recommendations unless otherwise directed by the Town. Pavement markings and the erection thereof will be at the expense of the subdivider.
- (m)Residential lots shall not face major thoroughfares. Driveways or alley pavement cuts shall not be permitted on major thoroughfares. Alleys may be provided alongside and/or rear lot lines on major thoroughfares for rear entrance.
- (n) All testing in accordance with NCTCOG and Town requirements shall be conducted by a State approved testing lab approved by the Town at the developer's expense. The State approved lab tests shall include, but will not be limited to, inspection, testing compaction, moisture content, and lime application rate of the subgrade, inspection and testing plasticity index (pi) and lime application rate of the foundation course, and testing application rates, thickness, density, and inspection of the installation of the roadway surface course. The Town shall employ a registered professional engineer and/or qualified inspectors to independently act as quality control agents for each project. The Town and developer will receive reports of all items and those not in compliance with the specifications shall have recommendations for corrective action. The Town will have full authority to ensure that the corrective action required will be made. The developer will bear the cost of the quality control agent(s), and the required testing, and any required retesting. To ensure prompt payment for these services, the Town shall establish an account for this purpose at the time of final plat approval, and the developer shall maintain a minimum account balance as determined by the Town Council. Samples and testing results shall be furnished simultaneously directly to the quality control agent, Town and the developer.
- (o) When the developer completes the construction of improvements in the development and has satisfactorily completed all necessary quality control tests and reports, and the final cleanup is performed, the developer will notify the Town for a "final inspection". Such final inspection will be made within ten (10) business days after notification. After the final inspection, if the work is found to be satisfactory, the developer will be notified in writing of acceptance. If not satisfactory, the developer will be notified in writing of the corrective action required for approval.
- (p) No concrete or asphalt pavement shall be placed without the Town's quality control agent present to inspect material, thickness, rebar, and adherence to required testing and placement methods. Any concrete or asphalt pavement placed outside the presence of the Town's quality control agent may be subject to removal or additional testing requirements including but not limited to coring of the pavement section at the

discretion of the Town.

(q) All road maintenance, repair and upkeep in subdivisions will be the absolute and sole responsibility of the developer and/or homeowners association. Subdivision covenants and deed restrictions shall contain clear and express provisions that require the formation and continuation of a homeowner's association and shall impose upon such association the obligation for such street repair, maintenance and upkeep. The subdivision covenants and deed restrictions shall be filed with the final plat as a condition of plat approval.

Sec. 10.07.005 Alleys

- (a) Alleys may be required in commercial and industrial districts and shall be paved with reinforced concrete. The Town may waive this requirement where other definite and assured provisions are made for service access, such as off-street loading, unloading, and parking consistent with and adequate for the uses provided.
- (b) Alleys may be required in residential districts and shall be paved in concrete and shall be constructed in accordance with the requirements of this Chapter.
- (c) The minimum right-of-way width of an alley shall be twenty (20) feet in industrial and commercial areas and fifteen (15) feet in residential areas. The alley turnouts shall be paved to the property line and shall be at least two (2) feet wider than the alley paving. The radii of the turnouts for the alleys intersecting thoroughfares shall be sixteen (16) feet and shall be ten (10) feet at intersections with all other streets. Concrete for all alleys shall be 7-inch thick with minimum #4 bars at 24-inch on centers each way with a compressive strength of 4,000 psi when tested at 28 days.
- (d) Alley intersections and sudden changes in alignment shall be avoided, but, when necessary, lot corners shall be cut off at least fifteen (15) feet on each tangent to permit safe vehicular movement. Site visibility triangles shall be calculated and shown on the plan per AASHTO criteria. No fences, signage, or landscape that interferes with site visibility shall be permitted to be installed within the site visibility triangle.
- (e) Dead-end alleys shall be avoided where possible, but if unavoidable, they shall be provided with adequate turn-around facilities, as determined by the Town.
- (f) Where driveways connect to alleys in commercial, industrial, or residential areas, fences may be constructed along the rear lot line of any line of any lot to a point within five feet (5) of a point where the driveway would intersect the alley pavement at ninety degrees (90').

Sec. 10.07.006 Drainage

- (a) Every drainage improvement intended to convey water from or along a road shall be designed and constructed to required specifications as delineated in the current County Subdivision Rules and Regulations, Engineering plans, as may be amended. References to centralized road and bridge shall, for the purposes of the Town, mean either the Town Engineer or quality control agent as determined by the Town Council. Additional requirements provided in the Checklist for drainage analysis and improvement shall also apply.
- (b) In all cases, perimeter drainage engineering plans for the subdivision or total

development (project) shall be required with the preliminary plat. Where a subdivision will have interior roads or ingress/egress easements, the developer will be responsible for perimeter drainage improvements to the existing and adjacent Town roads.

- (c) Complete engineering plans for storm drainage facilities shall be prepared, signed and sealed by an Engineer.
- (d) All drainage plans shall contain adequate provisions for drainage and shall provide no greater risk, hazard, or damage potential, in speed or volume, from rainfall and stormwater runoff than existing prior to development.
- (e) An erosion and sedimentation control plan may be required by the Commission and/or the Town Council to provide for adequate protection from erosion and sedimentation nuisances that may occur as a result of the construction of the development or subdivision.
- (f) All drainage facility repair and upkeep in subdivisions will be the absolute and sole responsibility of the developer and/or homeowners association unless or until the Town adopts an ad valorem property tax and assumes the responsibility for maintenance of subdivision drainage facility by action of the Town Council. Under such condition, private drainage facilities including but not limited to, detention ponds, earthen channels, natural creeks, etc. shall remain the responsibility of the developer and/or homeowners association. Subdivision covenants and deed restrictions shall contain clear and express provisions that require the formation and continuation of a homeowner's association and shall impose upon such association the obligation for such drainage facility repair, maintenance and upkeep. The subdivision covenants and deed restrictions shall be filed with the preliminary plat as a condition of plat approval.

Sec. 10.07.007 Lots

- (a) All lots shall conform to the regulations as set forth in the Town's Comprehensive Zoning Ordinance.
- (b) All lots shall have a minimum width adjacent to the street of sixty (60) feet. Corner lots in residential areas shall be wider than inside lots so as to allow the required set-back from both streets. Each lot shall face onto a public street or a private drive, except in a planned unit development. Lots with street frontage at both front and rear shall be avoided, except when the lot backs onto a highway or thoroughfare. Sidelines of lots shall be approximately at right angles to straight streets and radial to curved street lines.
- (c) In subdivisions where buildings are to be served by septic tanks, the size of lots shall be sufficiently large to accommodate adequate drainage fields and to meet the standards set forth by all appropriate regulatory authorities including the state department of health, the Texas Commission on Environmental Quality (TCEQ), the County and the Town.
- (d) Lots which are to be served by septic systems, and which include land within the one hundred (100) year flood plain, shall have a minimum of one (1) acre (43,560 sq. ft.) of land exclusive of the flood plain. Lots which include any part of the one hundred (100) year flood shall have the required minimum floor elevation designated on the plat.

Sec. 10.07.008 Easements

- (a) Easements shall be provided for restricted use on private property upon which any public utility shall have the right to remove and keep removed all or part of any building, fences, shrubs, or other improvements or growths which in any way endanger or interfere with the construction, maintenance, or efficiency of its respective systems within its said area. Any public utility shall at all times have the right for ingress and egress to and from and upon the said easement for the purpose of constructing, reconstructing, inspecting, patrolling, maintaining, and adding to or removing all or part of its respective systems without the necessity, at any time, or procuring the permission of anyone. All utilities must notify the Town and the property owners one-week prior to the initiation of a construction or reconstruction project, which exceed five thousand dollars (\$5,000.00) in projected cost.
- (b) In new subdivisions, the developer shall provide all the necessary easements and right-of-way required for drainage structures, including storm sewer and open or lined channels. Easement width for storm sewer pipe shall not be less than sixteen (16) feet, and easement width for open or lined channels shall be at least twenty (20) feet wider than the top of the channel, fifteen (15) feet of which shall be on one side to serve as an access for maintenance purposes. Required easement width may be adjusted depending on geometric variables at the discretion of the Town.
- (c) Floodplain easements shall be provided on sites along natural creeks to encompass the fully developed 100-year floodplain plus a ten (10) foot buffer on both sides.

Sec. 10.07.009 Blocks

The lengths, widths, and shapes of blocks shall be determined with regard to the following criteria:

- (a) Zoning requirements relating to lot sizes and dimensions.
- (b) Limitation of topography.
- (c) Where no restrictive covenants exist, the blocks shall not exceed one thousand two hundred feet (1,200') in length nor be less than five hundred feet (500') in length, except in certain instances where topographical features warrant special consideration. These limits may be exceeded only upon specific approval by the Town. Blocks longer than six hundred feet (600') shall be avoided in business districts.

Sec. 10.07.010 Survey monuments and lot markers

Concrete monuments shall be placed in all corners of boundary lines in subdivision or at no more than fourteen hundred-foot (1,400') intervals. These monuments will be installed before recording of the final plat. Intermediate property corners, curve points, and angle points of each lot in the subdivision shall be marked by iron stakes of not less than one half inch (1/2") in diameter, not less than twenty-four inches (24") in length, driven flush with the ground or counter-sunk, if necessary, in order to avoid being disturbed. No utility construction shall be allowed until permanent lot pins are in place.

ARTICLE 10.08 IMPROVEMENTS

Sec. 10.08.001 Design Criteria

Construction plans shall include all applicable information and adhere to all criteria noted in the Checklist. In a case where local criteria conflicts with stated NCTCOG, TxDOT, Denton County, and AASHTO criteria, the most stringent criteria shall apply.

Sec. 10.08.002 Standard specifications and construction details

- (a) All improvements proposed for any subdivision shall be constructed in accordance with the current "Standard Specification for Public Works Construction" published by the North Central Texas Council of Governments. No improvements will be constructed prior to acceptance and approval of the final plans.
- (b) From and after December 8, 1997, all streets and roads constructed in nonresidential areas of the Town shall be constructed of concrete, and new residential subdivision streets and roads shall be constructed of concrete, in accordance with the standards of the Town, the requirements and specifications imposed by the Town, the standards promulgated by the North Central Texas Council of Government's "Standard Specifications for Public Works Construction," current edition, and applicable standards published by the Texas Department of Transportation. All sidewalk and pedestrian facilities shall be designed and constructed in accordance with the Texas Department of Transportation's most recent design specifications for pedestrian facilities, curb ramps, a copy of which shall be kept and maintained in the office of the Town Secretary and the Building Official.
- (c) Asphalt streets in low impact residential subdivisions (minimum lot size two (2) acres) may be considered on an individual basis.
- (d) All improvements to any existing subdivision street may be constructed of concrete or asphalt in accordance with the standards of the Town, the requirements and specifications imposed by the Town, the standards promulgated by the North Central Texas Council of Government's "Standard Specification for Public Works Construction," latest edition, and applicable standards published by the state department of transportation.
- (e) All improvements in previously approved but still unimproved subdivisions shall conform to the Town's current regulations and specifications for street, drainage, and utility construction.
- (f) Before construction of any streets, drainage, or utilities in any properly platted subdivision, a contract must be executed by the Town, the developer, and the general contractor and which must contain the following provisions.
 - (1) A summary description of the improvements to be constructed and the incorporation by reference of all specifications, plans, and plats as approved by the Mayor of the Town, or the Town Council where required;
 - (2) A statement of the total consideration to be paid for the work to be performed;
 - (3) A statement of the date that works to be performed will be completed;
 - (4) A statement sufficiently identifying the subdivision involved; and
 - (5) A section providing for the approval on the face of each contract by the Town.

Sec. 10.08.002 Record drawings (as-built plans)

- (a) Within thirty (30) days of acceptance of the subdivision, the engineer for the developer shall submit to the Town a complete set of reproducible drawings of the paving, drainage, water, and sewer improvements, if any, showing all changes made in the plans during construction and containing on each sheet a "record drawing" stamp bearing the signature of the engineer and date. In addition, a reproducible drawing of the utility plan sheets, containing the record drawing information, shall be submitted to the Town along with a complete set of cadd files in .dwg format.
- (b) No final acceptance of the subdivision will be made by the Town until the foregoing requirement has been accomplished to the satisfaction of the Town. It shall be the responsibility of the developer to furnish copies of the record-drawing plans to the appropriate state agencies.

ARTICLE 10.09 FILING FEES AND CHARGES

Sec. 10.09.001 Fee structure

- (a) The Town shall determine the base fees and charges for plat review. The Town Council shall adopt a fee schedule.
- (b) Fees shall be charged on all plats, regardless of action taken by the Planning and Zoning Commission and whether the plat is approved or denied by the Town Council.
- (c) If the amount deposited is less than the actual cost of reviewing and processing the plat, the balance shall be collected before final consideration of the plat. An administrative fee and processing costs as established in the fee schedule in excess of the original fee will be charged.
- (d) The Town may also assess against the applicant, developer or subdivider additional costs incurred by the Town for engineering fees and legal fees associated with the review and consideration of a plat in the amount incurred by the Town. The payment of these additional fees shall be a condition of plat approval or a prerequisite to the acceptance of any improvements or the issuance of any building permits.

Sec. 10.09.002 Procedure

All fees or charges shall be paid in advance and no action of the Planning and Zoning Commission or any other board or agency shall be valid until the fee or charge has been paid to the Town.

ARTICLE 10.10 MAINTENANCE BOND

Sec. 10.10.001 Bond required

The developer shall furnish a good and sufficient maintenance bond in the amount of ten percent (10%) of the total cost or contract price for the public improvements associated with each job or \$50,000 whichever is greater but not to exceed the total cost for the project, with reputable and solvent corporate surety licensed to write insurance in the state, in favor of the Town, to indemnify the Town against any repairs which may become necessary to any part of the construction work performed in connection with the subdivision, arising from defective

workmanship or materials used therein, for a full period of two (2) years from date of final acceptance of the entire project. Final acceptance shall be withheld until said maintenance bond is furnished to the Town.

ARTICLE 10.11 EXTENSION TO EXTRATERRITORIAL JURISDICTION

Sec. 10.11.001 Extension of rules to extraterritorial jurisdiction

This Chapter and all subdivision regulations and ordinances of the Town as it now exists or may hereafter be amended is hereby extended to all of the area lying within the extraterritorial jurisdiction of the Town and the rules and regulations within this Chapter governing plats and subdivision of land shall be applicable to such area within said extraterritorial jurisdiction from and after the effective date of the adoption of this Chapter regulating subdivisions.

Sec. 10.11.002 Requirement

No person shall subdivide or plat any tract of land within the E.T.J. of the Town except in conformity with the provisions of this Chapter.

ARTICLE 10.12 OTHER REQUIREMENTS

Sec. 10.12.001 Inspections

- (a) A letter of acceptance is required from the Town before any improvement will be considered complete.
- (b) No acceptance will be given on any work covered before the official representing the Town has inspected the work.
- (c) A minimum of twenty-four hours advance notice must be given before the designated Town Official is expected at the job site. Any work or improvements covered before inspections must be uncovered.

Sec. 10.12.002 Variance in standards

Where strict compliance with the standards of design or the required improvements specified in this Chapter would cause unnecessary hardship because of topographical or other conditions peculiar to the site or adjacent area, the Commission may recommend, and the Town Council may approve, a variance. All variances must be approved in writing and the reason for which the variance was granted shall be stated therein.

Sec. 10.12.003 Buildings within proposed major street extensions

After April 2, 2003, no permanent building or structure shall be erected within the extended street lines of proposed extensions of major streets shown on the thoroughfare plan adopted as part of the official plan of Town.

Sec. 10.12.004 Enforcement of Chapter

The Town shall appoint an enforcement officer/or Town Official to enforce the provisions hereof. The enforcing Town Officer/Official may call upon any department or official of the

Town to furnish him with such information and assistance as he may deem necessary for the observance or enforcement of this Chapter and it shall be the duty of such department or official to furnish such information and assistance whenever requested.

ARTICLE 10.13 PENALTY

Sec. 10.13.001 Penalty

Any person, firm, or corporation who shall violate any of the provisions of this Chapter or who shall fail to comply with any provision hereof shall be guilty of a misdemeanor and, upon conviction, shall be subject to a fine in accordance with the general penalty provision found in Section 1.01.009 of this code, and each day that such violation continues shall constitute a separate offense and shall be punishable accordingly. In addition, the town reserves its rights to seek declaratory and injunctive relief, together with any other legal or equitable relief to which the town may be entitled in a court of competent jurisdiction, in order to enforce the provisions of this Chapter. The remedy and penalties provided for herein shall be cumulative of any other remedy allowed by law.

Chapter 10 Subdivision Regulations ARTICLE 10.01 GENERAL PROVISIONS

Sec. 10.01.001 SubdivisionPurpose

As used herein, the term "subdivision" shall mean the dividing of a tract of land in two or more parts to lay out the tract in sections, including an addition to the town, to lay out suburban, building, or other lots, or to lay out streets, alleys, squares, parks, or other parts of the tract intended to be dedicated to public use or for the use of purchasers or owners of lots fronting on or adjacent to the streets, alleys, squares, parks, or other parts. "Re subdivision" Shall mean the division of any existing subdivision or lot or tract within an existing subdivision, whether platted or unplatted, or any change in lot size therein, or the relocating of any easements or rights-of-way.

The purposes of this Chapter are:

- (a) To protect and provide for the public health, safety and general welfare of the Town.
- (b) To promote and provide for the safe, orderly and healthy development of the Town.
- (c) To guide the future growth and development of the Town in accordance with the Comprehensive Plan and Thoroughfare Plan.
- (d) To ensure safety from fire, flood, and other danger, and to prevent overcrowding of the land and undue congestion of population.
- (e) To guide public and private development in order to provide adequate and efficient transportation, water, wastewater, drainage and other public requirements and facilities.
- (f) To provide for the circulation of traffic and pedestrians required for the beneficial use of land and buildings and to avoid congestion throughout the Town.
- (g) To establish reasonable standards of design and procedures for platting to further the orderly layout and use of land to ensure proper legal descriptions and monumenting of platted land.
- (h) To prevent the pollution of streams, ponds and lakes; to ensure the adequacy of drainage facilities; to safeguard the water table, and to encourage the wise use and management of natural resources and enhance the stability and beauty of the community and the value of the land.
- (i) To provide for open spaces through the most effective design and layout of the land.
- (j) To remedy the problems associated with inappropriately platted lands, include premature subdivision, incomplete subdivision and scattered subdivision.

Sec. 10.01.002 Jurisdiction

- (a) (a) Except as provided in Article 10.03 of this Chapter, any owner of land inside the corporate limits or the extraterritorial jurisdiction ("E.T.J.") of the Town wishing to subdivide such land shall submit to the Planning and Zoning Commission a plan of subdivision which conforms to the minimum requirements set forth in these regulations.
- (b) (b) —No subdivision plat shall be filed or recorded and no lot in a subdivision inside corporate limits or the E.T.J. of the Town shall be improved or sold until a final plat shall have has been considered by the Planning and Zoning Commission and approved by the Town Council.

(c) No building permit shall be issued for the erection of any building in the Town or within the Town's E.T.J. on any piece of property other than the original building site or resubdivided lot in a duly approved and recorded subdivision or on an approved building site in accordance with the zoning regulations, without the written approval of a plat by the Town Council in compliance with the provisions of this ordinance.

Sec. 10.01.003 Violations

- (a) (a) —It shall be unlawful for any owner, or agent of any owner, to lay out, subdivide, or plat any land into lots and blocks with <u>or without</u> any easement or rights-of-way within the Town or its E.T.J., or to sell or improve such property, which has not been first platted according to these regulations and rules of the Planning and Zoning Commission.
- (b) (b) Any violation of any provision of this Chapter outside the corporate limits of the Town shall not constitute a misdemeanor under this Chapter nor shall any fine provided for in this Chapter be applicable to a violation within such extraterritorial jurisdiction, however, the Town may petition any court of competent jurisdiction for injunctive relief and damages as allowed by law.
- (c) (c) No officer or employee of the Town shall perform, or cause to be performed, any work upon any streets of any addition or subdivision within the Town unless all requirements of these regulations have been complied with by the owner of the addition or subdivision.
- (d) (d) The Town declares its policy to be that it will withhold improvements of any nature whatsoever, including the maintenance of streets, issuance of building permits, or the furnishing of sewage facilities and water service, until a final plat of the subdivision has been approved by the Town Council and filed with the County Clerk. No improvements shall be initiated nor any contracts executed until written approval has been obtained by the subdivider.

ARTICLE 10.02 **DEFINITIONS**

Sec. 10.02.001 Definitions generally

<u>Administrative officers</u>. Every officer referred to by title, i.e., Town Attorney, Town Secretary, Town Engineer, building official, etc., and shall be the person so retained in this position by the Town's duly authorized representative.

<u>Alley</u>. A minor right-of-way used primarily for vehicular service to the rear or side of properties otherwise abutting on a street.

Building line. A line beyond which buildings must be set back from the street or road right-ofway line or property line.

<u>Checklist</u>. A written list of all documentation and other information required to be submitted with a plat application and related to requirements in this Chapter in accordance with Section 212.0081 of the Texas Local Government Code.

<u>Commission or Planning and Zoning Commission</u>. The official Planning and Zoning Commission of the Town as appointed by the Town Council. The Commission is charged with the responsibility of reviewing for approval all subdivisions, preliminary plats, and final plats and site plans-in the Town. The Commission shall also perform such other duties or functions as the Town Council may delegate to it from time to time.

<u>Collector street</u>. A street which is continuous through several residential or other districts and is intended as a connecting street between such districts and thoroughfares, highways, or business districts.

<u>*Commercial street*</u>. Denote any street situated so that fifty (50) percent or more of the property abutting it is zoned for other than low-density residential development.

<u>Commercial tract</u>. Any tract containing any type of land use except for single family detached residential. (Requirements and standards for religious and educational land uses shall be the same as the character of the predominant surrounding land uses.) Nothing contained in the definitions set forth shall be considered as limitations to or repeal of the definitions set forth in the building and fire codes adopted by the Town.

<u>Comprehensive plan</u>. The general plan for the growth and development of the Town and its environs; and including any elements of such plan, such as a land use plan, thoroughfare plan, utilities plan, schools and parks plan, and others.

<u>Construction drawings</u>. Those drawings, schematics, plans and other documents that graphically illustrate or depict a proposed building or structure that includes a graphic depiction to scale of the elevation, exterior features, interior lay-out, and other architectural elements.

<u>Cul-de-sac</u>. A short residential street having but one vehicular access to another street, and terminated by a vehicular turn around.

Dead end street. A street, other than a cul-de-sac with only one outlet.

<u>Easement</u>. An area for restricted use on private property upon which any public utility or public entity shall have the right of access and use, as determined by the nature of the easement and the documents which create the easement and shall include the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other improvements or growth which in any way endanger or interfere with the construction, maintenance, or efficiency of its respective systems within said area or its proper use of the easement. Any public utility shall at all times have the right of ingress and egress to and from and upon the said easements for the purpose of constructing, reconstructing, inspecting, patrolling, maintaining, and adding to or removing all or part of its respective systems without the necessity, at any time, or of procuring the permission of anyone. All utilities must notify the Town and the property owners one-week prior to the initiation of any construction or reconstruction project which will exceed \$5,000.00 in projected cost. *Emergency access easement*. A private street, alley or paved place dedicated to the public for the purpose of providing access to adjacent structures by emergency vehicles such as fire equipment, police or ambulances, the boundaries of which are continuously and permanently marked.

Engineer. Whenever used with a prefix, shall refer to a registered professional engineer licensed to practice in the state of Texas and retained by a subdivider.

Final plat. A map or drawing prepared according to the provisions of this Chapter and containing all surveying and legal data, dedications and certificates necessary to the recording of same in the plat records of the county.

<u>HUD code manufactured home</u>. A structure constructed on or after June 15, 1976, according to the rules of the United States Department of Housing and Urban Development, transportable in one or more sections, which, in the traveling mode, is eight body feet or more in width or 40 body feet or more in length, or, when erected on site, is 320 or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities and includes the plumbing, heating, air conditioning, and electrical systems. The term does not include a recreational vehicle as that term is defined by 24 C.F.R. Section 3282(g).

Fully developed conditions- For watershed hydrology, fully developed conditions include all existing developed areas which shall reflect current land use or current zoning, whichever yields the greatest runoff, and all existing undeveloped areas which shall reflect anticipated future land use designated by zoning classification, by a Comprehensive Plan, or by an accepted concept plan, or in the ETJ, NCTCOG future land use maps.

Lot. Land occupied or to be occupied by a building and/or accessory building and including such open spaces as are required by ordinances of the Town and having its principal frontage on a public street or officially approved place.

Lot of record. A lot which is part of a subdivision, the plat of which has been recorded with the County Clerk; or a parcel of land, the deed for which was recorded with the County Clerk.

<u>Manufactured housing or manufactured home</u>. A HUD code manufactured home or a mobile home and collectively means and refers to both.

Mayor. The duly elected presiding officer of the Town Council.

<u>Mobile home</u>. A structure that was constructed before June 15, 1976, transportable in one or more sections, which, in the traveling mode, is eight body feet or more in width or 40 body feet or more in length, or, when erected on site, is 320 or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities and includes the plumbing, heating, air conditioning, and electrical systems.

Minor plat. A plat or replat involving four or fewer lots fronting on an existing street and not

requiring the creation of any new street or the extension of municipal facilities in accordance with prerequisites defined in this document.

Natural Creek. Those drainageways that are generally unimproved, that often exhibit a meandering course, and which are not proposed to be improved to Town standards for earthen channels. Natural creeks are generally not dredged, mowed or otherwise maintained by the Town and should be contained within floodplain easements rather than drainage easements. Floodplain easements must encompass the fully developed 100-yr floodplain plus ten (10) foot buffer on both sides. Floodplain easements are not routinely maintained by the Town or County.

<u>Open space</u>. That part of any lot or tract that is used for recreational purposes, both passive and active, but not including areas used for parking or maneuvering of vehicles, or drives or approaches to and from parking areas.

<u>Owner</u>. One holding fee simple title to real property or one who, by virtue of a power of attorney or other recordable instrument has the authority to sell, convey or encumber the real estate on behalf of those who hold fee simple title.

<u>Preliminary plat</u>. A map or drawing on which is shown the subdivider's proposed arrangement of streets, lots, easements, and other public spaces and facilities in the subdivision, and which is intended for review and study by the Town and not for recording.

<u>Private driveway</u>. Any area, parcel or strip of land which provides vehicular access to adjacent property or land whether designated as a street, highway, freeway, thoroughfare, avenue, lane, boulevard, road, place, drive or however otherwise designated, which is not designated as a public right-of-way, is not maintained by the Town and is used by and serves not more than three residences. Property owners of private driveways are responsible for ensuring the driveway is maintained in a manner that insures emergency vehicle access.

<u>*Replatting*</u>. The re-subdivision or re-designing of any part or all of any lot(s) or block(s) of a previously platted subdivision, addition, or tract of land.

<u>Residential street</u>. A street which is intended primarily to serve a neighborhood or limited residential district and which is geometrically designed to discourage high speed and through traffic.

<u>Residential tract</u>. Any tract of land developed for the primary use by single-family detached residential structures.

<u>*Re-subdivision*</u>. The division of an existing lot(s) into additional lot(s) or tract(s) of land. <u>*Re-subdivision*</u>. Shall mean the division of any existing subdivision or lot or tract within an existing subdivision, whether platted or unplatted, or any change in lot size therein, or the relocating of any easements or rights-of-way. <u>Sanitary sewer</u>. A pipe or conduit for water carried wastes from residences, business building, institutions and industrial establishments, and to which storm, surface and ground water are not normally admitted, and which is a part of the public sewage collection system. <u>Service line</u>. A water or sewer pipe running from the water or sewer main to the property to which water or sewer service is provided.

Sewer or sewer main. A sanitary sewer (excluding service lines).

<u>Site plan</u>. A scale drawing of any site for which a building permit is sought. The plan shall include but is not limited to the following locations of all existing and proposed structures, utilities, parking area, fences, barriers, roads, driveways, and landscaping. The site plan also includes data to demonstrate compliance with all setback requirements, area coverage ratios, and site development regulations.

<u>Storm sewer or storm drain</u>. A pipe, conduit, or channel which carries storm and surface water and drainage, but excludes domestic sewage and industrial wastes.

<u>Street</u>. An area for vehicular traffic whether designated as a street, highway, thoroughfare, parkway, throughway, road, avenue, boulevard, lane, place, or otherwise.

<u>Street right-of-way width</u>. The shortest distance between the lines which delineate the right-of-way of a street.

<u>Subdivider or developer</u>. An individual, firm, corporation, or other legal entity that owns any interest in land and that directly or indirectly subdivides land into lots as part of a common promotional plan in the course of business or who divides or proposes to divide land or makes improvements to land so as to <u>effectaffect</u> a subdivision of land hereunder for itself or for another.

<u>Subdivision</u>. Shall have the definition set forth in <u>section 10.01.001</u> of this chapter and includes any The division or alteration of any lot, tract or parcel of land intosituated within the corporate limits in two (2) or more parts for the purpose of <u>sales</u>laying out any subdivision of any tract of land or ofany addition to the Town of Cross Roads, or for laying out or altering an existing building developmentsite or any building sites, streets, alleys or part or other portions intended for public use or for the use of purchasers or owners of lots fronting thereon or adjacent thereto for the purpose, whether immediate or future. It also, of creating building sites. Subdivision includes resubdivision or replatting of land, lots, the alteration of established building sites composed of all or portions of previously established lots or tracts.

<u>Surveyor</u>. A licensed land surveyor or a registered public surveyor, as authorized by the state to practice the profession of surveying.

Thoroughfare. A principal traffic thoroughfare more or less continuous across the Town which is intended to connect remote parts of the Town, or areas adjacent thereto, and act as a principal

connecting street with state and interstate highways.

<u>Utility easement</u>. An interest in land granted to the public generally, in order that the Town or private utility corporation, may install or maintain utilities across, over, or under such easement together with the right to enter thereon the easement with machinery, vehicles and personnel necessary for the maintenance of said utilities.

ARTICLE 10.03 PLATTING

Sec. 10.03.001 Procedure

Any owner or developer of any lot, tract, or parcel of land located within the corporate limits of the Town or within its extraterritorial jurisdiction that desires to subdivide or develop any such land shall comply with and conform to the procedures set forth hereinafter.

Sec. 10.03.002 Subdivisions excluded from platting

- (a) (a) Owners of a tract of land who subdivide the tract under the following circumstances and doare not required to lay out any part of the tract for streets, alleys, squares, parks, or other parts of the tract to be dedicated to public use or for the use of purchasers or owners of lots fronting on or adjacent to the streets, alleys, squares, parks, or other parts of the tract are excluded from the platting requirements of this Chapter.
 - (1) <u>Agriculture exclusion</u>. The land is to be used primarily for agriculture use, as defined by Article VIII, Section 1-d, State Constitution, or for farm, ranch, wildlife management, or timber production use within the meaning of Article VIII, Section 1d-1, State Constitution;
 - (2) <u>Family exclusion</u>. The land is to be divided into four or fewer lots or tracts, each with dedicated access easement to a public street described on the survey and deed, and each of the lots or tracts are sold, conveyed, gifted or otherwise transferred to a person who is related to the owner within the third degree of consanguinity or affinity.

(Ordinance 2003-0402-05 adopted 5/12/03)

(3) <u>Large lots exclusion</u>. The land is subdivided into lots that are greater than ten acres or more in size where each part has access and no public improvement is being dedicated. (Ordinance 2019-0819-02, sec. 1, adopted 8/19/19)

- (3) <u>(4)</u><u>Retained ownership exclusion</u>. The owner retains title to a lot or portion of the land; the other lot or portion is transferred to another person who will further subdivide the tract subject to the plat approval requirements of this Chapter.
- (b) (b) —Any person claiming any exclusion to platting set forth above must provide the following prior to the issuance of any building or development permits by the Town:
 - (1) <u>Agriculture exclusion</u>. The owner shall submit an affidavit, in a form provided or approved by the Commission, in which the owner and any person to whom the owner is to transfer an ownership interest, affirms the use of the tract of land as described by Section 1-d or Section 1-d-1 of Article VIII of the State Constitution. The affidavit shall state that the property is being

subdivided under the agriculture exclusion of the land development and Subdivision Regulations of the Town and that the person or persons acquiring the property are aware that the property may not be suitable for any developmental use. In the event the property is subsequently developed or subdivided, the requirements of the ordinances in effect at the time of development will apply.

(2) (2) Family exclusion. The owner shall submit an affidavit, in a form provided or approved by the Commission, in which the owner and any person to whom the owner is to transfer an ownership interest, affirms the conditions under which the property was subdivided. In addition to the affidavit, the Commission may also require certified copies of birth certificates, marriage licenses or other governmental or family records which establish the relationship between the owner and the person or persons to whom an ownership interest has transferred.

(3) <u>Large lots exclusion</u>. The owner shall furnish the commission a survey or deed describing the lot or tract transferred.

(3) (4) <u>Retained ownership exclusion</u>. The owner shall furnish the Commission copies of the deeds and an affidavit from the person to whom the other lot or tract was transferred which affirms the intent to further subdivide the tract subject to the plat approval requirements of this Chapter.

Sec. 10.03.003 Preapplication conference required

Prior to the filing of a preliminary plat, the subdivider shall meet with the Town Engineer or his designated agent to acquaint himself with the requirements of the Town and the relationship of the proposed subdivision to the zoning ordinance. At such meeting, the density standards, building site requirements and any street, drainage or utility service requirements may be discussed, along with the general character of the building or development in order to identify development requirements. At this meeting, the Town Engineer or his designated representative shall classify the subdivision application as either major or minor and direct the applicant to the appropriate procedures.

<u>Sec. 10.03.004</u> Preliminary plat filing and time for action

(a) (a) Any and all subdivisions of property in the Town and within the extraterritorial jurisdiction of the Town shall be reviewed by the Commission and approved by the Town Council-with the exception of a Minor Plat, which may be administratively approved by the Mayor or designated agent. Minor Plats may be forwarded to the Planning and Zoning Commission and Town Council at the Mayor's discretion. The subdivider shall first prepare and submit to the Commission a preliminary plat in accordance with the regulations set forth in this Chapter, together with the information and items required by this Chapter, for the Commission's review and recommendations. The commission shall act on After the Planning and Zoning Commission has reviewed the preliminary plat, the Commission shall, within thirty (30) days from the submission date-such plat is filed or the preliminary plat will be considered as approved if the commission fails, recommend to disapprove such plat within thirty (30) days afterTown

- Council either the date that such plat is filed.:
 - (1) (b) Approval of the plat as presented;
 - (2) Approval of the plat with conditions that reference the specific ordinance provisions not met; or
 - (3) Disapproval of the plat with reasons for denial that reference the specific ordinance provisions not met.

If no action is taken on the plat within 30 days from the submission date, the plat will be considered approved.

- (b) Prior to filing a preliminary plat and application for approval, the subdivider shall submit the preliminary plat to all relevant utility providers for review. The written commentsProof of submission to the utility providers, as well as a will serve letter shall be included with the application and preliminary plat. When a preliminary plat is filed with the Town for review and approval, if deemed necessary, it shall be forwarded to the utility providers, and, if deemed necessary, the Town's consulting engineer, who will make a preliminary review of the plat. If the town determines that the preliminary plat and application, as submitted, is substantially incomplete and requires a significant revision by the developer's engineer, the incomplete plat will be returned to the developer's engineer, the incomplete plat will be returned to the developer's engineer, the incomplete plat will be returned to the developer's engineer, the incomplete plat will be returned to the developer's engineer, the incomplete plat will be returned to the developer's engineer, the incomplete plat will be returned to the developer's engineer, the incomplete plat will be returned to the developer's engineer, the before re-submission.
- (c) (c) Prior to filing a preliminary plat and application to the Town, the developer must schedule and attend a predevelopment meeting with Town officials in accordance with Section 10.03.003. At such time, developer and/or developer's engineer shall provide a basic description and sketch of proposed subdivision and improvements. The Town will not accept a preliminary plat application prior to the predevelopment meeting.
- (d) Upon receipt of a preliminary plat, all required documents, and payment of all required fees, the Town Secretary, or designated agent, shall check the preliminary plat for completeness in accordance with Article 10.04. No preliminary plat shall be processed for review that is determined to be incomplete. The Town Secretary shall coordinate the review of the preliminary plat with applicable municipal departments and the Town Engineer as required. Upon determination that the preliminary plat does not meet the minimum requirements of these Subdivision Regulations, the Town Secretary shall give the developer written notice of the revisions required to complete the plat application.
- (e) Preliminary plat submissions which include drainage studies, downstream assessments, or detention pond construction shall require a minimum ten (10) business days for each review. All necessary subsequent reviews regardless of the number of comments shall require ten (10) business days for review. Drainage studies and downstream assessments may be submitted for review prior to official Preliminary plat submission to avoid denial of Preliminary plat application by the Planning and Zoning Commission.
- (f) Upon completion of staff review and the receipt of necessary revisions from the developer, and determination that the preliminary plat has officially been submitted in accordance with the requirements of Article 10.04, the preliminary plat shall be placed on the next available meeting agenda for consideration by the Planning and Zoning <u>Commission.</u>
- (c)(g) Following Commission review, the preliminary plat shall then be submitted to the Town Council for final action, together with the Commission's recommendations.

The Town Council shall act on the preliminary plat within thirty (30) days after the plat is approved by the Commission or is considered approved by the inaction of the Commission. The Town Council shall act on the preliminary plat within thirty (30) days of submission to the Town Council.

(Ordinance 2003-0402-05 adopted 5/12/03)

(d)(h) (d)—The preliminary plat shall be filed with an application on a form provided by the Town for that purpose. The application and preliminary plat shall be filed with the Town Secretary at least fifteen (15)in accordance with the Town's submissions schedule which may be amended from time to time, but will be not more than twentyone (21thirty (30) consecutive calendar days before the meeting of the Commission at which such preliminary plat is to be considered. A preliminary plat application filed prior to the 21st day preceding the next succeeding regular meeting may be considered as having been filed on the 21st day preceding the meeting. A preliminary plat application filed within fifteen (15) days of the next succeeding regular meeting shall be considered as having been filed on the 21st day preceding the second succeeding regular meeting. No preliminary plat application will be accepted on a day outside of the submission schedule.

Sec. 10.03.004 Final plat filing and time for action

- (a) (a) Upon approval of the preliminary plat and the application for such approval, the owner, developer or sub-divider may then proceed with the filing and submission of a final plat and application for approval thereof for all or a portion of the land or area included in the preliminary plat. No final plat application will be accepted for filing, and no final plat may be approved by the Town Council, unless a preliminary plat has first been approved. The application and plat shall be filed with the Town Secretary at least fifteen (15)in accordance with the submission schedule, which may be amended from time to time, but will be not more than twenty one (21thirty (30) consecutive calendar days before the meeting of the Commission at which such plat is to be considered. After the Planning and Zoning Commission has reviewed the final plat, the Commission shall act on the plat within thirty (30) days from the submission date suchrecommend to Town Council either the:
 - (1) Approval of the plat is filed oras presented;
 - (2) Approval of the plat with conditions that reference the specific ordinance provisions not met; or
 - (3) Disapproval of the plat with reasons for denial that reference the specific ordinance provisions not met.

If no action is taken on the plat within 30 days from the submission date, the plat will be considered as approved if the commission fails to disapprove the plat within thirty (30) days after the date that such plat is filed.

(a)(b) The Town Council shall act on the final plat within thirty (30) days after the plat is approved by the Commission or is considered approved by the inaction of the Commission. The Town Council shall, within thirty (30) days following submission by the Commission, consider the final plat for acceptance of the dedications to the public therein set forth, provided the plat shall in all things fully comply with the terms and provisions of this Chapter and the ordinances of the Town.

(Ordinance 2003-0402-05 adopted 5/12/03; Ordinance adopting Code)

(c) Final plat submissions which include drainage studies, downstream assessments, or detention pond construction shall require ten (10) business days for each review, including all necessary subsequent reviews.

Sec. 10.03.005 Construction after final plat is approved

- (a) (a) —The sub-dividersubdivider or applicant after approval of the final plat shall:
 - (1) (1)—Direct it's engineer to design, stake, and supervise the construction of the facilities in accordance with approved plans and specifications and these regulations;
 - (2) (2) —Direct its contractors to construct all improvements as identified in the approved engineering plans;
 - (3) (3) —Provide to the Town, prior to final acceptance of the improvements, a twoyear maintenance bond in the amount of ten percent (10%) of the contract price or \$50,000, whichever is greater, not to exceed 100% of the total contract for any public improvement, if applicable; and,

(Ordinance 2003-0402-05 adopted 5/12/03)

- (4) (4) Provide to the Town, prior to final acceptance of the improvements-three 24"x36, one (1) 22" x 34" black line sets, threeset, one (1) 11"x17" black line setsset, and one (1) electronic set of "as-built" plans, checked and corrected by the subdivider's engineer. (Ordinance 2019 0819 02, sec. 2, adopted 8/19/19)
- (b) (b) After completion of all improvements, franchise utilities, grading, and erosion control measures, the Town or its designated representatives will perform a final inspection before causing the project to be considered for acceptance by the Town. After the Town accepts the improvements, the Town will issue a "letter of final acceptance". The subdivider shall submit this letter to the building official prior to the issuance of a certificate of occupancy for non-residential <u>subdivisions</u> or release of building permits for residential subdivisions. The <u>subdivider or applicant mayTown</u> will then file the final plat with the County. No final plat shallFinal plats may be filed withprior to the county unless and until all requirementscompletion of construction at the subdivision neglations have been complied with and until such approval discretion of conditions have been met. the Town. If final plat is approved to be filed prior to final acceptance of constructed improvements, a Performance Bond in the amount of 100% of the contract amount shall be provided to the Town prior to filing.
- (c) (c) —All improvements within a subdivision shall be installed or constructed at the subdivider's cost and expense.

Sec. 10.03.006 Minor residential plats with four or less lots

Minor residential plats with four or less lots will follow the same procedure as all other plats, except as provided in <u>article 10.03</u> of this chapter.

(Ordinance 2003-0402-05 adopted 5/12/03)

All applicants seeking approval of a Minor Plat shall comply with the requirements of this section. Every Minor Plat shall require approval of the Mayor or the Mayor's designated agent. The Mayor, in his discretion, may forward any Minor Plat to the Planning and Zoning Commission and Town Council for review and approval in lieu of granting approval.

(a) Minor Plat Prerequisites:

- (1) The proposed division results in four (4) or fewer lots;
- (2) All lots in the proposed subdivision front onto an existing public street and construction of extension of a street or alley is not required to meet requirements of this Ordinance, or any other ordinance; and,
- (3) The plat does not require the extension of any municipal facilities to serve any lot within the subdivision, however, right-of-way widening, and easements shall be permitted as part of a Minor Plat.
- (4) The replatting of existing platted lots much comply with all requirements for a Final plat as outlined in these documents.

(b) Minor Plat Documents Required:

(1) Minor Plat Application

(2) Minor Plat Drawings

(3) Preliminary Drainage Analysis

- (4) Tax and Liens Paid Certificates
- (c) Minor Plat Application: The applicant shall submit a written Minor Plat Application to the Town Secretary in accordance with requirements for Preliminary plat submissions.
- (d) Minor Plat Drawings shall include all information required for a Final plat.
- (e) Preliminary Drainage Analysis The Town Engineer will review each request for a Minor Plat and determine whether the applicant shall be required to submit a Drainage Study or Downstream Assessment. When required, the drainage study or downstream assessment shall conform to the requirements of the Checklist and specifications contained in this document. The applicant may be exempt from this requirement when the Town Engineer is satisfied that no drainage facilities are necessary.
- (f) A pre-development meeting is required prior to the submission of any Minor Plat.
- (g) Every Minor Plat shall be reviewed for conformity with the Comprehensive Plan, these regulations, and any other applicable ordinance according to the procedures established for Final plats. The Mayor or designee is authorized to approve or approve with conditions a Minor Plat provided such Plat meets all requirements of these regulations. If the Mayor declines to approve the proposed plat, the Minor Plat shall be placed on the agenda for the next regular meeting of the Planning and Zoning Commission for their consideration and forwarding to Town Council.

ARTICLE 10.04 PRELIMINARY PLAT

Sec. 10.04.001 General requirements

(a) (a) A written application for the approval of the preliminary plat, together with not less than six (6two (2) prints (additional copies will be supplied if requested by the

ehairpersonand a digital copy of the planning and zoning commission), complete submittal package shall be filed with the Town Secretary at least fifteen (15)in accordance with the submission schedule, which may be amended from time to time, but will be not more than twenty one (21thirty (30) consecutive calendar days before the next available meeting of the planning and zoning commissionCommission at which such preliminary plat is to be considered. For the purposes of this section, a preliminary plat will be deemed to be filed when all administrative procedures have been completed and notice is posted of the hearing date when the Planning and Zoning Commission will consider the preliminary plat. A plat application which is not accompanied by the prescribed filing fees will not be considered as having been filed. (Ordinance 2003-0402-05 adopted 5/12/03; Ordinance adopting Code)

(b) (b) In order to enable the town to provide notice to nearby property owners of the consideration of a subdivision plat, applicants shall identify all owners of property, or the persons rendering the same for county taxes, of property located within two hundred feet (200') of any property affected thereby, within not less than fourteen (14) days before filing the preliminary plat and application for approval thereof, and shall submit the list of property owners, with number ten envelopes stamped and addressed to each, to the town. The town shall provide notice of its review of the application. Such notice may be served by using the last known address as listed on the most recent county's ad valorem tax roll and shall be deemed complete when deposited, postage prepaid, in the United States mail.<u>All information contained in the Checklist for Preliminary Plats shall be provided, including but not limited to the items identified in Sections 10.04.002, 10.04.003 and 10.04.004.</u>

Sec. 10.04.002 Existing features

The preliminary plat shall be drawn to scale of one hundred feet to the inch (1"-100'). The information to be included and the procedures for submittals are as follows:

- (a) (1)—Subdivision boundary lines indicated by heavy lines, and the computed acreage of the subdivision shall be noted. (The subdivision boundary shall be construed to include the part of adjacent boundary streets, which were previously established by dedication or purchase from the tract being subdivided).
- (b) (2) The widths and names of all existing or platted streets or other public rights-ofway or easements within or adjacent to the tract, shall be located together with any existing permanent buildings, railroads, and other important features, such as abstract lines, political subdivision or corporate lines, and school district boundaries.
- (c) (3) Existing sewer mains, water mains, drainage culverts, channels, ponds, inlets, storm drains, or other underground structures within the tract and within two hundred feet (200') with pipe sizes and grades:
- (d) (4) Contours at intervals of tentwo feet (10'2') or less with reference to mean sea level datum;
- (e) (5) The names of adjacent subdivisions and/or the names of record owners of adjoining parcels of unsubdivided land. (If there is no adjacent subdivision, a map on a small scale shall be included with the preliminary plat, and oriented to show the nearest subdivision in each direction, together with a plan of how the streets, alleys, or

highways in the subdivision submitted may connect with those in any subdivision within 2,000 feet of the proposed subdivision).

- (f) (6) Permanent structures and uses within the subdivision including location of any houses, barns, wells, tanks, and other significant features.
- (g) (7)—The exact location, dimension, description, and flow line of existing drainage structures and the location flow line and floodplain of existing watercourses within the subdivision. The 100-year flood line source information will be referenced.
- (h) (8) Utilities on the tract with notations of line sizes, including the identification of transmission lines; and.
- (i) (9)—Any other conditions adjacent to the tract affecting the design of the subdivision including such information as may be available from field observation, aerial photographs and available maps.

Sec. 10.04.003 New features

The preliminary plat shall, in addition to the requirements set forth in Section 10.04.002, shall include the following information and shall be subject to the following procedures:

- (a) (1)—The proposed name of the subdivision.
- (b) (2)—North point, scale, dates, and approximate acreage of the proposed subdivision.
- (c) (3)—The names and addresses of the subdivider and of the engineer, surveyor, or planner.
- (d) (4)—The tract designation and other description according to the real estate records of the Town, County, or central appraisal district as well as the designation of the proposed uses of land within the subdivision.
- (e) (5)—All parcels of land and areas intended to be dedicated for public use or reserved in the deeds for the use of all property owners in the proposed subdivision, together with the purpose of conditions or limitations of such reservations.
- (f) (6) Right-of-way dedications in accordance with the Town's Comprehensive Plan for future roadway widenings, including streets adjacent to the subject tract.
- (f)(g) The layout, names, and width of proposed streets, alleys, and easements.
- (g)(h) (7)—The layout, numbers, setback lines, and dimensions of proposed lots, blocks, parks, etc.
- (h)(i) (8) A legal description of the property to be subdivided, and metes and bounds description of the subdivision's perimeter.
- (i)(j) (9) The primary control points of description and ties to such control points to which all dimensions, angles, bearings, block numbers and similar data shall be referred.
- (j)(k) (10) The locations of Town limit lines, and the extraterritorial jurisdiction and zoning district boundaries if they traverse the subdivision, form part of the boundary of the subdivision, or are contiguous to such boundary.
- (k)(1) (11)—Any proposed changes in topography shown by contour lines on a basis of two feet (2') vertical in terrain with a slope of two (2) percent or more, and on a basis of two (2') feet vertical interval in terrain with a slope of less than five percent (5%) (public agency source of datum shall be specific on the plan).
- (1)(m) (12)—A number or letter to identify each lot or site and each block.

(m)(n) (13) Data specifying the gross area of the subdivision, the proposed number of lots and area thereof, and the approximate area in any nonresidential use.

(n)(o) (14) Proposed zoning and boundaries of new zoning districts.

- (o)(p) (15)—Front building setback lines on all lots and tracts together with side yard building setback lines at street intersections and crosswalks.
- (p)(q) (16) A copy of all existing protective covenants regulating the use of the land or the construction of improvements shall be submitted with the preliminary plat.

(Ordinance 2003-0402-05 adopted 5/12/03)

- (q)(r) (17) A layout and plan indicating compliance with and understanding of the Town's tree preservation ordinance, codified in Chapter 3, Article 3.08 of this code. (Ordinance 2006-0814-03 adopted 8/14/06)
- (s) A preliminary drainage study and/or downstream assessment shall be required to be submitted when required by the Town Engineer. Requirements for the study shall be per this document and the Checklist. The preliminary drainage study and/or downstream assessment must be approved by the Town Engineer prior to approval of the Preliminary plat.

Sec. 10.04.004 Additional Items Required

- (a) Road <u>and drainage</u> maintenance plan. A plan for the perpetual maintenance of roads and all drainage facilities, including but not limited to conduit, culverts, headwalls, rip rap, detention ponds, outlet structures, swales, earthen channels, and any and all other drainage facilities necessary to maintain proper drainage for the improvements associated with the proposed subdivision shall be included on the preliminary plat.
- (b) Sec.-10.04.005 Utilities. A plan of the proposed water and sanitary sewer mains and proposed drainage facilities, including drainage areas, location of lines, inlets, culverts, bridges, and calculated run-off and points of concentration shall be submitted with the preliminary plat.
- (c) Sec. 10.04.006 Location map. A location map of the proposed subdivision drawn on a scale of one inch to one thousand feet (1"=1000') showing existing and proposed streets and thoroughfares covering an area at least one (1) mile outside the proposed location shall be submitted with the preliminary plat.
- (d) Sec. 10.04.007 Cross sections. Typical cross-sections of proposed streets showing the width of pavement, type of pavement, and location and width of sidewalks shall be submitted with the preliminary plat.
- (e) Sec. 10.04.008 Approval block. The following notice shall be placed on the face of each preliminary plat by the subdivider:
 "Preliminary Plat for Review Purposes Only"
 The following certificates shall be placed on the preliminary plat by the subdivider:
 Recommended for Approval

Chairperson, Planning and Zoning Commission Date Town of Cross Roads, Texas

Approved For Preparation of Final Plat

Mayor, Town of Cross Roads

Date

Sec. 10.04.009005 Approval

- (a) (a) The approval of the preliminary plat by the Town Council shall be effective for a period of one hundred eighty (180) days after the approval date, unless reviewed by the Town Council in light of new information which would necessitate the revision of the preliminary plat, such revision being subject to the same procedures as the original preliminary plat. If a final plat for the subdivision, or portion thereof, has not been submitted prior to the expiration of one hundred eighty (180) days after approval, then the preliminary plat is null and void unless the subdivider has, in writing, requested and received an extension of time to prepare and file a final plat. Any extensions of approval granted to a preliminary plat shall be in increments of one hundred eighty (180) days.
- (b) (b) If the final plat is to be submitted or completed in phases, a schedule of submissions may be filed for acceptance by the Town Council with the preliminary plat. If the Town Council accepts the schedule, then the preliminary plat will remain in effect as long as each phase of final plat submission is filed by the scheduled date. In the event that any phase is not submitted by the scheduled date, then the preliminary plat shall be null and void in its entirety unless the subdivider has, in writing, requested and received an extension of time to prepare and submit a final plat. An extension of one phase of submissions shall not automatically extend the schedule for the remaining phases. The Town Council is not obligated to accept the phased submission of final plats or grant extensions and the extension of one phase shall not obligate the Town Council to grant an extension for any other phase. Any extension granted will extend the scheduled submission date of that phase by an increment of one hundred eighty (180) days.

Sec. 10.04.01006 Disapproval

If the proposed plan of subdivision as shown by said preliminary plat is disapproved by the Commission, the application shall be returned to the owner within fifteen (15) days after disapproval. Such disapproval shall be final. The owner or developer may appeal directly to the Town Council within thirty (30) days from the date of the disapproval and the Town Council shall then consider the preliminary plat and the Commission's reasons for disapproval. However, in no event shall the failure of the Council to consider and act on the preliminary plat within thirty (30) days of the Commission's disapproval be construed to constitute an approval of the preliminary plat. If the Council determines that the preliminary plat should be approved, then it shall approve same in accordance with the provisions of this Chapter.

ARTICLE 10.05 FINAL PLAT

Sec. 10.05.001 General requirements

- (a) After approval of the preliminary plat by the Commission and Town Council, a final plat prepared by a registered public surveyor bearing his seal shall be submitted to the Commission.
- (b) (b) Six (6) direct prints The Final plat and accompanying data shall substantially conform to the Preliminary plat as approved by the Planning and Zoning Commission and Town Council, incorporating any and all conditions, changes, modifications, alterations, corrections and stipulations imposed by the Planning and Zoning Commission and Town Council. Any submittals of a Final plat which contains only part or portions of the area as shown on the Preliminary plat are considered phases and must be consistent with the Preliminary plat, as approved, in design and layout. Additional review time may be required where a Final plat does not constitute a full phase as shown on the Preliminary plat.
- (b)(c) A written application for the approval of the final plat, together with not less than two (2) prints and a digital copy of the complete submittal package with all accompanying documents, including the drainage models, if required, shall be filed with the Town Secretary at least fifteen (15) in accordance with the submission schedule, which may be amended from time to time, but will be not more than thirty (30) consecutive calendar days prior tobefore the meeting of the planning and zoning commission at which action is requested. The planning and zoning commission and the town council shall act on the final plat within thirty (30) days from the date Commission at which such plat was filed with each body for their approval. The town will consider no plat to be filed, and no plat or application for approval thereof will be deemed is to have been filed, untilbe considered. A plat application which is not accompanied by the prescribed filing and application fees havewill not be considered as having been paid-filed, The final plat may constitute all or only a portion of the approved preliminary plat, but any portion thereof shall conform to all of the requirements of this Chapter. If final plats are submitted for approval for a portion or section of the proposed subdivision, each portion or section shall carry the name of the entire subdivision but shall bear a distinguishing letter, number, or subtitle. Block letters shall run consecutively throughout the entire subdivision, even though such subdivision might be finally approved in sections.
- (c)(d)(c) For the purposes of this section, a final plat will be deemed to be filed when all administrative procedures have been completed and notice is posted of the hearing date when the Planning and Zoning Commission will consider the final plat.

(d) The commission will either recommend approval or disapproval of the final plat and forward its recommendation to the town council. Any action taken by the town council shall be final, regardless of the previous action by the commission.

(d)(e) The final plat shall be drawn on sheets measuring twenty-four inches (24") by thirty-six inches (36") and shall be drawn to a scale of one hundred feet to the inch (1"-100'). A summary sheet/key is required when the project exceeds the required sheet size.

- (e)(f) (f) Six (6) direct prints (additional copies will be supplied if requested by the chairperson of the planning and zoning commission), Two (2) direct prints, and one (1) set of plans and specifications for water, sanitary sewer, paving, and drainage improvements, for use by the building official, prepared by a registered professional civil engineer, shall be approved and retained by the Town prior to any construction in the subdivision.
- (g) (g) All information contained in the Checklist for Final plats shall be provided, including but not limited to the following:

The approval of construction drawings and the final plat by the Town Council shall expire after a period of one (1) year from the approval date, unless substantial construction has been completed, or the subdivider has requested in writing and received an extension of time. Any extensions of approval granted to a final plat shall be in increments of one hundred eighty (180) days. Construction drawings which have expired shall be resubmitted to the Town for approval before any construction is begun. The design of the proposed improvements shall be based on the construction requirements, which are in effect at the time of re-submittal.

Sec. 10.05.002 Final plat contents

(a) The final plat shall contain or have attached the following information and exact layout:

- (a) (1)—The boundary lines with accurate distances and bearings, a metes and bounds description of the boundary (error of closure shall not exceed one (1) in ten (10) thousand for adjusted boundary and one (1) in fifty (50) thousand for the plat boundary), exact acreage to hundredths, and exact location and width of all existing or recorded streets intersecting the boundary of the tract. One (1) copy of the traverse closure shall be enclosed.;
- (b) (2)—True bearings and distance to the nearest established street lines, official monuments, or subdivision corner, which shall be accurately described on the plat. Municipal, townshiptown, county, or abstract lines shall be accurately tied to the lines of the subdivision by distance and bearings-;
- (c) (3)—An accurate location of the subdivision in reference to the deed records of the County which shall include the volume and page of the deed of the property to be subdivided.

(Ordinance 2003-0402-05 adopted 5/12/03)

(4) The exact layout including:

- (d) (A)—Street and/or alley names;
- (e) (B) Access points for each lot to a dedicated street or public right-of-way. Where lots abut a state highway or roadway, prior to final plat approval, the plat shall be submitted for review to the Texas Department of Transportation for conformance with its Access Management Plan;
- (f) (C)—The length of all arcs, radii, internal angles, and points of curvature, length and bearings of the tangents. <u>All horizontal alignments shall be in accordance with</u> the Checklist and AASHTO guidelines whichever is more stringent shall apply;
- (g) (D)—All easements for public services and utilities and any limitation of the easements; and

(h) (E)—All lot and block numbers and lines, with accurate dimensions in feet and hundredths and with bearing and angles to street and alley lines to the nearest second-;

(Ordinance 2005-1114-02 adopted 12/12/05)

- (i) (5) The accurate location, material and approximate size of all monuments and the accurate location, material and size of all sight barrier fences where required to separate commercial and industrial from residential areas.
- (j) (6) The accurate outline description of all property which is offered for dedication for public use such as parks, etc., with the purpose indicated thereon, and all property that may be reserved by deed covenant for the common use of the property owners in the subdivision-;
- (k) (7)—Building setback lines-:
- (l) (8)—Private restrictions-<u>;</u>
- (m) (9)—The name of the proposed subdivision-:
- (n) (10)—The name and address of the subdivider-:
- (o) (11)—North point, scales, and dates.
- (p) (12)—A location map of the proposed subdivision on a scale of one inch to one thousand feet (1"-1000') showing existing and proposed streets and thoroughfares covering an area at least one (1) mile outside the proposed subdivision-;
- (q) (13) Construction plans and profiles shall be drawn on sheets measuring twentytwo inches (22") by thirty-four inches (24") by thirty six inches (36"),34") for fullsize prints, shall be the same size as the final plat, and shall include all applicable information provided on the Checklist, including but not limited to, the following information:
 - (1) (A) —A plan and profile of each street with top of curb grades shown. Each sheet shall include north point, scale, date, and benchmark description to sea level datum. Unless otherwise approved by the Town, scales shall be one-inch equals forty feet (1"= 40) horizontally and one inch equals five feet or sixfour feet (1"=5' or 6'4') vertically. when printed at half-size (11"x17"). Each plan shall show the seal and signature of the registered professional civil engineer that prepared the plans.
 - (2) (B)—The cross section of proposed streets showing the width of roadways, <u>location of the proposed grade line, utility typical locations, type of pavement</u> and location and width of sidewalks.
 - (3) (C) A plan and profile of proposed sanitary sewers, if required, with grades and pipe sizes indicated and showing locations of manholes, clean out, etc., and plan of the proposed water distribution system showing pipe sizes and location of valves, fire hydrants, fittings, etc., in conformance with the applicable criteria presented in "improvements." Unless otherwise approved by the Town, scales shall be one-inch equals forty feet (1"= 40) horizontally and one inch equals five feet or sixfour feet (1"=5' or 6'4') vertically- when printed at half-size (11"x17"). Each plan shall show the seal and signature of the registered professional civil engineer that prepared the plans. Each sheet shall include

north point, scale, date, and benchmark description on the mean sea level datum.

- (4) (D) A plan and profile of proposed storm sewers, if required, showing hydraulic data and gradients, pipe grades and sizes, manholes, inlets, pipe connections, outlet structures, etc., in conformance with the applicable criteria as shown in "improvements."
- (5) (E)—Unless otherwise approved by the Town, scales shall be one_inch equals forty feet (1"=40') horizontally and one inch equals fivefour feet (1"=5'4') vertically- when printed at half-size (11"x17"). Each shall show the seal and signature of the registered professional civil engineer that prepared the plans. Each street shall include north point, scale, date, and benchmark description on the mean sea level datum;
- (r) (14)—Identification of each lot or site and block by number and letter.
- (s) (15)—Exact acreage of each lot or site-:
- (t) (16) Exact location of each fire hydrant, showing the required distance, for that zone, between the hydrants-:
- (u) (17) <u>All final plat applications shall include an approved final drainage plan and</u> study in accordance to Section 10.07.006;
- (v) FEMA floodplain and floodway with panel number, zone and effective date;
- (w) Fully developed 100-yr floodplain delineated and floodplain easement provided;
- (x) Minimum finished floor elevations 2' above fully developed 100-yr water surface elevation for lots affected by or adjacent to floodplain, open channels, ponds or overflow structures or flumes;
- (u)(y) Reference to recorded subdivision plats of adjoining platted land by record name, county recorder's book and page numbers, and the names of owners of adjoining unsubdivided land together with deed references.

(v)(z) (18) <u>Restriction to occupancy</u>.

- (1) (A)—If the subdivision is not to be immediately served by a sewage collection system and a treatment plant installed by the developer (where required by zone) or an approved septic system, then a restriction prohibiting occupancy of any lot until such systems have been installed, inspected and approved by the health officer having jurisdiction shall be required.
- (2) (B) Unless and until a final plat is approved in accordance herewith, it shall be unlawful for any official of the Town to serve or connect the owners with any public utilities.
- (3) (C) Any special restrictions required by the Commission for the protection of public health or safety or to insure substantial enjoyment of property rights of present and prospective owners of property within or adjoining the subdivision-;
- (w)(aa) (19) The final plat shall be accompanied by one set of surveyor's closure notes for the boundary of the subdivision and each block thereof. The notes shall be referenced in the same manner as the plat. They shall be submitted in the form prescribed by and for the approval of the Commission and when approved, the notes shall be recorded as public documents in the records of the Town and the County-;

(x)(bb) (20) Certification of title and certificate of dedication or, in lieu thereof, a dedication deed, signed and acknowledged in the same manner prescribed by law for

conveyances of real property by the owner and all others having an interest in the property being subdivided and platted, certifying the identity of all owners and persons having any interest in the property, including lienholders, and dedicating the streets, alleys, easements, parks and other spaces to public use, or when the subdivider has made provision acceptable to the Town Council for perpetual maintenance thereof, to the inhabitants of the subdivision- $\frac{1}{2}$

(y)(cc) (21) Certification by a licensed land surveyor, registered in the State of Texas, to the effect that the plan represents a survey made by him or under his direct supervision and that all monuments shown thereon actually exist, and that their location, size, and materials are correctly shown;

(z)(dd) (22) The following certificate on the plat, in a manner that will allow the filling in of the certificate by the proper parties.

Recommended for Approval

____Chairperson, Planning and Zoning Commission Date

Approved for Construction

_ Mayor, Town of Cross Roads Date

The undersigned, the Town Secretary, of the Town of Cross Roads, Texas, hereby certifies that the foregoing final plat of Subdivision or Addition to the Town the of Cross Roads was submitted to the Town Council on the day , 20 , and the Council, by formal action, then and of there accepted the dedication of streets, alleys, parks, easements, public parks, and water and sewer lines, as shown and set forth in and upon said plat, and said Council further authorizes the Mayor to note the acceptance thereof for construction by signing his/her name as herein above subscribed.

 of______
 AD, 20_____,

Town Secretary

<u>Sec. 10.05.003 Approval</u>

The approval of construction drawings and the final plat by the Town Council shall expire after a period of one (1) year from the approval date, unless substantial construction has been completed, or the subdivider has requested in writing and received an extension of time. Any extensions of approval granted to a final plat shall be in increments of one hundred eighty (180) days. Construction drawings which have expired shall be resubmitted to the Town for approval before any construction is begun. The design of the proposed improvements shall be based on the construction requirements, which are in effect at the time of re-submittal.

Sec. (b) 10.05.004 Filing of Final Plat

Once the final plat has been approved by the Town in accordance with the requirements of this Chapter, the sub-divider shall provide the Town with a sufficient number and size of documents as required by the County Clerk, along with certified tax statements and the Town shall file the final plat with the County Clerk-after. If the plat is filed prior to the acceptance of the constructed improvements by the Town, the developer shall provide to the Town a Performance Bond in the amount of 100% of the construction has been costs until such time that construction is complete and accepted by the town. One (1) copy of the recorded final plat shall be returned to and filed with retained by the Town Secretary offor the town. Town's records.

ARTICLE 10.06 ADDITIONAL REQUIREMENTS FOR CERTAIN REPLATS

Sec. 10.06.001 Replats without vacating previous plats

- (a) (a) In addition to compliance with the provisions of this Chapter, a replat without vacating the previous plat shall comply with the provisions of this article if.
 - (1) (1)—During the preceding five (5) years, any of the area to be replatted was limited by an interim or permanent zoning classification to residential use for not more than two (2) residential units per lot, or
 - (2) (2) Any lot in the preceding plat was limited by deed restrictions to residential use for not more than two (2) residential units per lot.
- (b) (b) —Notice of a public hearing shall be given before the fifteenth (15th) day before the date of the hearing by:
 - (1) (1)—Publication in an official newspaper or a newspaper of general circulation in the county;
 - (2) (2)—By written notice, with a copy of this article attached, forwarded by the Town to the owners of property in the original subdivision as indicated on the most recently approved county or municipal tax roll or in the case of a subdivision within the extraterritorial jurisdiction, the most recently approved county tax roll, within two hundred feet (200') of the property upon which the replat is requested. The written notice may be delivered by depositing the notice, properly addressed with postage prepaid, in a post office or postal depository within the Town.
- (c) (c) If the proposed replat is protested in accordance with this subsection, the proposed replat must receive, in order to be approved, the affirmative vote of at least three-fourths of all members of the Town Council. For a legal protest, written instruments signed by the owners of at least twenty percent (20%) of the area of the lots or land immediately adjoining the area covered by the proposed replat and extending two hundred feet (200') from that area, but within the original subdivision, must be filed with the Town Council prior to the close of the public hearing.

- (d) (d) —In computing the percentage of land area under subsection (c), the area of streets and alleys shall be included.
- (e) (e) Compliance with this article is not required for approval of a replat of part of a preceding plat if the area to be replatted was designated or reserved for other than single or duplex family residential use by notation on the last legally recorded plat or in the legally recorded restrictions applicable to the plat.

ARTICLE 10.07 DEVELOPMENTAL REQUIREMENTS

Sec. 10.07.001 Streets to conform to thoroughfare plan

The arrangement, character, extent, width, grade, and location of all proposed streets shall conform to the comprehensive plan and thoroughfare plan of the Town, to the relationship of the existing and planned streets to the topographical conditions, to the public convenience and safety, and to the appropriate relation to the proposed uses of the land to be served by such streets. <u>Right-of-way for adjacent streets shall be dedicated to account for future widening in accordance with the comprehensive plan and thoroughfare plan of the Town except as otherwise provided for in State law.</u>

Sec. 10.07.002 Abutting streets and drainage

When a proposed subdivision of land abuts both sides of an existing road, street, or highway, or drainage easement that is substandard according to the current specifications of this Chapter, the developer shall be required to improve the existing road and drainage to current standards or to replace it with a standard road at the developer's expense. The developer shall also be required to dedicate the necessary rights-of-way for the particular roadway, which shall be not less than sixty (60) feet.

Sec. 10.07.003 Adjacent streets

- (a) When the proposed subdivision is located adjacent to a substandard road or street, the developer shall:
 - (1) (1) Be required to construct the developer's one half (1/2) share of said improvements as a condition for the approval of the final $plat_{\frac{1}{2}}$ and
 - (2) (2)—Be required to dedicate the necessary right-of-way for one half of that particular roadway, but not less than thirty (30) feet, or; .
- (b) (3) Be required The developer may submit a request to the Town Council to pay the Town the developer's one half (1/2) shareportion of said improvements in lieu of construction of said improvements and submit a full set of engineering plans and specifications for the improvement to the rights-of-way, and shall dedicate the appropriate rights-of-way. When considering this request, the Council may take into consideration timing of construction, constructions costs, and timing of surrounding developments in making their determination.

Sec. 10.07.004 Street requirements

Where it is not shown in the comprehensive plan or thoroughfare plan of the Town, the arrangements of streets in a subdivision shall:

- (a) (1)—Provide for the continuation or appropriate projection of existing streets in surrounding areas;
- (b) (2) Conform to a plan for the neighborhood approved or adopted by the Town to meet a particular situation where topographical or other conditions make continuation of or conformance to an existing street impracticable; and
- (c) (3)—Be aligned so that they will intersect, as nearly as possible, at right angles.
- (d) (4)—Residential streets shall be laid out so that their use by through traffic is discouraged.
- (e) (5)—Street jogs with centerline offsets of less than one hundred twenty-five feet (125) shall be avoided.
- (f) (6)—Street right-of-way widths shall conform to the following:

TYPE OF STREET	MINIMUM RIGHT- OF- WAY WIDTHS
Major Thoroughfare	125'
Collector	90'
Residential	60'

- (g) (7)—Utility easements shall be at least ten (10) feet wide on each side of the road, shall not lie within the street right-of-way, and no primary utilities will be located within the street right-of-way.
- (h) (8)—Half streets shall be prohibited.
- (i) (9) Cul-de-sacs shall not exceed eight hundred feet (800') from the nearest intersecting street, and there shall be provided at the closed end a turnaround having an outside roadway diameter of at least eighty feet (80') and a street right of way diameter of at least one hundred feet (100').
- (j) (10) All streets shall be paved, and the paving shall conform to "improvements" of these regulations.
- (k) (11) Street grades shall be established regarding topography, proposed land-use and the facilities in the area surrounding the land to be subdivided. An absolute minimum grade of three five tenths (0.3050%) will be allowed on concrete streets; however, where it is possible, a grade of five eight-tenths percent (0.5080%) shall be used.
- (1) (12) Street markersPavement markings shall be installed in accordance with the prescribed type currently in useTxDOT specifications, TxDOT standard details, and manufacturer's recommendations unless otherwise directed by the Town, or a substitute approved by the mayor or director of public works. Street markers. Pavement markings and the erection thereof will be at the expense of the subdivider.
- (m)(13) —Residential lots shall not face major thoroughfares. Driveways or alley pavement cuts shall not be permitted on major thoroughfares. Alleys may be provided along sidealongside and/or rear lot lines on major thoroughfares for rear entrance.
- (n) (14) The town shall employ a registered professional engineer and/or a qualified laboratory testing agency to act as quality control agent for each project. Such engineer

or agent shall make tests necessary to insure that construction will be in accordance with the approved plans and specifications. The duties of such person willAll testing in accordance with NCTCOG and Town requirements shall be conducted by a State approved testing lab approved by the Town at the developer's expense. The State approved lab tests shall include, but will not be limited to, inspection, testing compaction, moisture content, and lime application rate of the subgrade, inspection and testing plasticity index (pi) and lime application rate of the foundation course, and testing application rates, thickness, density, and inspection of the installation of the roadway surface coursed.course. The Town shall employ a registered professional engineer and/or qualified inspectors to independently act as quality control agents for each project. The Town and developer will receive reports of all items and those not in compliance with the specifications shall have recommendations for corrective action. The Town will have full authority to insureensure that the corrective action required will be made. The developer will bear the cost of the quality control agent(s), and the required testing, and any required retesting. To insureensure prompt payment for these services, the Town shall establish an account for this purpose at the time of final plat approval, and the developer shall maintain a minimum account balance as determined by the Town Council. Samples and testing results shall be furnished simultaneously directly to the quality control agent, Town and the developer. Material testing shall meet the current county standard specifications for roads and bridges construction.

- (o) (15) When the developer completes the construction of improvements in the development and has satisfactorily completed all necessary quality control tests and reports, and the final cleanup is performed, the developer will notify the Town for a "final reviewinspection". Such reviewfinal inspection will be made within ten (10) business days after notification. After the final reviewinspection, if the work is found to be satisfactory, the developer will be notified in writing of acceptance. If not satisfactory, the developer will be notified in writing of the corrective action required for approval.
- (p) (16) Where<u>No</u> concrete or asphalt pavement is required, shall be placed without the final acceptance will not relieve the developer from the responsibility for the<u>Town's</u> quality control agent present to inspect material, thickness-of the, rebar, and adherence to required testing and placement methods. Any concrete or asphalt which will be determined by means of taking cores from pavement. The placed outside the presence of the Town's quality control agent may be subject to removal or additional testing requirements including but not limited to coring of the pavement will be done within thirty (30) days from the completion of the pavement. The developer will bear the expense of having the pavement cored and repaired. Section at the discretion of the Town.
- (q) (17) All road maintenance, repair and upkeep in subdivisions will be the absolute and sole responsibility of the developer and/or home owners association unless or until the town adopts an ad valorem property tax and assumes the responsibility for maintenance of subdivision roads by action of the town council.homeowners association. Subdivision covenants and deed restrictions shall contain clear and express provisions that require the formation and continuation of a home owner'shomeowner's association.

and shall impose upon such association the obligation for such street repair, maintenance and upkeep. The subdivision covenants and deed restrictions shall be filed with the <u>preliminaryfinal</u> plat as a condition of plat approval.

Sec. 10.07.005 Alleys

- (a) (a) —Alleys may be required in commercial and industrial districts and shall be paved with reinforced concrete, except that. The Town may waive this requirement where other definite and assured provisions are made for service access, such as off-street loading, unloading, and parking consistent with and adequate for the uses provided.
- (b) (b) —Alleys may be required in residential districts and shall be paved in concrete and shall be constructed in accordance with the requirements of this Chapter.
- (c) (c) The minimum right-of-way width of an alley shall be twenty (20) feet (20) in industrial and commercial areas and fifteen (15) feet (15) in residential areas. The alley turnouts shall be paved to the property line and shall be at least two (2) feet (2) wider than the alley paving. The radii of the turnouts for the alleys intersecting thoroughfares shall be sixteen (16) feet (16) and shall be ten (10) feet (10) at intersections with all other streets. Concrete for all alleys shall be 7-inch thick with minimum #4 bars at 24-inch on centers each way with a compressive strength of 4,000 psi when tested at 28 days.
- (d) (d) —Alley intersections and sudden changes in alignment shall be avoided, but, when necessary, lot corners shall be cut off at least fifteen (15) feet-(15) on each tangent to permit safe vehicular movement. Site visibility triangles shall be calculated and shown on the plan per AASHTO criteria. No fences, signage, or landscape that interferes with site visibility shall be permitted to be installed within the site visibility triangle.
- (e) (e) —Dead-end alleys shall be avoided where possible, but if unavoidable, they shall be provided with adequate turn-around facilities, as determined by the Town.
- (f) (f) —Where driveways connect to alleys in commercial, industrial, or residential areas, fences may be constructed along the rear lot line of any line of any lot to a point within five feet (5) of a point where the driveway would intersect the alley pavement at ninety degrees (90').

Sec. 10.07.006 Drainage

- (a) (a) Every drainage improvement intended to convey water from or along a road shall be designed and constructed to required specifications as delineated in the current County Subdivision Rules and Regulations, section VIII, Engineering plans, as may be amended. References to centralized road and bridge shall, for the purposes of the Town, mean either the Town Engineer or quality control agent as determined by the planning and zoning commission. Town Council. Additional requirements provided in the Checklist for drainage analysis and improvement shall also apply.
- (b) (b) In all cases, perimeter drainage engineering plans for the subdivision or total development (project) shall be required with the preliminary plat. Where a subdivision will have interior roads or ingress/egress easements, the developer will be responsible for perimeter drainage improvements to the existing and adjacent Town roads.
- (c) (c) —Complete engineering plans for storm drainage facilities shall be prepared, signed

and sealed by an Engineer.

- (d) (d) —All drainage plans shall contain adequate provisions for drainage and shall provide no greater risk, hazard, or damage potential, in speed or volume, from rainfall and stormwater runoff than existing prior to development.
- (e) (e) An erosion and sedimentation control plan may be required by the Commission and/or the Town Council to provide for adequate protection from erosion and sedimentation nuisances that may occur as a result of the construction of the development or subdivision.
- (f) All drainage facility repair and upkeep in subdivisions will be the absolute and sole responsibility of the developer and/or homeowners association unless or until the Town adopts an ad valorem property tax and assumes the responsibility for maintenance of subdivision drainage facility by action of the Town Council. Under such condition, private drainage facilities including but not limited to, detention ponds, earthen channels, natural creeks, etc. shall remain the responsibility of the developer and/or homeowners association. Subdivision covenants and deed restrictions shall contain clear and express provisions that require the formation and continuation of a homeowner's association and shall impose upon such association the obligation for such drainage facility repair, maintenance and upkeep. The subdivision covenants and deed restrictions shall be filed with the preliminary plat as a condition of plat approval.

Sec. 10.07.007 Lots

- (a) (a) —All lots shall conform to the regulations as set forth in the Town's Comprehensive Zoning Ordinance.
- (b) (b) All lots shall have a minimum width adjacent to the street of sixty (60) feet. Corner lots in residential areas shall be wider than inside lots so as to allow the required set-back from both streets. Each lot shall face onto a public street or a private drive, except in a planned unit development. Lots with street frontage at both front and rear shall be avoided, except when the lot backs onto a highway or thoroughfare. Sidelines of lots shall be approximately at right angles to straight streets and radial to curved street lines.
- (c) (c) In subdivisions where buildings are to be served by septic tanks, the size of lots shall be sufficiently large to accommodate adequate drainage fields and to meet the standards set forth by all appropriate regulatory authorities including the state department of health, the <u>stateTexas</u> Commission on Environmental Quality (TCEQ), the County and the Town.
- (d) (d)—Lots which are to be served by septic systems, and which include land within the one hundred (100) year flood plain, shall have a minimum of one (1) acre (43,560 sq. ft.) of land exclusive of the flood plain. Lots which include any part of the one hundred (100) year flood shall have the required minimum floor elevation designated on the plat.

Sec. 10.07.008 Easements

(a) (a) Easements shall be provided for restricted use on private property upon which any public utility shall have the right to remove and keep removed all or part of any

building, fences, shrubs, or other improvements or growths which in any way endanger or interfere with the construction, maintenance, or efficiency of its respective systems within its said area. Any public utility shall at all times have the right for ingress and egress to and from and upon the said easement for the purpose of constructing, reconstructing, inspecting, patrolling, maintaining, and adding to or removing all or part of its respective systems without the necessity, at any time, or procuring the permission of anyone. All utilities must notify the Town and the property owners one-week prior to the initiation of a construction or reconstruction project, which exceed five thousand dollars (\$5,000.00) in projected cost.

- (b) (b) In new subdivisions, the developer shall provide all the necessary easements and right-of-way required for drainage structures, including storm sewer and open or lined channels. Easement width for storm sewer pipe shall not be less than sixteen (16) feet, and easement width for open or lined channels shall be at least twenty (20) feet wider than the top of the channel, fifteen (15) feet of which shall be on one side to serve as an access for maintenance purposes. <u>Required easement width may be adjusted depending on geometric variables at the discretion of the Town.</u>
- (c) Floodplain easements shall be provided on sites along natural creeks to encompass the fully developed 100-year floodplain plus a ten (10) foot buffer on both sides.

Sec. 10.07.009 Blocks

(a) The lengths, widths, and shapes of blocks shall be determined with regard to the following criteria:

- (a) (1)—Zoning requirements relating to lot sizes and dimensions.
- (b) (2)—Limitation of topography.
- (c) (3) Where no restrictive covenants exist, the blocks shall not exceed one thousand two hundred feet (1,200') in length nor be less than five hundred feet (500500') in length, except in certain instances where topographical features warrant special consideration. These limits may be exceeded only upon specific approval by the Town. Blocks longer than six hundred feet (600') shall be avoided in business districts.

Sec. 10.07.010 Survey monuments and lot markers

Concrete monuments shall be placed in all corners of boundary lines in subdivision or at no more than fourteen hundred-foot $(14001,400^{\circ})$ intervals. These monuments will be installed before recording of the final plat. Intermediate property corners, curve points, and angle points of each lot in the subdivision shall be marked by iron stakes of not less than one half inch (1/2") in diameter, not less than twenty-four inches (24") in length, driven flush with the ground or counter-sunk, if necessary, in order to avoid being disturbed. No utility construction shall be allowed until permanent lot pins are in place.

ARTICLE 10.08 <u>IMPROVEMENTS</u>

Sec. 10.08.001 Design Criteria

Construction plans shall include all applicable information and adhere to all criteria noted in the Checklist. In a case where local criteria conflicts with stated NCTCOG, TxDOT, Denton County, and AASHTO criteria, the most stringent criteria shall apply.

Sec. 10.08.002 Standard specifications and construction details

(a) (a) All improvements proposed for any subdivision shall be constructed in accordance with the current "Standard Specification for Public Works Construction" published by the North Central Texas Council of Governments. No improvements will be constructed prior to acceptance and approval of the final plans.

(Ordinance 2003-0402-05 adopted 5/12/03)

- (b) (b) From and after December 8, 1997, all streets and roads constructed in nonresidential areas of the Town shall be constructed of concrete, and new residential subdivision streets and roads shall be constructed of concrete, in accordance with the standards of the Town, the requirements and specifications imposed by the Town, the standards promulgated by the North Central Texas Council of Government's "Standard Specifications for Public Works Construction," current edition, and applicable standards published by the Texas Department of Transportation. All sidewalk and pedestrian facilities shall be designed and constructed in accordance with the Texas Department of Transportations for pedestrian facilities, curb ramps, a copy of which shall be kept and maintained in the office of the Town Secretary and the Building Official. (Ordinance 2018 0618 01 adopted 6/18/18)
- (c) (c) Asphalt streets in low impact residential subdivisions (minimum lot size two (2) acres) may be considered on an individual basis.
- (d) (d) —All improvements to any existing subdivision street may be constructed of concrete or asphalt in accordance with the standards of the Town, the requirements and specifications imposed by the Town, the standards promulgated by the North Central Texas Council of Government's "Standard Specification for Public Works Construction," thirdlatest edition, and applicable standards published by the state department of transportation.
- (e) (e) —All improvements in previously approved but still unimproved subdivisions shall conform to the Town's current regulations and specifications for street, drainage, and utility construction.
- (f) (f) Before construction of any streets, drainage, or utilities in any properly platted subdivision, a contract substantially in the form of Exhibit A as maintained on file in the office of the town secretary, must be executed by the Town, the developer, and the general contractor and which must contain the following provisions.
 - (1) (1)—A summary description of the improvements to be constructed and the incorporation by reference of all specifications, plans, and plats as approved by the Mayor of the Town, or the Town Council where required;
 - (2) (2) A statement of the total consideration to be paid for the work to be performed;
 - (3) (3) A statement of the date that works to be performed will be completed;
 - (4) (4) —A statement sufficiently identifying the subdivision involved; and

(5) (5) —A section providing for the approval on the face of each contract by the Town.

Sec. 10.08.002 Record drawings (as-built plans)

- (a) (a) Within thirty (30) days of acceptance of the subdivision, the engineer for the developer shall submit to the Town a complete set of reproducible drawings of the paving, drainage, water, and sewer improvements, if any, showing all changes made in the plans during construction and containing on each sheet a "record drawing" stamp bearing the signature of the engineer and date. In addition, a reproducible drawing of the utility plan sheets, containing the record drawing information, shall be submitted to the Town-along with a complete set of cadd files in .dwg format.
- (b) (b) No final acceptance of the subdivision will be made by the Town until the foregoing requirement has been accomplished to the satisfaction of the Town. It shall be the responsibility of the developer to furnish copies of the record-drawing plans to the appropriate state agencies.

ARTICLE 10.09 FILING FEES AND CHARGES

Sec. 10.09.001 Fee structure

- (a) (a) The Town shall determine the base fees and charges for plat review. The Town Council shall adopt a fee schedule.
- (b) (b) —Fees shall be charged on all plats, regardless of action taken by the Planning and Zoning Commission and whether the plat is approved or denied by the Town Council.
- (c) (c) If the amount deposited is less than the actual cost of reviewing and processing the plat, the balance shall be collected before final consideration of the plat. An administrative fee equal to fifteen percent (15%) of the total of the application fee and processing costs as established in the fee schedule in excess of the original fee will be charged.
- (d) (d) The Town may also assess against the applicant, developer or subdivider additional costs incurred by the Town for engineering fees and legal fees associated with the review and consideration of a plat in the amount incurred by the Town. The payment of these additional fees shall be a condition of plat approval or a prerequisite to the acceptance of any improvements or the issuance of any building permits.

Sec. 10.09.002 Procedure

All fees or charges shall be paid in advance and no action of the Planning and Zoning Commission or any other board or agency shall be valid until the fee or charge has been paid to the Town.

ARTICLE 10.10 MAINTENANCE BOND

Sec. 10.10.001 Bond required

The developer shall furnish a good and sufficient maintenance bond in the amount of ten percent (10%) of the total cost or contract price of each job for the public improvements associated with each job or \$50,000 whichever is greater but not to exceed the total cost for the

project, with reputable and solvent corporate surety licensed to write insurance in the state, in favor of the Town, to indemnify the Town against any repairs which may become necessary to any part of the construction work performed in connection with the subdivision, arising from defective workmanship or materials used therein, for a full period of two (2) years from date of final acceptance of the entire project. Final acceptance shall be withheld until said maintenance bond is furnished to the Town.

ARTICLE 10.11 EXTENSION TO EXTRATERRITORIAL JURISDICTION

Sec. 10.11.001 Extension of rules to extraterritorial jurisdiction

This Chapter and all subdivision regulations and ordinances of the Town as it now exists or may hereafter be amended is hereby extended to all of the area lying within the extraterritorial jurisdiction of the Town and the rules and regulations within this Chapter governing plats and subdivision of land shall be applicable to such area within said extraterritorial jurisdiction from and after the effective date of the adoption of this Chapter regulating subdivisions.

Sec. 10.11.002 Requirement

No person shall subdivide or plat any tract of land within the E.T.J. of the Town except in conformity with the provisions of this Chapter.

ARTICLE 10.12 <u>OTHER REQUIREMENTS</u>

Sec. 10.12.001 Inspections

- (a) (a) —A letter of acceptance is required from the Town before any improvement will be considered complete.
- (b) (b) No acceptance will be given on any work covered before the official representing the Town has inspected the work.
- (c) (c) A minimum of eight hourtwenty-four hours advance notice must be given before the designated Town Official is expected at the job site. Any work or improvements covered before inspections must be uncovered.

Sec. 10.12.002 Variance in standards

Where strict compliance with the standards of design or the required improvements specified in this Chapter would cause unnecessary hardship because of topographical or other conditions peculiar to the site or adjacent area, the Commission may recommend, and the Town Council may approve, a variance. The commission shall approve All variances must be approved in writing and the reason for which the variance was granted shall be stated therein.

If the request for variance is disapproved by the planning and zoning commission; the owner or developer may appeal directly to the town council within thirty (30) days from the date of the disapproval and if the Council determines that the variance should be granted, then it shall approve the variance in accordance with the provisions of this chapter.

Sec. 10.12.003 Buildings within proposed major street extensions

After the effective date of this chapter<u>April 2, 2003</u>, no permanent building or structure shall be erected within the extended street lines of proposed extensions of major streets shown on the <u>Major Street Plan or</u> thoroughfare plan adopted as part of the official plan of Town.

Sec. 10.12.004 Enforcement of Chapter

(a)—The Town shall appoint an enforcement officer/or Town Official to enforce the provisions hereof. The enforcing Town Officer/Official may call upon any department or official of the Town to furnish him with such information and assistance as he may deem necessary for the observance or enforcement of this Chapter and it shall be the duty of such department or official to furnish such information and assistance whenever requested.

ARTICLE 10.13 PENALTY

Sec. 10.13.001 Penalty

Any person, firm, or corporation who shall violate any of the provisions of this Chapter or who shall fail to comply with any provision hereof shall be guilty of a misdemeanor and, upon conviction, shall be subject to a fine in accordance with the general penalty provision found in Section 1.01.009 of this code, and each day that such violation continues shall constitute a separate offense and shall be punishable accordingly. In addition, the town reserves its rights to seek declaratory and injunctive relief, together with any other legal or equitable relief to which the town may be entitled in a court of competent jurisdiction, in order to enforce the provisions of this Chapter. The remedy and penalties provided for herein shall be cumulative of any other remedy allowed by law.

(Ordinance 2003-0402-05 adopted 5/12/03)

TOWN OF CROSS ROADS

ENGINEERING DOCUMENT PLANS REVIEW CHECKLIST

Please make sure the plans you are submitting are in accordance with this checklist. The following checklist will be used during the Plan Review.

PRELIMINARY PLAT CHECKLIST:

1.	Preliminary plats shall be placed on maximum 22" x 34" sheets and drawn to a scale of 1" = 100' or 1" = 50' unless approved in advance by the Town.	Yes	No	N/A
2.	Title or name of the subdivision preceded by the words: "Preliminary Plat"	Yes	No	N/A
3.	Name, address and telephone number of the owner, applicant, survey, and/or engineer.	Yes	No	N/A
4.	Volume and page, or deed record number of the ownership deed from Denton County Deed Records.	Yes	No	N/A
5.	Vicinity map and key map, if multiple sheets are needed.	Yes	No	N/A
6.	Date of preparation, written and graphic scale, and north arrow.	Yes	No	N/A
7.	Boundary line of the proposed subdivision drawn with a heavy line.	Yes	No	N/A
8.	Computed gross acreage of the subdivision	Yes	No	N/A
9.	Metes and bounds description of the proposed subdivision.	Yes	No	N/A
10.	Location of the subdivision with respect to a corner of the survey or tract or an original corner of the survey of which it is a part.	Yes	No	N/A
11.	Names of adjoining subdivisions with lots and blocks shown with dashed lines and/or property owners of record for all contiguous unplatted properties.	Yes	No	N/A
12.	Town limits (if within 200 feet of the subject tract)	Yes	No	N/A
13.	Location, dimension, and description and recording information for all existing rights-of-way, railroad rights-of-way, easements or other public ways on or adjacent to the property being developed.	Yes	No	N/A
14.	Show permanent structures or uses that will remain.	Yes	No	N/A

	15.	Sizes and flowlines of existing drainage structures	Yes	No	N/A
	16.	Existing drainage easements	Yes	No	N/A
	17.	100-year floodplain and floodway as defined by FEMA.	Yes	No	N/A
	18.	Location, size and type of all existing utilities within or adjacent lot the site.	Yes	No	N/A
	19.	Existing two (2) foot interval contours referenced to NAD.	Yes	No	N/A
:	20.	Proposed streets, alleys, drainageways, ponds, parks, open spaces, easements, other public areas and other rights-of-way within the subdivision. Dimensions of all easements and rights-of-way.	Yes	No	N/A
	21.	Number each proposed lot and block. Provide the proposed number of lots.	Yes	No	N/A
:	22.	Dimensions for all lots. Gross acreage for all non- residential lots. Approximate acreage for areas in residential use. Approximate acreage of streets, parks, and other non-residential uses.	Yes	No	N/A
2	23.	Front building setback lines and side building setback lines abutting streets.	Yes	No	N/A
:	24.	Preliminary drainage study meeting the requirements of the Subdivision Regulations shall be submitted with the Preliminary Plat.	Yes	No	N/A
:	25.	Tree removal/mitigation/preservation plan showing conformance with the Town's Tree Preservation and Protection requirements.	Yes	No	N/A
	26.	Preliminary Plat approval block as described by the Subdivision Regulations.	Yes	No	N/A
:	27.	Where the Preliminary Plat is part of a larger area owned by the Applicant that will be subsequently subdivided, provide a layout of the larger area showing the tentative layout of streets, blocks,	Yes	No	N/A

drainage, water, sewerage, and other improvements

for the larger area.

FINAL PLAT CHECKLIST

- Final plats shall be placed on maximum 24" x 36" sheets and drawn to a scale of 1" = 100' or 1" = 50' unless approved in advance by the Town.
- 2. Title or name of the subdivision preceded by the words "Final Plat"
- 3. Name address and telephone number of the owner, applicant, survey, and/or engineer.
- 4. Vicinity map and key map if multiple sheets are needed.
- 5. Date, written and graphic scale, and north arrow.
- 6. Boundary line of subdivision drawn with a heavy line and with bearings, dimensions and curve data.
- Names of adjoining subdivisions with lots and blocks shown with dashed lines and/or property owners of record for all contiguous unplatted properties.
- 8. Town limits, if within 200 feet of the subject tract.
- 9. Proposed streets, alleys, drainageways, parks, open spaces, easements, other public areas and other rights-of-way within the subdivision including dimensions, bearings and curve data.
- Right-of-way dedication for adjacent streets in accordance with Town's Comprehensive Plan.
- 11. All proposed streets, alleys, drainageways, parks, open spaces, storm drain facilities, detention ponds, easements, or other public areas and rights-of-way within the subdivision shall be privately maintained. Maintenance Agreement language shall be included on the plat.
- Location, dimension, description and recording information for all existing rights-of-way, railroad rights-of-way, easements or other public ways on or adjacent to the property being platted.
- Location and description of all permanent monuments and control points
- 14. Floodways / Floodplains:
 - a. Show the ultimate 100-year water surface elevation.
 - b. Show the ultimate 100-yr floodplain; specify the source Drainage study

<u>GEN</u>	ERAL			
1.	North arrow clearly shown on each plan sheet.	Yes	No	N/A
2.	Benchmarks shown on each sheet; located on permanent structure outside of construction limits and conveniently spaced (500' +).	Yes	No	N/A
3.	Title blocks, title, sheet number and scales shown.	Yes	No	N/A
4.	Each sheet must bear the seal of a Licensed Professional Engineer, signature, and date.	Yes	No	N/A
5.	Street names on each sheet.	Yes	No	N/A
6. 7.	Property owners and property lines shown. Site boundary and adjacent property lines	Yes	No	N/A
8.	Prepare plans on 22" x 34" sheets allowing for half size reduction to 11" x 17".	Yes	No	N/A
9.	Text shall be legible on the half size 11" x17" plans.	Yes	No	N/A
10.	Place standard general notes on plans.	Yes	No	N/A
11.	Existing, proposed and future facilities must clearly be defined.	Yes	No	N/A
12.	Project name on right end of plan sheets.	Yes	No	N/A
13.	Label roads and ROWs			

<u>COVER SHEET</u> * - The cover sheet shall include:

1.	Project title and type of project.	Yes	No	N/A
2.	Location map.	Yes	No	N/A
3.	Disposal site for excess excavation.	Yes	No	N/A
4.	Index of Sheets (if not included on its own sheet).	Yes	No	N/A
5.	Professional Engineer's seal, signature and date.	Yes	No	N/A
6.	"Release for Construction" note.	Yes	No	N/A

* NOTE: If the Cover Sheet is not furnished, information should appear on other sheets.

<u>GRADING</u> * – Each grading plan shall include:

1.		rizontal scale for grading plans shall be at 1" = on full size drawings.	Yes	No	N/A
2.	gro ma	isting one-foot contours based on an on-the- ound survey or controlled aerial topographic op (dashed lines and labeled) to extend 20 feet m property line onto adjacent property.	Yes	No	N/A
3.		pposed one-foot contours – solid lines and eled.	Yes	No	N/A
4.		ectional flow arrows- interior of lots, streets, d all corners of intersections	Yes	No	N/A
5.	Pro	pposed finished pad elevations	Yes	No	N/A
6.		ow top of curb elevation every 50 feet on eets, alleys, existing and proposed parking s.	Yes	No	N/A
7.		ovide spot elevations along front, back, side d corner of lots.	Yes	No	N/A
8.	8. Slope:				
	a.	Back of street curb to property line: ¼" per foot.	Yes	No	N/A
	b.	Parking lot top of curb to property line: Maximum 4 (horizontal) to 1 (vertical).	Yes	No	N/A
	c.	Any unpaved area to property line: Maximum slope of 4:1.	Yes	No	N/A
	d.	Show driveways with ¼" per foot + 6" from street gutter up to property line.	Yes	No	N/A
9.		tter of approval if grading is proposed on acent property.	Yes	No	N/A

10. Utility easement from abutting property owners. Yes No N/A Plat Checklist Page 8 of 18 (Adopted by Council action on _____, 2023) N/A

11.	Proposed inlets, label and size.	Yes	No	N/A
12.	Proposed pipes, label and size.	Yes	No	N/A
13.	Existing inlets and pipes.	Yes	No	N/A
14.	Plan shall be consistent with proposed drainage boundary delineations	Yes	No	N/A
15.	FEMA floodplain and floodway	Yes	No	N/A
16.	Fully developed 100-yr floodplain and floodplain easement	Yes	No	N/A
17.	Add minimum finished floor elevations for lots affected by or adjacent to floodplain, open channels, or ponds, overflow structures or flumes.	Yes	No	N/A
18.	Show temporary or interim runoff controls needed for phasing.	Yes	No	N/A
	* NOTE: Add statement that grading <u>only</u> is being submitted with these plans.			
DRA	INAGE – Design of Drainage Systems shall include:			
1.	Rational Method calculation for area less than 200 acres.	Yes	No	N/A
2.	Unit Hydrograph Method (SCS) for any size areas (required for areas greater than 200 acres).	Yes	No	N/A
3.	Modified Rational Method includes volume adjustment factors.	Yes	No	N/A
4.	Statement that drainage from the abutting property will not be impaired by the proposed grading.	Yes	No	N/A
5.	No diversion of drainage.	Yes	No	N/A
6.	Offsite drainage or discharge to downstream property will require a letter of permission and/or easements.	Yes	No	N/A
7.	Discharge does not adversely affect downstream	Yes	No	N/A
	property.			
8.	property. Drainage study in support of construction plans must be accepted prior to plan acceptance.	Yes	No	N/A

Plat Checklist Page 9 of 18 (Adopted by Council action on _____, 2023)

- 10. Drainage Area Map:
 - a. 1" = 200' or less with match lines between any two or more maps. Pre- and post-project maps must be the same scale.
 - Show and label existing and proposed stormwater infrastructure including storm drains and inlets, culverts, channels, ponds, etc..
 - c. Calculate sub areas for each inlet and point of analysis.
 - d. Provide existing and proposed two-foot contours on map for on and offsite and include offsite and onsite flow arrows
 - e. Indicate zoning on drainage area.
 - f. Composite C value calculations if needed.
 - g. Show calculations for non-standard time of concentrations.
 - Runoff calculation table for the 10-yr, 50-yr and 100-yr flood events including area, time of concentration, runoff coefficient, intensities, flows, and receiving system (ie inlet number).
 - i. If detention pond required, flood events include 2, 5, 10, 25, 50, and 100-yr
 - j. Calculate discharge at all inlets, dead-end streets and alleys or to adjacent additions or acreage.
 - k. If phased, include interim and ultimate drainage area maps.

11. Hydraulic Calculations:

- a. Calculations of:
 - 1) Spread of water.
 - 2) Inlets.
 - 3) Street capacity.
 - ROW capacity.
 - 5) Hydraulic grade line for conduits.
- b. For cumulative runoff, show calculations.
- c. Define all crests, sags and streets and alley intersections with flow arrows.

nd alley			N/A

Plat Checklist Page 10 of 18 (Adopted by Council action on _____, 2023)

12.	Curbs for alleys where capacity is exceeded.	Yes	No	N/A
13.	Storm water from streets does not flow into alleys or drives.	Yes	No	N/A
14.	Emergency overflow for 100-year storm at low points or design for 100-year storm.	Yes	No	N/A
PAV	ING PLAN – Each Paving Plan shall include:			
1.	Horizontal scale for paving plans shall be at 1" = 20' on full size drawings.	Yes	_ No	N/A
2.	Right-of-way, street, alley, drives and sidewalks dimensioned.	Yes	_ No	N/A
3.	Centerline stations shown.	Yes	_ No	N/A
4.	Limits of work defined.	Yes	No	N/A
5.	Barrier free ramps at all intersections.	Yes	No	N/A
6.	Pavement transitions.	Yes	No	N/A
7.	Traffic control items; striping, traffic buttons, sign.	Yes	No	N/A
8.	Street lighting.	Yes	No	N/A
9.	Concrete/asphalt pavement thickness with supporting Geotech recommendations.	Yes	No	N/A
10.	4,000 psi in 28 days concrete compressive strength or asphalt equivalence for streets, alleys, and driveways.	Yes	No	N/A
11.	6" curbs where required.	Yes	No	N/A
12.	Reinforcement with No. 4 bars 24" o.c. both ways.	Yes	No	N/A
13.	Sidewalks to be 4" thick, 3,600 psi in 28 days, reinforced with No. 3 bars 14" O.C.E.W.	Yes	No	N/A
14.	Expansion joints at intersection and at minimum 600-foot intervals for concrete pavements.	Yes	No	N/A
15.	Saw cut at 15-, 17.5- and 20-foot intervals for 6- inch, 7-inch and 8-inch pavements respectively.	Yes	_ No	N/A
16.	Radius for fire lanes shall be minimum 30-foot inside and 50-foot outside	Yes	No	N/A
17.	Gutter flow arrows.	Yes	No	N/A
18.	Roadways comply with thoroughfare plan.	Yes	No	N/A
19.	Geometrics meet design speed criteria as defined in AASHTO criteria, latest edition.	Yes	No	N/A

d in AASHTO criteria, latest edition. Plat Checklist Page 11 of 18 (Adopted by Council action on _____, 2023) 20. Retaining Walls:

	a.	Type, beginning and ending locations and wall elevations.	Yes	No	N/A
	b.	Provide design if non-standard or modified.	Yes	No	N/A
	C.	Drainage behind walls shown.	Yes	No	N/A
21.	Driv	veway grades shown.	Yes	No	N/A
22.		pare plans and necessary forms for TDLR ns review and field inspection.	Yes	No	N/A
23.	Dev fees	veloper to pay for all review and inspection s.	Yes	No	N/A
PAV	ING	PROFILES AND GRADES – Plans shall include:			
1.		tical scale for paving profiles shall be at 1" = n full size drawings.	Yes	No	N/A
2.		files plotted showing ground at proposed perty line.	Yes	No	N/A
3.	max	o of curb profiles must meet minimum and kimum grade requirements. Use PGL ations where no curbs.	Yes	No	N/A
4.	Roa	adside ditch profile if no curbs	Yes	No	N/A
5.	Driv	veway profile grades.	Yes	No	N/A
6.		tical curves must be designed in accordance AASHTO design requirements.	Yes	No	N/A
7.	Cor	ntour grading plans for major intersections.	Yes	No	N/A
8.		ot top of curb or pavement elevations in plan v on proposed left turn lanes.	Yes	No	N/A
9.	Are	eck carefully for any place water might pond. inlets located at sag points or vertical ves?	Yes	No	N/A
10.		grades, crossfall, slopes, etc., consistent with rmation shown on typical section?	Yes	No	N/A
11.	drai	eck ends of project for drainage. If gutters in to ditches or field type inlets, are grades profiles shown?	Yes	_ No	_ N/A
12.		imum grades maintained to assure complete nage. Minimum grades shall be 0.60%.	Yes	No	N/A

CLOSED CONDUIT STORM DRAINS – All storm drain plans shall include:

1.		contal scale for storm drain profiles shall be = 20' on full size drawings.	Yes	_ No	_ N/A
2.		cal scale for storm drain profiles shall be at 4' on full size drawings.	Yes	_ No	_ N/A
3.	Plan	and profile of all proposed storm drains.	Yes	_ No	_ N/A
4.	Statio	on of laterals on trunk profile.	Yes	_ No	_ N/A
5.	Plan	view of each area showing			
	a.	Size of inlet.	Yes	_ No	_ N/A
	b.	Lateral size.	Yes	No	_ N/A
	C.	Flow line.	Yes	_ No	_ N/A
	d.	Paving station.	Yes	_ No	_ N/A
	e.	Top of Inlet elevation.	Yes	_ No	_ N/A
6.	Deta	ils of all non-standard items.	Yes	_ No	_ N/A
7.	Curv	e data for storm drains.	Yes	_ No	_ N/A
8.	Prop	erty lines and easements with dimensions.	Yes	_ No	_ N/A
9.		s III RCP required for all storm drain in c rights of way or easements.	Yes	_ No	_ N/A
10.	Plot ł	nydraulic grade line (HGL).	Yes	_ No	_ N/A
11.	chan surfa	n drain discharge at flow line of creek or nel and use rip-rap. Show coincident water ce elevation at outfall. Show existing and osed contours at outfalls.	Yes	_ No	_ N/A
12.	Heac drain	lwalls and erosion control at outfall of storm s.	Yes	_ No	_ N/A
13.	Later	als connected at 45 or 60 degree angle.	Yes	_ No	N/A
14.	Matc	hing pipe centerline at connection.	Yes	_ No	N/A
15.	3600 stren	psi in 28 days for structural concrete gth.	Yes	_ No	_ N/A
16.	Exist	ing and proposed utilities in plan and profile.	Yes	_ No	_ N/A
17.	On p	rofile indicate:			
	a. C	Grade.	Yes	_ No	N/A
	la	Tow line elevations every station and at ateral connections, pipe size changes and ittings.	Yes	_ No	_ N/A

Plat Checklist Page 13 of 18 (Adopted by Council action on _____, 2023)

	~	Eviating and proposed ground line	Vaa	No	ΝΙ/Δ
	U.	Existing and proposed ground line.	165	NU	N/A
	d.	Hydraulic grade line and data.	Yes	No	N/A
	e.	100-yr flow, 100-yr velocity, slope, pipe capacity	Yes	No	N/A
	f.	Existing and proposed grade, tie-ins and coincidental water surface elevation at outfalls.	Yes	No	N/A
	g.	Flow, velocity, frictional slope and full pipe capacity for each pipe segment.	Yes	No	N/A
18.	Sho	ow sizes in plan and profile.	Yes	No	N/A
19.	whe con calc size pipe	ow hydraulic computations for existing system en connecting to existing storm drain. Extend nputations to an outfall with known or culated starting HGL. Show existing line and e, length, slope, 100-yr calculated discharge, e capacity, 100-yr calculated velocity and raulic grade line for the existing line.	Yes	No	N/A
20.	Der	ocities and hydraulic gradients conform to nton County Subdivision Rules and gulations criteria.	Yes	No	N/A
21.	deta	ts and conduits properly sized. Provide ailed HGL and inlet computations on all inlets I conduits.	Yes	No	N/A
22.	Sto	rm drain inlet and outlet velocity calculations.	Yes	No	N/A
23.	size elev	posed culvert profiles shall include: culvert e, length, grade, flowline elevations, tailwater /ations, headwater elevation, flow, velocity, e of headwalls.	Yes	No	N/A
24.	Incl	ude standard drainage details.	Yes	No	N/A
25.	Sho	w/label and dimension drainage easements.	Yes	No	N/A
CRE	EKS	S AND CHANNELS – Plans of creeks and channels sl	nall include	:	
1.		izontal scale for plan views shall be at 1" = on full size drawings.	Yes	No	N/A
2.		tical scale for profile views shall be at 1" = 4' full size drawings.	Yes	No	N/A
3.	Sta	tioning in plan and profile.	Yes	No	N/A
4.	Exi	sting and proposed contours	Yes	No	N/A

5. Show/label and dimension drainage / floodplain easements

Plat Checklist Page 14 of 18 (Adopted by Council action on _____, 2023 Town Council Agenda Packet 219 of 223

Yes _____ No _____ N/A _____

6. Profiles indicating:

	a.	Existing and proposed ground elevations at centerline. Label proposed flowlines at stations .	Yes	No	N/A
	b.	High banks. Left and right top of banks	Yes	No	N/A
	c.	Channel grade.	Yes	No	N/A
	d.	Hydraulic profile and data for design storm (fully developed 100-yr)	Yes	No	N/A
	e.	Rock line.	Yes	No	N/A
7.	Hyd	draulic Computations.			
	a.	100-year discharge	Yes	No	N/A
	b.	Velocity	Yes	No	N/A
	c.	Critical depth	Yes	No	N/A
	d.	Manning's "n"	Yes	No	N/A
	e.	Design grade for improved channels	Yes	No	N/A
8.	Cro	ss sections as relative to property line.	Yes	No	N/A
9.	hyd elev	ess sections include dimensions, elevations, Iraulic parameters, 100-yr water surface vation and property/ROW or drainage sement lines. Show 1' freeboard.	Yes	No	N/A
10.	Ero	sion control.	Yes	No	N/A
11.	Cor	npacted fill where fill required.	Yes	No	N/A
12.	velo	sign velocities not greater than original stream ocities or greater than stated in Design nual.	Yes	No	N/A
13.		ximum side slope on earthen channels not ater than 4:1. Use trapezoidal.	Yes	_ No	_ N/A
14.		vide structural details of all outfalls, drop ictures, energy dissipater.	Yes	No	N/A

BRIDGES - Plans of bridges shall include:

1.	Lowest member of bridge 2 feet above design water surface elevation.	Yes	No	N/A
2.	Soil Borings on plans.	Yes	No	N/A
3.	Soils report.	Yes	No	N/A
4.	Channel sections upstream and downstream.	Yes	No	N/A
5.	Structural details and calculations with dead load deflection diagram.	Yes	No	N/A
6.	Vertical and horizontal alignment.	Yes	No	N/A
7.	Bridge cross section.	Yes	No	N/A
8.	Hydraulic calculations on all sections.	Yes	No	N/A

<u>UTILITIES</u> – All water and wastewater plans must be submitted to Mustang by the applicant for review and approval. In addition to Mustang requirements, all plans shall show the following:

1.	Existing and proposed facilities shown in plan and profiles views.	Yes	_ No	_ N/A
2.	Underground facilities close to or in conflict with proposed construction located by actual ties and elevations.	Yes	_ No	_ N/A
3.	Caution notes shown when construction operations come close to existing utilities. Telephone number of utility contact shall be shown.	Yes	No	_ N/A
ERC	DSION CONTROL – All plans shall show the following:			
1.	The scale for Erosion Control Plans may vary however shall be prepared on sheets no smaller than 1" = 100' on full size drawings.	Yes	No	_ N/A
2.	Existing and Proposed Grading. Contour interval shall be 1' or 2'.	Yes	No	_ N/A
3. (Onsite and offsite directional flow arrows			
3.	Existing and Proposed Drainage Features.	Yes	No	_ N/A
4.	Erosion features including temporary construction entrance, silt fence, inlet protection, rock berms, seeding, etc.	Yes	No	_ N/A
5.	Include in legend all applicable erosion and sediment control measures.	Yes	No	_ N/A

6.	Erosion control standard details.	Yes	_ No	N/A
7.	Show and label FEMA floodplain include panel number, zone and effective date.	Yes	_ No	N/A

DRY DETENTION POND - Pond sheet (s) shall show the following:

1.	Modified Rational Method calculations for the 2, 5, 10, 25, 50, and 100-yr storm events. Include volume adjustment factor	Yes	No	N/A
2.	Hydrologic Model if using Unit Hydrograph Method (SCS)	Yes	No	N/A
3.	Plan view with existing and proposed contours and pond outfall details	Yes	No	N/A
4.	Cross sections showing all dimensions, slopes, elevations, resulting water surface elevations, top of pond elevation, easement lines, embankments (10' crown width	Yes	No	N/A
5.	Longitudinal cross section showing outfall; including all dimensions, elevations, slopes, water surface elevations, tailwater elevation	Yes	No	N/A
6.	Maximum 4H:1V side slopes and minimum 0.50% longitudinal slope.	Yes	No	N/A
7.	Outflow calculations; include all hydraulic parameters and account for backwater	Yes	No	N/A
8.	Results table including inflow, outflow, storage, and water surface elevation for the 2, 5, 10, 25, 50, and 100-yr flood events	Yes	No	N/A
9.	Outfall details suitable for construction	Yes	No	N/A
10.	Elevation vs Area/Storage rating table	Yes	No	N/A
11.	Elevation vs outflow rating tables	Yes	No	N/A
12.	Emergency spillway with calculations	Yes	No	N/A
13.	Maintenance access provided	Yes	No	N/A

PAVEMENT MARKINGS AND SIGNAGE

1.	The scale for Pavement Marking Plans may vary however shall be prepared on sheets no smaller than 1" = 100' on full size drawings.	Yes N	No N/A
2.	Pavement Markings and Signage Plan in accordance with MUTCD.	Yes N	No N/A
3.	Pavement Markings Standard Details.	Yes N	No N/A
TRA	FFIC CONTROL PLAN		
1.	The scale for Traffic Control Plans may vary however shall be prepared on sheets no smaller than 1" = 200' on full size drawings.	Yes N	No N/A
2.	Traffic Control Plan in accordance with MUTCD.	Yes N	No N/A
3.	Traffic Control Standard Details.	Yes N	No N/A
4.	Traffic Control Phasing as necessary.	Yes N	No N/A
LAN	IDSCAPE AND IRRIGATION PLANS		
1.	The scale for Landscape and Irrigation Plans may vary however shall be prepared on sheets no smaller than 1" = 100' on full size drawings.	Yes N	No N/A
2.	Landscape Plan showing rights-of-way and proposed back of curbs, sidewalk, existing; and proposed utilities and other features pertinent to the plan.	Yes N	No N/A
3.	Planting details.	Yes N	No N/A
4.	Tree Preservation plan in accordance with Article 3	Yes N	No N/A
5.	Irrigation Plans including metering, back flow prevention, and provision for electrical service and controllers.	Yes N	No N/A
6.	Irrigation details.	Yes N	No N/A
STI	REET LIGHTING		
1.	The scale for Street Lighting Plans may vary however shall be prepared on sheets no smaller than 1" = 100' on full size drawings.	Yes N	No N/A
1.	Lighting and Conduit Layout Plan.	Yes N	No N/A
2.	Lighting Standard Details.	Yes N	No N/A
